"HELLO WEEK"

On November 15—Homecoming Day was inaugurated the first Nebraska "Hello" day. Do you remember it? Do you remember the little thrill you felt when someone who had always been a sort of far-away idol of yours, called a cheery "hello" across the campus to you? Or when you spoke to a strange classmate, how his smile lingered in your consciousness. Of course everyone did not try the plan, but those who did found it a very satisfactory experiment.

Remembering that successful day, why not begin this semester with a "hello week"? There are many new students on the campus and many old ones whom you do not know. Let's start this semester with a democratic, fellowship spirit that will make a deep impression.

After all, everyone wants friends, and underneath your neighbor's distant manner is that same desire. His reserve may only be shyness and if you make him forget himself and his nervousness, he will respond readily. Don't be afraid to make the first advances. It is always the big, broad-minded man who first says that he is sorry, who first apologizes and who first recognizes the claims of his fellow citizens. So in speaking to the other man first, you put yourself in the class of true, democratic Americans.

As you do into new classes, many of your old class-room acquaintances will be gone. Do not let those friendships be lost—watch for your former friends on the campus and make it a point to remember them. Moreover, get acquainted with your new classmates and make these friendships ones to last beyond weekly, monthly or semester ties.

THE NEW SEMESTER

Registration is over and the new work has begun. Registration to some means merely a continuation of more or less interesting subjects, in some cases less attractive because taken merely for a requirement with no special aim in view. These are the people who find much of life's work drudgery, for they do not try to develop themselves along any but selfish lines. To others, registration means embarking upon entirely new fields of work. A new semester will have a different significance for the freshman, the middle-classman and the senior.

The idea of individual responsibility belong to the freshman. He must adapt himself to an entirely different atmosphere than that of the high school or academy. He will no longer be guided and supervised by his teachers, except in a general way. Consequently he must learn to work out his own system of study, to discipline himself in school and social relations—and to accept success or failure from the self-inflicted view-point. The way in which the freshman adapts himself to these strange and often confusing surroundings and applies himself to school work and making friendships, will have much influence on his future successes in life.

Each registration brings added responsibilities and problems, and as the undergraduate progresses in university, he must adopt a broader outlook on life. His ideas of world problems, business and society become more complex, and the wise student will arrange his course to meet these problems. The university age is really the growth period of life and he who makes the most of those four years will be well rewarded.

The senior perhaps pays more attention to this last semester than anyone. It is his last opportunity to round out his education in order to make his university life valuable to future business adventures. It is his last few months in the circle of university friendships, of which there is no equal anywhere.

The result of the vote on the question of teachers' salaries shows that Lincoln people are standing back of education. This overwhelming opinion of the Lincoln patrons proves that they are certainly thinking right on the subject and are beginning to realize the market value as well as the cultural benefits of education. This election should be of interest to all university students, since they will be called upon to support and back educational movements in their home communities.

The senior class held its first party of the year at the Lincoln Hotel, in the main dining room, when about seventy-five couples were present.
