STUDENTS CAST VOTES TUESDAY

Officials Estimate Over 1,000 Cornhuskers Used Ballot in Primary Election.

UNI MEN IN CAMPAIGN

The University of Nebraska figured conspicuously in the Tuesday primary election. It is estimated that at least 600 University men and an equal number of women cast their ballots for their favorite candidates.

By an act of the national legislature the women were given the voting franchise. Consequently candidates and campaign managers made an especial effort to secure the co-ed vote. Considerable difficulty was experienced by some students who cast their votes for the first time yesterday. Many of the women were dismayed to find out that their ballots were much shorter, but when told that they were not privileged to vote on the entire field, they mutely left the polls.

The Pershing, Wood and Johnson campaigns were waged with great fury in Lincoln. University men were employed by these presidential candidates as sandwich men, barkers and confidential agents. The Pershing officials enlisted sixty men to further the A. E. F. leader's cause. The Wood managers enrolled a smaller number of University workers.

That University men are learning the art of business is evinced by the fact that a few clever thinkers conceived the idea of representing more than one candidate. As a result of the day's efforts a number received double, and in some cases triple pay.

THETA SIGMA PHI WILL GIVE "BILL BOARD BALL"

The Theta Sigma Phi's are giving a subscription party at the Woman's Hall to raise funds in order to send a delegate to the national convention at Madison, Wisconsin. At this convention there will be delegates from chapters throughout the country and it is to the interest of Nebraska that a delegate be sent from this institution.

The chapter has laid plans to make this one of the best subscription parties of the year. It will be a "bill-board" ball. Thus far the "bill-board" line is a mystery, but it is said by the ones who claim to have the inside dope, that it will be a surprise worth the full price of admission to see.

Theta Sigma Phi is a women's honorary journalistic fraternity and does a great deal to keep Nebraska on the map in the journalistic world, and it deserves the loyal support of all the Huskers who can possibly get out Saturday evening. The admission is \$1.25. Beck's orchestra is furnishing the jazz strains.

SIX UNIVERSITIES IN FIRST AIR RACE

Six universities will enter pilots in the first inter-collegiate air race in history, which will be held over a closed circuit through New York and several other eastern states. The race will be for a cup offered by the American Flying Club, according to an announcement made by Laurence L. Driggs, president of the club.

The colleges entered for the race are Yale, Harvard, Columbia, Princeton, Williams and Cornell.

Each college will be permitted to enter two machines in the race. The start will be either from the Columbia flying field or the army aviation field at Mineola. The course will be from New York to Yale University, thence to Harvard, with a stop at Newport, to Williamstown, to Princeton and back to Mineola. It is hoped eventually to extend the entry lists in the annual event to every big college in the country, thus developing aeronautics in this country.

CHIEF SOUNDS SECOND CALL FOR TRACKSTERS

A second call for girls to enter track practices was issued today by Mary Stephens, track sports leader. The track meet will be held the first or second week in May. It is held under the auspices of the W. A. A. and W. A. A. points are awarded to winners. There are in all ten different events and the inter-class relay races. Each girl can enter three events and the relay race. Only about twenty-five girls have signed their names on the poster on the W. A. A. bulletin board.

FARMER'S FAIR WILL PRESENT NEW STUNTS

May Film Annual Carnival for Publicity Work in Later Years.

The Farmers' Fair netx Saturday will be an event long remembered. Side shows, containing specimens to be found only on the Farm campus, will be much in evidence. The names of a few of these, obtained from the committee in an unguarded moment, promise rare offerings. "Domestic Tragedy," "Bridal Couple in Liverpool," "For Men Only," "Latest Spring Styles," "Swimming Match Between Two Dogs" and "Chickens to Suit Your Fancy," are enough to attract the attention of any one.

The parade will start about noon and will be nearly a half mile long. Floats representing the various departments will be shown and much work is being done in their preparation. Clowns will add spice to the parade and a motorized baby carriage will make its initial appearance. One of the features of the parade will be a colonial style carriage drawn by horses with silver mounted harness. This carriage was purchased at a cost of seven hundred dollars some fifteen years ago.

Following the parade down O street, and which will end at the Farm, the grounds will be opened and the Fair will be on. Numerous attractions will be offered. The Pike and its spielers will contain all the features of an up-to-date carnival. In the evening, aside from the other entertainments, dancing will be offered.

The students in the College of Agriculture have been at work on this for some time. It is a large undertaking and requires the assistance of several hundred students. Some of the classes have already been dismissed and no doubt Friday will be a closed day for those in the Agricultural College. An effort is being made to have Professor Condra, of the Department of Geography and Conservation, to film several of the features.

This is the second event of its kind and the committee is sparing no pains or expense in making it the most attractive event of the season.

SELLECK TO ADDRESS COMMERCIAL CLUB MEN

Lincoln Banker to Speak Thursday on "Credit and Credit Instruments."

Mr. W. B. Selleck, of the Lincoln State Bank, will speak to students of the College of Business Administration Thursday morning, April 22, in Social Science 302, on "Credit and Credit Instruments." This is one of the series of addresses given by the Commercial Club for students.

