## NAME MEMBERS OF HONOR UNIT

Personnel of Pershing Rifles Best Drilled Men in Cadet Regiment.

Large Number of Men Qualify for Oldest Military Organization.

The Membership Board of the Pershing Rifles yesterday announced the names of new men admitted to membership in the Rifles. The list is composed for the most part, of the names of men who have had previous military training, either in other colleges, in military academies or in the army. Some names appear, however, of men who have had no military experience previous to entering the University, but who have shown up especially well in drill.

Membership in the Pershing Rifles is one of the highest honors given in the military department and selection is made from among the most soldierly men in the Cadet Regiment. The "Rifles," besides being a crack drill company, also form a military club and the organization is active in all military affairs in the University.

The Pershing Rifles is one of the oldest organizations of the campus, having been organized as the Varsity Rifles by General Pershing when he was a first lieutenant and commandant of the Cadets at this school. The General still maintains an interest in the Rifles and awards a medal each year to the best military man in the Cadet Regiment, with the provision that he must belong to the Pershing Rifles.

The organization is larger this year than usual since the new A. E. F. drill regulations demand longer companies for drills. Besides the new members just selected there are a number of men who have been members.

## CREDIT ASSOCIATION TO ESTABLISH CHAPTER

Le Rossignol Asked to Assist in Forming Branch in Lincoln.

Dean Le Rossignol and the College of Business Administration have been asked to co-operate with the National Association of Credit Men in establishing local chapters of the association in Lincoln. Eighteen chapters have been established this year and plans are being made for forming a local branch at Lincoln.

The educational work is carried out to some extent through the national office and by correspondence classes. For the major part of it is done through local associations which act together with a college of commerce as a Y. M. C. A. giving commercial courses of a collegiate grade. By interesting the College of Business Administration in the movement, classes in salesmanship and economics can be taught for the benefit of the business men of the city.

Requirements for certificates of the Institute of credit are as follows:

1. Principles of Business (half course) 30 hours

(Continued on Page Four)

## SENIORS SHOULD ORDER INVITATIONS AT ONCE

Seniors who wish to have their families and friends present at the great event of graduation, should give their orders for Senior invitations on Friday or the first two days of next week, either at the College Book Store, or to some member of the Invitation Committee, which consists of Marian Wyman, Julia Mockett, Bertha Helzer and Don Spencer. Tuesday of next week is absolutely the last chance to order invitations. Prices are as follows:

Leaflet invitations \$0.15 each  
Paper booklet invitations .30 each  
Leather booklet invitations .55 each

## BRYAN SCHEDULED FOR SPEECHES IN LINCOLN

William Jennings Bryan, formerly of Lincoln, and one of the conspicuous figures in party politics, will visit the city this week-end where he is scheduled to give a number of addresses. This evening at the city auditorium he will speak on "Woman and the Ballot." This meeting is for women only and all University girls are urged to attend.

Arrangements have been made for University men for admission to Mr. Bryan's address Sunday at the Liberty theatre, Sunday at four o'clock. A limited number of tickets can be secured Friday and Saturday free of charge at the Y. M. C. A. office in the Temple.

Mr. Bryan's statement regarding his position on presidential possibilities may be defended at this time.

## KEEN COMPETITION IN BOWLING FEST

Sigma Nu and Farm House Conquer Sig Alph and Beta Teams.

## OWENS ROLLS HIGH SCORE

Sigma Nu and Farm House bowlers easily defeated the Sig Alphas and Betas Thursday afternoon in the semi-finals of the inter-fraternity tennis tournament. The total scores registered Thursday were far below the pace set in the opening rounds last Monday. The teams remaining in the pursuit of the pennant claim they will reach the 2600 mark considered in University circles to be "big league stuff."

Owens of the Sigma Nu smashes chalked up the highest tally of the tourney with a total of 613. He was largely responsible for the slaughter of the Sig Alphas. Samuelson and Campbell rolling for the Sig Alph gang were high men.

The Farm House quintet had little trouble in downing the Beta five at the city runways with a 126 margin. Lieber lead the field with a total of 486 maples while Aplan tallied with a 461 count for the Betas.

