ROAD INSTITUTE PLANS PROGRAM

Nebraska Good Roads Boosters
Will Meet on Campus
March 1 to 5.

1920 HIGHWAY PROGRAM OUTLINED

All arrangements are now completed for the program of the third Nebraska road institute, which will be held under the auspices of the engineering college the week of March 1 to 5, inclusive, on the city campus of the university.

Some features of the institute this year will be a get together and get acquainted smoker on the evenings of March 1. On Thursday evening the annual banquet will be held at the Lincoln hotel. Prof. O. W. Sjogren of the department of agricultural engineering will have charge of the roads institute banquet this year. It promises to be the largest and best banquet in the history of the road institute. The evenings of Tuesday and Friday will be kept open to allow a sufficient time for meetings of road organizations other than the road institute.

Among the talented speakers the following have been secured. Their subjects will be as indicated:

Address, A. Barnett, dean of Nebraska road boosters.

Federal Aid in Nebraska, James C. Wonders, federal district engineer.

Administration and Organization of Departments of Public Works, E. H. Mosey, chief of the bureau of roads.

Construction of State Highways, A. S. Mirick, chief construction engineer. George E. Johnson, secretary department of public works.

DR. RIZK ADDRESSES STUDENT VOLUNTEERS

Lincoln Physician, Native of Syria,
Tells of That Country's Social
and Educational Future.

On Tuesday evening Dr. Rizk, one of Lincoln's prominent physicians, addressed the Student Volunteers of the university. Dr. Rizk is a native of Syria, having spent the greater part of his life in Galilee, near Nazareth. He was educated in a Christian mission college, from which he took his A. B. degree. Later he came to America, entered the University of Nebraska and completed the work for a degree of Doctor of Medicine.

Dr. Rizk spoke of the importance of Syria as a potential, commercial, social, educational, and religious center. He pointed out the significant part it was destined to play as the great commercial highway between Egypt and Africa, and the European and Asiatic countries. Germany in her plans for world dominion, recognized this fact and entered the teaching of the Syrian language in many of her schools. Because of its location

DR. LELAND TO SPEAK AT Y. M. C. A. FORUM TODAY

Dr. Dean R. Leland, Presbyterian Student Pastor, will lead the discussion at the Y. M. C. A. Forum today at five o'clock on the subject, "What Constitutes Success or Failure?" The following phases of the question will be considered: "Does a Bank Account in Five Figures Help?" "Does Blue Blood Help?" "Can Your Occupation Help or Hinder Your Success?" All university men are urged to attend.

DeBAUFRE GIVES PLANS FOR ENGINEERING COURSE

An outline of tentative plans for the mechanical engineering course was given by Prof. W. DeBaufre, head of the department, at the meeting of the mechanical engineers Wednesday night. The plans involve a correlation of the shop units into a more direct factory form and the production of engines on a production basis. C. A. Sjogren gave an account of his trip to the east to buy machines that could be used in the department at Nebraska.

HUSKERS SEEK TO RETURN TO VALLEY

Nebraska Will Reapply for Membership in Missouri Conference.

Nebraska will seek readmission to the Missouri Valley conference as a result of action taken by the university board of regents at its meeting Tuesday afternoon.

The regents requested Chancellor Samuel Avery to write to the heads of the conference and ask that the Husker institution be readmitted. Chancellor Avery will make the request for readmission.

It is a question of whether Nebraska will be immediately reinstated to the conference, although a majority of the schools are known to be favorable to the Husker return to the fold. Nebraska has a game scheduled with Rutgers next fall to be played in New York City. The game is in direct violation of the Valley rules, which prohibits the playing of games off of the college campus.

The governing heads of the conference may decide to readmit the Husker institution immediately as soon as the Rutgers game is played or may decide to overlook the New York City game and immediately reinstate Nebraska.

Only One Omaha Game

In the event that the Huskers are immediately taken into the conference, it would be impossible under the Valley rules to play another game in Omaha. Providing that the Huskers are not readmitted to the conference until after the Rutgers game next fall, Nebraska could play one of the games scheduled for the 1920 season in Omaha but would have to abandon further contests in the metropolis after that date.

