STUDENTS LEAVE ON STATE TOUR

Special Coaches Carry University Extension Groups on Week's Trip.

WILL VISIT TWELVE TOWNS

Some ninety students in six groups left Sunday and this morning to make the tour of twelve Nebraska towns for University extension week. Three groups are taking the Western circuit and three others the Northern circuit. They travel in special coaches and are supplied with business managers and chaperons.

Hiram Studley is managing both circuits. He travels on the Northern circuit. The assistant managers are Clarence Haley and Earl Coryell. Haley went on the Western circuit and Coryell on the Northern.

The chaperons are Miss Blanche C. Grant, instructor in the School of Fine Arts; Miss Florence Maryott, instructor in the School of Fine Arts; Mrs. H. J. Young, wife of a University professor, and Mrs. G. L. Waters, mother of Flavia Waters, who is a member of the cast for Road Show No. 2.

The cast for "Under Cover" left for the Northern circuit on the Chicago & Northwestern Railway, 1:35 p. m., Sunday. The Band and Road Show No. 2 took the train at 7:25 this morning, on the Chicago & Northwestern Railway, to make the Northern circuit. The casts for "It Pays to Advertise" and Road Show No. 1 left at 11:10 a. m. Sunday, by the Burlington Railway, for the Western circuit. The Cornhusker Concert Company left by the Burlington, 7:15 this morning, to make the Western circuit.

The towns of the Western circuit are Gothenburg, North Platte, Lexington, Sidney, Kimball and Chappell; of the Northern route, Newman Grove, Elgin, Creston, Hooper, Stanton and Fremont. On each route each of the three groups of entertainers will appear one night at each of the first three towns during the first three days, Monday, Tuesday and Wednesday. They will alternate so that each of the towns will have the three entertainments on three successive nights. The last three towns of each circuit will be covered in like manner Thursday, Friday and Saturday. The entertainers will return to Lincoln, Sunday, April 4.

One special coach will be sent on each circuit. The plan of alternating the entertainments among the towns has been worked out so that the special coach can carry one group to the desired town and another group back on the return trip. Thus, by an intricate schedule, one coach can take three groups through the circuit without conflicting with the separate schedules of the groups.

NEWS OF THE DAY

Boiled Down for Busy Readers

Chicago, March 27.—As a result of high wages prevalent among Middle West labor, bank deposits are swelling rapidly. It seems that Middle West prosperity is racing with the rapid advance in prices of commodities.

Lincoln, March 27.—Former Attorney General Thompson requests that figures be shown regarding the saving, if any, in the code bill. He wants to be shown that the new state machinery has functioned as McKelvie promised, and saved money for Nebraska citizens.

New York, March 27.—Georges Carpentier, European heavyweight champion, is too busy with the movies and vaudeville to slate a match with Jack Dempsey. Their managers do not think they can get together this year for the world championship bout.

Lincoln, March 27.—Colonel Yates, of Lincoln, who has been United States military attache in Roumania, came back for a few weeks' rest. He is probably one of the best informed men in this country on the Eastern situation, and reports an abundance of wealth in that part of Europe.

MISS POUND GOES EAST

Prof. Louise Pound, of the Department of English Literature, left Saturday for Columbus, Ohio, to be gone for about a week. She will attend a meeting of the Modern Languages Association of which she is a member. Miss Pound will join in Chicago, Miss Helen Sard Hughes, a well-known contributor to leading periodicals. Miss Pound is a member of two committees of the Association, the nominating committee and the committee for the founding of an honor in the departments of modern language.

THIEVES CONTINUE FRATERNITY VISITS

Phi Kappa Psi, Sigma Chi, Delta Upsilon and Alpha Sigma Phi Latest Victims.

HARVEST ON "GOLD COAST"

The polite burglars who, it is rumored, are paying for their University careers by ransacking fraternity houses, visited the homes of Phi Kappa Psi, Sigma Chi, Delta Upsilon and Alpha Sigma Phi, early Sunday morning, and escaped with a large amount of money from each house. It is believed that the trespassers drained nearly \$500 from the Phi Psi coffers, and took lesser amounts from the other houses. This is another link in the chain of robberies which have relieved fraternity men of money within the past few weeks. The other losers were Phi Delta Theta, Delta Chi and Alpha Tau Omega.

The burglars overlooked large sums (Continued on Page Four)

SOPHOMORE GIRLS WIN IN BASKETBALL FINALS

Trim Freshmen in Two Games by Decisive Tallies on Armory Floor.

The Sophomores won the finals in the girls' basketball tournament which were played Friday afternoon on the Armory floor. The Sophs won in both the first and second team games. The first team won the championship by defeating the Freshmen by a score of 17 to 6. The second team took the long end of a 12 to 11 score in the Sophomore-Freshman second team game.