Sigma Nu				
	1st	2nd	3rd	Total
Taylor	118	190	137	445
Dinsmore	152	131	131	394
Rodwell	150	106	113	369
Pollock	165	164	207	536
Owens	199	225	189	613
Totals	796	814	777	2357
Sigma Alpha Epsilon				
	1st	2nd	3rd	Total
Samuelson	159	168	181	508
Campbell	156	170	180	506
Hopkins	116	139	127	382

## AMHERST COLLEGE WILL AWARD TWO FELLOWSHIPS

Announcement of "The Amherst Memoria. Fellowships," two fellowships of two thousand dollars each, given for the study of social, economic and political institutions, has been received by Dean Le Rossignol from Walton H. Hamilton of that institution.

The purpose of these fellowships is thus expressed in the deed of gift: "Realizing the need for better understanding and more complete adjustment between man and existing social, economic and political institutions, it is my desire to establish a fellowship for a study of the principles underlying these human relationships."

Any university or college graduate who has the necessary character qualifications and evidence of interest in the social sciences is eligible. There are to be two fellows appointed each year for two years; but when conditions warrant the appointment may be extended for one or two more years. The first appointment will be made some time in May for the years 1920-21, 1921-22.

## STUDENTS LEAVE ON TRIP SUNDAY

University Week Visitors to Start on Annual Excursion Before Vacation.

## CHANCELLOR SPEAKS TODAY

University students who will participate in University Week are requested to assemble at Law 101 this afternoon at five o'clock. Chancellor Avery will address the students at this hour. This meeting was originally planned to be held at 11:30. It is imperative that all students attend.

Plans for the annual University Week trip are now fully completed. Everything is in readiness for the largest trip ever attempted by the school. The personnel for the two circuits includes 105 students—about thirty-five more than last year. Hiram Studley will be chief executive for both the Western and Northern circuits. Clarence Haley will be manager of the Western circuit and Earl Coryell is director of the Northern group.

The towns out in the state which will receive the University talent include Gothenburg, North Platte, Sidney, Kimball, Lexington, Chappell in the Western route, and Fremont, Hooper, Creston, Newman Grove, Stanton and Elgin are included in the Northern route. The advance guard will leave Lincoln Sunday morning and the remainder of the talent expect to depart Monday.

JOHN PICKETT  
1920 Baseball Captain

## "AFTER COLLEGE—WHAT?"

Friday, March 26

9:00 to 11:00 a. m.—Conference, Woman's Hall Helen Bennett.

11:00 a. m.—Conference of physical education girls, Armory. Helen Bennett.

12:00 m.—Luncheon for scientific girls, Grand Hotel, auspices of Iota Sigma Pi; "Opportunities for Women in Science," Helen Bennett.

4:00 p. m.—"The Independent Worker," Temple Theatre, Helen Bennett.

## ENGINEERS' WEEK SET

At a meeting of the executive committee of the American Association of Engineers, the date for Engineer's Week was set for May 2-8. This annual celebration of the Engineers dates from the beginning of the Engineering College. During the war period, it was not so extensive an affair as before. However, this year Engineer's Week will stage a spectacular come-back.

One Convocation during this week will be turned over exclusively to the Engineers, one day the "Rag" will be the Engineers' own paper, and for one day the Engineers will meet all comes who dare to dispute with them the title of "The Class of the School"

(Continued on Page Four)

## PROFESSOR FRANKFORTER TO SPEAK ON EXPLOSIVES

Prof. C. J. Frankforter will lecture in the general lecture room of Chemistry Hall at five o'clock Friday, on explosives. During the recent war he was a captain in the ordnance department, chemical warfare service. He will show a series of slides illustrating the manufacture of the Springfield rifle, and will also explain the peace-time uses of explosives as well as the war time uses. This is the third lecture in the Chemistry Club course. Students will have an opportunity of hearing for nothing an address well worth while. Lectures will be given in the future by Dr. Lyman, Dr. Condra and Professors Barbour and Sherman on these subjects. As this is a very important matter it is hoped that students will take advantage of these lectures and attend.

## MISS BENNETT TO SPEAK ON SCIENCE

Will Address Girls at Luncheon to be Held at Grand Hotel Today.

## GIVES VOCATIONAL TALKS

Helen Bennett, the last of the "After College—What?" speakers, arrived in Lincoln Thursday morning and in a number of address and informal talks has been giving the women of the University first-hand information on vocational subjects. In every instance she has drawn a large audience. Interviews with Miss Bennett are in great demand. This is her last day here.

