TEACHERS' COLLEGE TO BE SCENE OF FOUR MEETINGS

The Teachers' College will be used to its full capacity this evening. The Scout Masters' Training Course, the Seminar in Education, the Bible training class for Christian leaders and the Training School in Vocational Education will hold meetings in the building. About two hundred and fifty persons are expected to attend the various meetings.

JEST NIGHT SKITS DUE NEXT MONDAY

(Continued from page 1)
 The committee urges that special attention be paid to the creation of skits and that all organizations check up their progress during any meetings held this week. A very favorable outlook is reported. The committee will have the duty of eliminating the skits of lesser merit. It urges that all reports be specific and concrete so that no deserving skits will be thrown out on account of poor briefs.

This is the tenth annual University Night. It will be held in the High School auditorium. It is the one night when all restraint is forgotten.

DR. HOLMES TALKS ON "AN EXTRA DAY" AT VESPERS

Dr. John A. Holmes, of the First Congregational Church, addressed one hundred students at the Y. M. C. A. and Y. W. C. A. Vespers Sunday afternoon, on the subject "An Extra Day." He impressed upon them most earnestly the importance of strong life decisions in building character. Mary Waters presided. Margaret Perry sang. Laurence Slater read the call to prayer, just before the address. Dr. Carey B. Pope, the student pastor of the Baptist Church, gave the closing prayer.

PERSONALS

Helen Forbes, a Kansas University student, spent the week-end at the Chi Omega house.

The marriage of Lieutenant Thilts to Gladys Blanchart took place Monday afternoon at Fairbury. The bride was a student at Kansas University and is a member of the Chi Omega sorority. The bridegroom is a member of the Pi Kappa Phi fraternity.

Turner Tefft, '23, who has been ill with tonsillitis for the past week, returned yesterday to school.

Mrs. Alfred Schalek, of Omaha, is a guest of her daughter, Zoe Schalek, '23, at the Alpha Phi house.

Harlan Boyer, '23, returned yesterday after spending the week-end at his home in York.

Annah Belle Siminoff, ex-'92, visited friends in Lincoln over the week-end.

Guests for the week-end at the Achoth house were, Helen Faulkner, '17, of Diller; Hazel Sneath, '19, of Humboldt; Opal Nuse, '19, Sutton; Claire Neumeyer, '13, Lyons; Jucy Jeffries, '16, Mullen; Nell Ryan, Kathryn Hedfeld and Dorothy Ferguson, all of Omaha.

Herman Thomas, '20, and Charles Gillilan, '20, who were delegates to the convention of Delta Tau Delta in Chicago, returned yesterday to school.

Ruth King, '21, who visited at her home in Kearney for the week-end returned yesterday.

Denman Kountze and Frank Winegar returned Monday from a short visit to Omaha.

Webb Richards '20, who for the past few days has been visiting in Chicago will return today.

Evelyn Black, '19, was a guest at the Alpha Chi Omega house for the past week-end.

Ruth Duncan, '21, returned yesterday from Omaha, where she spent the week-end.

James J. Hates, a member of the Ames, Iowa, chapter Beta Theta Pi was a guest Sunday at the local chapter house.

WANT ADS.

FORMER L. H. S. STUDENTS should order the 1920 LINKS now. \$1.25 each; cloth, \$2.00. Send orders and money to THE LINKS, Room 103, High School building.

Memory books, kodak albums, diaries and leather novelties that will please you as well as your friends and decorations. George Bros., 1213 N.

DR. BARKER TO LECTURE TODAY ON SEX HYGIENE

Dr. Charles E. Barker of Grand Rapids, Michigan, will deliver a lecture under the auspices of the Rotary Club at two o'clock this afternoon. His subject will be "A Mother's Responsibility to Her Daughter," and only women will be admitted.

Dr. Barker is an excellent speaker and his address will prove of interest to Nebraska women. He will give three lectures while in Lincoln, including one at the High School, and another before the Rotary Club.

ROADMEN OPENED THIRD INSTITUTE YESTERDAY

(Continued from page 1)
 Construction and maintenance of state highways, the evolution of the highway and the county bridge and highway-railway crossings. Sessions will be held in the Temple. The annual meeting of the Nebraska Engineering Society will be held in the evening in Room 101, Mechanical Arts Building.

Monday afternoon's session was held in the Mechanical Engineering laboratory. A feature of this year's convention is the actual demonstration of road construction and maintenance which will take place on East O street. All kinds of road machinery will be used and the Lincoln Auto Club will provide cars in which the visitors will be taken out to view the work. This will take place Wednesday afternoon.

Interest in good roads is rapidly growing in the state and this year's convention is expected to eclipse in numbers the former convention held here in 1919. This organization has no officers and no membership dues are paid. All men who are interested in the construction of roads are eligible to this conference.

—A new and exclusive model, with a modified vamp, and particularly "chic" heel.

Elastic over the instep to insure a perfect fit. We have this tie in Black Kid, Black Buck, also a soft pliable Patent Leather.

The Service of an Electrical Research Laboratory

The research facilities of the General Electric Company are an asset of world-wide importance, as recent war work has so clearly demonstrated. Their advantages in pursuits of peace made them of inestimable value in time of war.

A most interesting story tells of the devices evolved which substantially aided in solving one of the most pressing problems of the war—the submarine menace. Fanciful, but no less real, were the results attained in radio communication which enabled an aviator to control a fleet of flying battleships, and made possible the sending, without a wire, history-making messages and orders to ships at sea. Scarcely less important was the X-ray tube, specially designed for field hospital use and a notable contribution to the military surgical service. And many other products, for both combatant and industrial use, did their full share in securing the victory.

In the laboratories are employed highly trained physicists, chemists, metallurgists and engineers, some of whom are experts of international reputation. These men are working not only to convert the resources of Nature to be of service to man, but to increase the usefulness of electricity in every line of endeavor. Their achievements benefit every individual wherever electricity is used.

Scientific research works hand in hand with the development of new devices, more efficient apparatus and processes of manufacture. It results in the discovery of better and more useful materials and ultimately in making happier and more livable the life of all mankind.

Booklet, Y-863, describing the company's plants, will be mailed upon request. Address Desk 37