POINTS OF INTEREST

THE MUSEUM

Probably one of the most interesting and least known buildings on the campus is the museum where many rare and wonderful sights greet the eye.

As you enter the door, to the left stands a huge block of valuable wood, Pseudotsuga Taxifolia. This block of wood is of the yellow fir tree, an Oregon Pine. This wood is 525 years old.

This tree ranges from British Columbia to Mexico, but is at its best in Oregon and Washington where it forms large forests and sometimes exceeds 300 feet in height. It is the most valuable tree of the Pacific region. The wood of this tree is hard, strong and durable. It is very difficult to work with it and it is largely manufactured into lumber and used for all kinds of construction. The bark of this tree is serviceable for tanning.

This tree is distinguished from the hemlock-spruce by the absence of resin-vesicles in seeds, by smooth branches and by cones fringed with

TAKE-OFF NIGHT TO BE APRIL 17

Evening of Fun Again Postponed
Because Date Set Conflicts
With State Tourney.

HIGH SCHOOL TO BE STAGE

University night has been postponed to April 17. This is the earliest date when both a closed night can be set and a building can be secured. The high school auditorium will be used.

This is the third date that has been set for university night. It was originally scheduled for March 6, but the committee in charge found the city auditorium could not be used on account of an order of the fire commissioners and that no other large place of assemblage could be obtained for that evening. It was then postponed till March 13. This date was also found unsatisfactory because it conflicted with the state high school basketball tournament.

Other university activities, including university week, April 3-10, and the use of the high school auditorium for other events make it impossible for an earlier date than April 17 to be set.

FORMER NEBRASKA MAJOR DISPERSES VIOLENT MOB

Adjutant General DeWeese Plays
Prominent Role in Kentucky
Race Riot.

Major Morrison is in receipt of a Louisville (Kentucky) newspaper telling of the stirring scenes during the recent riots in Lexington, in which former Major J. M. DeWeese of the military department figured prominently. Former Major DeWeese is now adjutant general of the Kentucky National Guard and it was in this capacity that he took charge of the situation when serious trouble was threatening.

The trouble grew out of the murder of a child. A negro was convicted and sentenced to the electric chair. The crowd which was gathered about the courthouse suddenly became threatening. The newspaper report of the affair continues, "The front ranks pressed from behind, slowly

OFFICIAL NOTICE

The five men who have been fined for falsifying lunch checks at Miller and Paine's cafe or for leaving without paying, have been placed on probation. Further offense of this either on the part of these men or any other student in the university will be followed by suspension.

DEAN ENBERG SAYS AMUSEMENT CRAZE CAUSE OF FAILURES

"A good many students have found that loafing on the job does not pay," said Dean Engberg yesterday when questioned about the unusually large number of students expelled from the university for failure in work last semester. "One good reason for the delinquency," he continued, "is the craze for amusements."

That the delinquency board has been more than usual this semester is the opinion of upperclassmen in the institution. "A great many students have had to be sent home," said Dean Engberg, "and a large proportion of students not falling have not secured the good they should have received from their studies."

W. S. G. A. WILL GIVE TEA IN WOMAN'S HALL

The W. S. G. A. is in charge of a tea which is to be held Friday afternoon from three to five at Woman's Hall.

This is the first of a series of teas which are to be held weekly under the auspices of the different woman's organizations of the school. The entertainments at the teas will be varied and interesting, and all girls of the university are urged to attend.

WRESTLERS CHOSEN FOR OMAHA MATCH

Mat Artists Selected Yesterday
in Tournament to Pick
Winners.

The second day of the wrestling tournament marked the completion of bouts in all classes except the 158-pound event. The tournament was held to pick a team to send to Omaha for the matches with the Omaha, February 23. The following men, if eligible, will represent Nebraska at Omaha: 125-pound class, Votapka; 135-pound class, Long; 145-pound class, Troendly; 175-pound class, Pickwell; heavyweight class, Hoyt. These men, with the exception of Troendly, were winners in their respective classes.