In the first team battle the Sophomores displayed some brilliant playing. The guards did such close guarding that the Freshmen were able to make only one field goal. The other four points made by the Freshmen were for free throws. Margaret Ulry second center, made the one field goal. The Freshmen played a fast game but they were outclassed by their opponents. Eleanor Snell was the big point maker for the second year team with four field goals and three goals on free throws.

In the second team game Mary Hardy was the mainstay for the Sophomores. The Freshmen forwards made seven points on free throws. The first half ended 6 to 5 in favor of the second year team.

The lineup:

FIRST TEAM GAME

Sophomores

Martha Krogmann, c.
Margaret Henderson, sec. c.
Marvel Trojan, g.
Ruth Fickes, g.
Marion Nye, f.
Eleanor Snell, f.

REAVIS TO SPEAK AT ENGINEERS' MEETING

The student and the faculty chapters of the American Association of Engineers will hold a dinner at the Lincoln Commercial Club, April 12. Congressman Reavis will speak on the Jones-Reavis bill now before congress. This bill provides for the creation of a department of public works.

The dinner will take the place of the regular monthly meeting. Tickets may be secured from Scott, Olson, Tracy, Doremus and Critchfield.

ENGINEERS TRIP DATED APRIL 18

Students to Make Annual Inspection at Chicago and Other Cities.

ALUMNI WILL ENTERTAIN

The schedule for the Engineers' Inspection Trip, April 18 to 24, has been announced by Prof. O. E. Edison, chairman of the Inspection Trip Committee. Leaving Lincoln Sunday afternoon the party will arrive at Burlington, Iowa, Monday morning. The iron works there will be visited during the morning and in the afternoon a trip will be taken to Keokuk to view the dam across the Mississippi river at that point.

Tuesday the party will arrive in Chicago and visit the Western Electric plant, the Sears Roebuck company and the Powdered Coal Engineering Equipment company during the day. A side trip to visit the iron works at Gary, Indiana, will be made on Wednesday. Inspection will be conducted by departments on Thursday and Friday. The civil engineers will inspect the various types of paving and the testing of road materials. The mechanical and electrical engineers will combine to visit the ice plants, the electric furnace installations, the Fisk and Corey Generation Power Plants and the Wilson avenue or some other pumping station on Thursday. On Friday the mechanical engineers will visit the International Harvester company and the electrical engineers will inspect the Bryan-Marsh Lamp Works.

The entire party will go on a boat trip on the Chicago river Friday afternoon. Special attention will be paid to the new bridge which has been erected across the river near Michigan avenue. A trip through Grant's park will end the official program and the party will break up. A sight-seeing tour may be arranged Saturday for those who care to go.

The Chicago Alumni of the University of Nebraska have invited the engineers to a banquet which will be held Thursday or Friday evening.

Three instructors will accompany the party; one each from the civil electrical and mechanical departments. This will provide an instructor for every fifteen students.

TWICE NUMBER 'PHONES IN NEW CAMPUS SYSTEM

New System Will Allow Double Allotment of Telephones with Saving in Cost.

The Department of Construction, Grounds and Buildings recently installed a new telephone system on the campus. Mr. Chowins, superintendent, stated that the new system is giving as much satisfaction as the former.

The idea is not to save money but to give twice the number of 'phones. With the former system it was costing \$4.50 a month a 'phone. The new system enables them to install a telephone which will only cost \$1.00 per month.

There are now eight trunk lines between the campus switchboard and the city switchboard. The number of trunk lines, however, will have to be increased to 14.

There will be 130 or more phones installed when the work is completed. A 50-pair cable to the Farm will make it possible to install fifty or more 'phones there.

There are now four phones on the city campus giving night service. They are at the Temple Building, heating plant, Chancellor's office and at the Secretary's office. There will be four installed at the Farm campus in the Agricultural Hall, Home Economics Building, the heating plant and at the Farm foreman's residence. There will be two or more night service phones installed.

DR. EARHART SPEAKS

Dr. Lydia B. Earhart gave an interesting talk before the Delian Literary Society at the regular meeting last Friday evening. Her character sketches taken from the scenes during the time of the Revolutionary War portrayed some every-day occurrences that have disappeared with the growth of our country and now seem queer to us. Dr. Earhart spent her childhood in the valleys of the Pennsylvania mountains from which, together with the stories which her mother told her, she took her illustrations.

OCCUPATIONS HAVE BIG SOCIAL VALUE

Miss Helen Bennett Tells Girls Service Helps Rather than Lowers Position.

TALKS TO SCIENCE GIRLS

Helen Bennett met an enthusiastic response from girls of all departments when she was here Thursday and Friday lecturing and interviewing about vocational matters. Her experience as manager of the A. C. A. Bureau of Occupations at Chicago enabled her to give definite information about practically all the vocations open to women.

Miss Bennett has a magnetic personality and never failed to attract a large audience. She is a believer in the women who dare. She believes that any legitimate occupation can be made of social value. She took a practical view of all the occupations she discussed.

