

**ABOUT THE CAMPUS**

The offices of the engineering college have been visited by the following alumni during the past week. E. J. Kraus, C. E. '13, of the C. V. Kraus Company of Omaha, who is in charge of the steel construction work for the new Lincoln Hotel annex; and L. C. Ziegler, E. E. '18, who dropped in on his way to Toledo, where he is to take up the student course offered by the Doherty Construction Company.

R. P. Lintz, who was recently released from the air service, reached Lincoln Thursday and registered for the completion of his course in the agricultural engineering department.

Estelle Ducker, '00, now county superintendent of school with headquarters at Red Cloud, Nebr., visited Miss Whyman of the English Department last week.

Three new members have been elected to the W. S. G. A. board. They are Florence Wilcox, junior, Lois Melton, sophomore, and Mary Sheldon, sophomore.

**Medical Dispensary**

University authorities wish to call the attention of the student body to the free medical dispensary established on the top floor of Pharmacy Hall. This dispensary is maintained by the dollar fee required of all students and it is hoped that they will take advantage of it. Students can come at any time. A registered nurse, Miss Dykma, is there every day except Sunday. Dr. Webb will be at the dispensary from eight to ten in the morning and Dr. Filbrick from one to three in the afternoon. In case of emergency a student may see the nurse at any hour. On the first floor of Pharmacy Hall is a dispensary where a registered pharmacist will fill prescriptions and sell medical supplies at cost price. The services of the dispensary are free and every student is urged to take advantage of them.

**UNI NOTICES**

**Monitors Wanted**

Wanted ten upper classmen to act as monitors for the Freshman Lecture on Tuesday at 11 a. m., and Thursday at 5 p. m. each week in the Temple theatre. A certain amount of time in addition to attendance at the lectures will be required. Those desiring the position will call on the Dean of the Arts College, U 101 Thursday morning at 11 o'clock. Work will be paid for by the hour.

P. M. BUCK,  
Dean of the Arts and  
Science College

**Applications for News Editor**

Applications for the position of news editor of the Daily Nebraskan will be received at the student activities office until noon, Wednesday, October 8.

**Ex-Service Men**

All men, both students and faculty who have seen service abroad or at home are requested to meet Tuesday night at seven o'clock at Memorial Hall to organize a University Post of the American Legion. The government of the legion will be in the hands of students and faculty men.

**Swimming Requirements**

All girls who intend to take swimming this year must have a ticket. To secure a ticket one must have a medical examination by Dr. Philbrick and pay the fee of \$3 at the Finance Office. The ticket will be issued at the office of the woman's gymnasium, when a permit from Dr. Philbrick and the receipt for the fees are presented. The first class met Friday afternoon. One hour credit is given to juniors and seniors if they have finished the first two years of physical education. The classes will be held from 7 to 9 p. m. Tuesday and Thursday and at 2:30 p. m. Saturday at the high school pool.

**Dramatic Club**

The Dramatic Club will meet at 7:30 Thursday evening.

**Big Sisters Picnic**

A wiener roast for Big Sisters and Little Sisters will be held at Antelope park, 5-6 p. m., Thursday. Tickets may be obtained from the senior advisory board for thirty-five cents.

**Awgwan Solicitors**

All persons having Awgwan subscription books please return same to student activities office not later than Wednesday.

**Decoration Committee**

There will be a meeting of the Decoration Committee, for the All-University Party Oct. 11th, at the Delta Gamma House at eight o'clock on the evening of October 6th. All members are requested to attend.

**Applications for News Editor**

Applications for the position of news editor of the Daily Nebraskan will be received at the student activities office until noon, Wednesday, October 8.

**Y. W. C. A. Vespers**

Y. W. C. A. vesper exercises will be held in Faculty Hall at 5 p. m., Tuesday. Miss Claire McKinnon, the general secretary, will lead the meeting. Every university girl is invited to attend.

(Continued on Page One.)  
**FIVE HUNDRED GIRLS ATTEND JOINT PARTY**

American canteen very near the front during the Meuse-Argonne drive. It was part of her work to meet the wounded boys who were brought in to the hospital. They were carried in on litters by the hundreds. They bravely faced death or life as cripples.

A severely wounded boy, not knowing that anyone was near, groaned. When asked if the wound hurt very badly, he gallantly replied, "It isn't so bad now."

One soldier at the point of death said, "No, I shall never get well, but it isn't hard to die for your mother and for your country."

Miss Howell said, "They taught us that there is no death such as we call death. . . . They are going onward and upward."

She concluded with an exhortation for women to help the returned soldiers. "I do ask you to register a vow to be loyal to them, to be democratic to them and to show them a reverence."

Each number on the program was a work of art, and the whole party was a big success.

Most American doughboys will sympathize with Edward Streeter's Bill in his struggles with French currency. Bill writes:

"The French seem glad to see us but they can't express themselves very well. They don't seem to get the same kind of French the fellow learned us in the Y. M. C. A. last winter. They're all mixed up on their money too. About the only way a fellow can buy anything is to hold out all he's got and let them take what they want. I guess they'll never overcharge me by taking all I can hold out."

"The whole system is based on the Sue. Mable. As near as I can make out a Sue ain't worth anything. A hundred Sues make a Centimeter and a hundred Centimeters make a Frank. Five Francks make a dollar only now they don't. That gives you an idea how simple it is to go into a store and figger what you can buy with a quarter." From SAME OLD BILL, EH MABLE by Edward Streeter, the new volume of Bill's letters to Mable, just published by Stokes.

**The "Constitution" of To-day—Electrically Propelled**

THE U. S. S. "New Mexico," the first battleship of any nation to be electrically propelled, is one of the most important achievements of the scientific age. She not only develops the maximum power and, with electrical control, has greater flexibility of maneuver, which is a distinct naval advantage, but also gives greater economy. At 10 knots, her normal cruising speed, she will steam on less fuel than the best turbine-driven ship that preceded her.

The electric generating plant, totaling 28,000 horsepower, and the propulsion equipment of the great super-dreadnaught were built by the General Electric Company. Their operation has demonstrated the superiority of electric propulsion over old-time methods and a wider application of this principle in the merchant marine is fast making progress.

Six auxiliary General Electric Turbine-Generators of 400 horsepower each, supply power for nearly 500 motors, driving pumps, fans, shop machinery, and kitchen and laundry appliances, etc.

Utilizing electricity to propel ships at sea marks the advancement of another phase of the electrical industry in which the General Electric Company is the pioneer. Of equal importance has been its part in perfecting electric transportation on land, transforming the potential energy of waterfalls for use in electric motors, developing the possibilities of electric lighting and many other similar achievements.

As a result, so general are the applications of electricity to the needs of mankind that scarcely a home or individual today need be without the benefits of General Electric products and service.

**Figures that tell the Story of Achievement**

Length—624 feet  
Width—97 feet  
Displacement—32,000 tons  
Fuel capacity—a million gallons (fuel oil)  
Power—28,000 electrical horsepower  
Speed—21 knots

An illustrated booklet describing the "New Mexico," entitled, "The Electric Ship," will be sent upon request. Address General Electric Company, Desk 44, Schenectady, New York.