The tournament produced many close bouts. Following is a summary of finals: 125-pound class, Votapka, vs. Kunze. Won by Votapka on a fall in the second bout and a decision in the first.

135-pound class, Long vs. Salter. Won by Long on a decision.

145-pound class, Thomas vs. Paulson. Won by Thomas on a fall in the first bout and a decision in the second.

158-pound class, undecided.

175-pound class, two out of three falls.

Heavyweight class, Hoyt vs. Dale. Won by Hoyt. Hoyt won the first fall and Dale defaulted.

PROF. MICKEY ELECTED TO GOOD ROADS COUNCIL

Prof. Clark E. Mickey, of the engineering college, has been elected to life membership in the General Council of the United States Good Roads Association. This includes membership in the Nebraska State Council and is considered a high honor.

DID YOU KNOW THIS

Was there ever a person who did not enjoy himself poking around in an old attic and allowing his memory exercise itself in little imaginings about what might have happened there once upon a time? He picks up a scrap of something or other and the first thing he knows, he is buried deep in a soliloquy and has thought of all kinds of things and events and persons with which the thing he holds in his hand may have been associated. Well, since he has come to the university, perhaps he hasn't thought much about attics, probably because it has never occurred to him that a university might have attics or garrets. Well, they have, and nice spooky, dusty, and cobwebby ones they are too! And just packed full of old rubbish! Some people think janitors have no sense of imagination but they have in the university or they wouldn't be keeping all the junk piled away that they do.

So the next fine day that there is no class because the Lincoln Traction Company was at fault or the baby had the croup or the thousand and

CATHOLICS SEEM OVER-CONFIDENT

Notre Dame Sure That Huskers
Will Fall Easy Victims to
Clever Court Tactics.

GAMES BEGIN TOMORROW NIGHT

Confident that the Nebraska Cornhuskers will fall easy victims to their clever court tactics, the Notre Dame basketball quintet is coming to Lincoln tomorrow for a two-game tangle with Coach Schissler's basketeers. Although the Catholics do not have a clean record so far this year, they have met and defeated some of the very strongest basketball teams in the country and are a bunch of hoopsters much to be feared. Only last week they downed Coach Gauthier's Michigan Aggies at Notre Dame by a decisive score and also won from the fast five representing Wabash College. This latter school is known all over the middle west for the great basketball teams it produces. For the past few years they have outclassed all Big Ten and Missouri Valley teams.

Much has been heard of Notre Dame's particular shining light. His name is Mehre and he is reputed by critics and players everywhere to be a wonder at the basket game. "Notre Dame has a man who can hit the basket from any place on the floor," was the final warning sounded in the Huskers' ears by the Michigan Aggies. And this man is Mehre. There is no reason to doubt that the Irish wonder is every bit that his adherents claim he is and his work against the

(Continued on Page Four.)

WILL TELL ENGINEERS BENEFITS OF GOOD ROADS

Mr. Harry Burhans of Denver
Secured to Address Nebraska
Road Institute.

A prominent Denver man has been secured to give an address before Nebraska Road Institute in Lincoln from March 1-5. Mr. Harry Burhans, secretary of the Denver Tourist and Publicity Bureau will talk on the value good roads have been to Denver. He estimates that road improvements in the vicinity of Denver has increased the number of tourists 100,000. He will show the benefits derived by the community from good roads.

Actual demonstration of road construction and maintenance will be given on the third day of the convention, March 3. The work will be under the charge of the county engineer. A small space has been reserved in the basement of the mechanical engineering building for stationary exhibits. Any person desiring to make an exhibit should communicate with Prof. C. E. Mickey of the engineering college.

"N" CLUB MEETING

A meeting of the "N" Club is called at the the atthedei ctr
A meeting of the "N" Club is called at the athletic office, promptly at seven-thirty to-night. Because of recent developments all plans and committees for the basketball tournament must be reorganized. Every member is most urgently requested to be present without fail. It is a meeting of utmost importance.