SIGMA NU AND ACACIA TO BATTLE IN FINALS

Eliminate Farm House and Alpha Sigs in Semi-Finals of Bowling Tourney.

Sigma Nu and Acacia, bowling aggregations, demonstrated their superiority as pin smashers Saturday on the city alleys when they eliminated the Farm House and Alpha Sigma Phi teams in the semi-finals of the interfraternity bowling tournament. The final game is scheduled to be rolled this afternoon at the city speedways.

The feature of Saturday's play was the score hung up by the Sigma Nu five. This team turned in a score of 2495 for three games, which is the high team score for the tournament. Acacia's score for three games was 2254 or almost 250 pins less than that of Sigma Nu, whom they will oppose in the finals.

Phil Owens of the Sigma Nu team upheld his high average Saturday when he turned in a score of 245 pins for his third game. He has an average of 198 for nine games. He also has two high games for the tourney of 245 and 225. Pollock of the Sigma Nu team also has an average for the tourney of more than 170 pins. J. turned in a total of 519 Saturday. Carpenter of the Farm House team is the only other player who turned in a total score of more than 500.

The scores:

	Sigma Nu			
Taylor	163	171	154	488
Dinsmore	136	151	170	457
Rodwell	179	145	155	479
Pollock	194	154	171	519
Owens	179	148	245	572
Totals	841	759	295	2495

Y. W. C. A. ELECTS NEW OFFICERS FRIDAY

The New officers of the Y. W. C. A., elected last Friday, are:

President.....Ada Stidworthy
Vice-President.....Fae Currie
Secretary.....Olive Hartley
Treasurer.....Janet Maitland
Undergraduate Field Representative.....Grace Stuff

These officers will be installed the last week in April. One of the national field secretaries will be present for the ceremony.

HUSKERS LOSE TO OKLAHOMANS

Nebraska Grapplers Conquered by Close Score in Meet at Stillwater.

FIRST DEFEAT OF SEASON

Two thousand mat enthusiasts watched the Husker grapplers go down to defeat before the onslaught of the Oklahoma Agricultural and Mechanical School wrestlers at Stillwater, Oklahoma, Friday night. The new gymnasium was crowded to the limit of its capacity and the throng kept the air filled with cheers and encouragement for the gladiators during the entire evening. Nebraska was awarded the seven point start when Votopka dropped his 125-pound opponent to the mat twice in succession, the first fall in 4:15 and the second in 5:25.

Captain Troendly defended his reputation in the second clash by pinning the shoulders of the reputable Fletcher to the mat in six minutes and winning a decision for the Huskers in the second fall for the 135 pounders. The most skillful match of the entire evening was the twenty-seven minute clash between Long, of Nebraska and Clump, of Oklahoma. The bout was declared a draw, as the equal speed, strength and endurance of the men made a decision impossible.

Captain Logabaugh of the Oklahomans took the decision over Smith in the 158 pound class after twenty-seven minutes of strenuous mat work. The leader of the Oklahoma aggregation is widely known as a phenomena in the wrestling game, strong, fast and untiring. It will be noted that he won twelve of the points awarded the Southerners.

Pickwell lost to Logabaugh in the first fall for the 175 pounders in seven minutes but stayed by him until the Oklahoman won a decision in twenty-one minutes, for the second round.

The "Jumbo" weights took their time to exhibit form and prowess to the onlookers. Hoyt for Nebraska fell victim to Chase by a decision in each of the two falls, leaving the Oklahoman team victors by the score of 23-19.

Captain Logabaugh of the Oklahoma team made good his reputation as a wrestler. In the match with the Huskers he was pitted against two of the Nebraska prize men and won his matches in each case. The Oklahoman demon was responsible for over half the points given his team. In one case he was put in to fill the place of a colleague who was out of the match on account of a broken shoulder.

SUPPLY OF GOGGLES ALMOST EXHAUSTED AT TEN CENT STORES

During the windy days of the first part of the week, when small cyclones and swift air currents made navigation almost impossible, the ten cent stores reported a rushing business in goggles. Goggles of all descriptions from amber-colored ones with black rims to thin mica spectacles reduced the supply to such an extent in Lincoln that production will probably be behind time until March, 1921.

The girl at the goggle counter giggled every time she sold a pair of goggles. She pictured the hundreds of students waiting for cars at Miller and Paine's corner for the March "Stock Judging Show," all eyes glued steadfastly on approaching cars which stop. These corner coolies never board cars, but only wait, wait—wait. The begoggled students are not bothered by the dust—they can see perfectly well.

Goggles, in March days, seem to be a necessity for University students, and then, like all other necessities, they probably will be graduated from the ten cent store counters, and will take their places in the jewelry stores at \$5.00 a pair.

Did you ever give this a thought?