Speeches and interviews fill her program today. More than seventy women of the faculty attended the luncheon in her honor Thursday. The main floor of the Temple Theatre was almost filled with women twice Thursday when she spoke. At the first of these meetings, Convocation, she spoke on "Efficient Efficiency."

"New Occupations for Women" was the subject of her address Thursday evening. She described the opportunities in advertising, publicity, newspaper work, public health, nursing, occupational therapy, salesmanship, special work in industry and employment. In speaking of the soldiers disabled in the war she made the statement that more people are injured in occupations in the United States every year than were injured in the American Army in the war.

Miss Bennett will speak at a luncheon for scientific girls to be held at the Grand Hotel today. Dean Heppner announced that if any of the girls who wish to attend have one o'clock classes she would be glad to excuse them.

## UNIVERSITY TO PREPARE FOUR NEW TENNIS COURTS

Immediate steps will be taken to prepare four tennis courts on the University grounds, according to information received at the office of the athletic department yesterday. The two courts which are already built will be put into playing condition at once and two more will be constructed as soon as possible. This announcement will be hailed with joy by lovers of tennis at the University of Nebraska. The lack of proper tennis facilities has always been a drawback at the Husker institution and it is the intention of the athletic department to remedy this defect at once.

Whether or not Nebraska will be represented by a tennis team or whether representatives will be sent to the Missouri Valley tournament depends upon the interest manifested in the game by Cornhusker students. The Scarlet and Cream has not been represented in these meets for a number of years and it is doubtful if arrangements will be made to participate this year. The four courts will at least afford opportunity for lovers of the game to exhibit their skill at home in practice.

## CHOOSE PICKETT BASKETBALL HEAD

Only Husker With Letter in the Spring Sport at University Well Qualified.

Nine Will Give Real Competition to Opponents in Early Spring Games.

John Pickett is the captain-elect of the 1920 Cornhusker baseball team. As the diamond sport has not prevailed at Nebraska for several years no leader had been provided to head this spring's nine and the choice of the present candidates was Pickett. John is the only man on the squad who has won a letter in baseball. No better leader for the Husker team could have been found, as the results of the season will doubtless show.

Pickett has had extensive experience in the national pastime. His home is at Scottsbluff, Nebraska, and he has always been prominent in baseball circles in that section of the country. In 1917 he was one of the dependables of the Husker aggregation and is the only man of that team who is still in school. He has played on various city league teams in Lincoln and is considered one of the best mound performers that has appeared in the capital city since the days of the Western League Antelopes. His athletic ability is well known at the Husker school as he has played two years of varsity baseball.

Together with Leonard Kline, Pickett will form the backbone of Coach Schisler's pitching staff this spring. He will probably be used in the hardest games as his experience on the diamond warrants his facing any college or University team in the country. The haughty Californians may bump into a big surprise when they swing their trusty willows at some of John's puzzling twisters.

## STOCK-JUDGING CONTEST TO BE HELD MARCH 27

Seventy Students Will Participate in Sixth Annual Meet at State Farm Campus.

The Sixth Annual Stock Judging Contest, under the direction of the Department of Animal Husbandry and the Block and Bridle Club, with about seventy students competing, will be staged at the University Farm, Saturday, March 27, at eight a. m.

Teams from the college will be chosen this week. The class in Animal Husbandry 2 will be represented by two teams, and those in 10 and 10a, by six, each having three teams. The School of Agriculture will enter four regular teams and one special team.

Cups and trophies will be given to the winners of the contests. The Nebraska Live Stock Breeders' Association will give a cup to the high man in all classes of stock. This must be won two years in succession for permanent possession. The present holder of this cup is K. A. Clark, '23.

The judges selected for the contest are: Prof. A. M. Patterson, of Kansas Agricultural College; L. Boyd Rist, agricultural agent of Gage county; D. H. Propps and John Dalton, of Lincoln.

## PROFESSORS DISCUSS AN ENGINEERING ASSEMBLY

Prof. Raymond E. Davis, associate professor of Civil Engineering, and Prof. C. E. Mickey, went to Omaha, Wednesday, to meet the representatives of the Omaha Chapter of the American Association of Engineers to organize a State Assembly. This Assembly will be made up of the representatives of all the local chapters of the A. E. in the state. The purpose of this Assembly is to handle all problems of state-wide importance in which Engineers are interested. The preliminary steps for this organization were taken several weeks ago.