Mr. Selleck, who is prominent in banking circles in Lincoln, will bring a number of credit instruments with which to illustrate his talk. He will cover in a brief way negotiable instruments, domestic and foreign notes, and checks. Mr. Selleck is a speaker with a very pleasing personality and his delivery is splendid. Members of the Commercial Club are anticipating a large crowd.

After the address here will be a short business meeting and an initiation date for Commercial Club pledges will be set.

OMAHA STUDENTS TO ORGANIZE CLUB

Expect to Bring Closer Harmony Between Metropolis and University.

Will Embrace Over 200 Students—Indorsed by Alumni and Chancellor.

The meeting of Omaha students who are attending the University, which is called for Thursday evening, April 22, in the Social Science auditorium to form a student club, is not a political move nor is it started by any set of people with political aspirations. The calling of the meeting results from a chance conversation of Professor Cochran and Miss Hunter, assistant to the Chancellor. They discussed the matter with some Omaha people who thought it was a good plan. As to what will be done at Thursday's meeting, the Omaha students in attendance will decide.

It is the plan to start similar clubs among the groups who come from other cities in the state. The object is mutual helpfulness of the University and the community. There will be absolutely no opposition to one another among these clubs for they are all working with similar purposes.

There are in the University over 258 students from Omaha. With such a nucleus many things will be possible for the mutual good of all concerned. Among the suggestions thus far made are a possible Omaha day; a Lincoln day when all the Senior classes from the five Omaha high schools would be guests of the University; an Omaha mixer; an Omaha banquet.

There are already in the University several of these city clubs, for example the Norfolk, Blair, Kearney, Plattsmouth and Chadron. Each of these is a law unto itself as far as choosing and directing the policy of its organization is concerned. The University authorities have been consulted and heartily encourage the movement. The Chancellor approves and has consented to be present Thursday evening and speak. The president of the alumni association, which organization is world wide, is an Omaha man. He writes in terms of the utmost appreciation of such a movement. There are in Omaha a large number of alumni. They want this club and are willing to stand back of it.

JOHNSON LEADING REPUBLICAN RACE

Hitchcock, Morehead and McKelvie Other High Men at Latest Returns.

Senator Hiram Johnson of California led the Republican list of presidential possibilities at the latest election returns obtainable Tuesday night. At midnight his vote was estimated to equal the combined vote given Pershing and Wood. The Johnsonian endorsement of the Wood delegates made their election look most probable. Senator Hitchcock of Nebraska was at the head of the Democratic list at 12:30 with Bryan still behind in the chosing of delegates to the national convention.

Governor McKelvie and ex-Governor Morehead led the Republican and Democratic lists respectively at the latest report on gubernatorial standings. Only about 135 precincts of the 1,200 or more in the state had been heard from at the time of going to press.

Reports will probably be delayed until late this morning due, in part, to the large vote cast and, in several districts, to poor wire service owing to recent storms. The suffrage vote all over the state was very heavy.

Ezra Andreason, M. E. '18, visited Dean Stout recently. He is now structural detaller with the Omaha Steel Works.

GIRLS WILL HOLD SWIMMING MEET

The girls' swimming meet will be held May 6 at the high school pool. There are only six more swims before the meet. Thirty-four girls have completed the required ten practices in order to be eligible for the meet. About fifty others lack only a few practices. The pool is open every Tuesday and Thursday evenings. Those who are learning how to swim have a better opportunity to practice if they go at 7:30. At 8:30 the experienced swimmers begin to play water polo and baseball in the water.

DISCUSS ORGANIZING EIGHT WEEKS CLUBS

Explain Method of Promoting Vacation Formation of Y. W. C. A. Affiliating Societies

What each college girl can do for her own home town during vacation by the organization of an Eight Weeks Club was explained at Y. W. C. A. Vespers Tuesday afternoon. The purpose of the meeting was to interest the girls in this work.

Beulah Grabill, the first speaker, gave the foreword of the Eight Weeks Club as being fun, friendship and service. They are really a form of the Y. W. C. A. for the small towns. College girls act as leaders for the eight weeks of vacation. Then, if the members wish to continue the organization an associate leader takes charge. The purpose of the clubs is to develop the physical, mental, social and moral life of the members. Groups can be organized among girls of different ages. The first step in organization is to get the co-operation of the town people and the interest of the girls.

A possible program for the work was given by Marian Mote. The first meeting should be for the purpose of organizing, the second and third service meetings, the fourth a hike, the fifth and sixth discussion of topics the girls are interested in, the seventh a service meeting and the last a social affair.

Ruth Fickes told of the need of carefully planned recreation. She emphasized the fact that the vacation element should not be overlooked and the possibilities in the community should be carefully considered.

The backing of the club was the subject of the concluding talk by Hilda Greenwald. It is hoped that some of the University girls will take up this work next summer.

A telegram from Miss McKinnon, who is in Cleveland at the national convention, was read. A report of this convention and explanation of the new membership basis will be given at Vespers next week by Miss McKinnon and Mary Brownell.

Helen Holtz lead the meeting and Margaret Stidworthy sang a solo.

PRESIDENT ANNOUNCES NEW Y. W. C. A. CABINET

Seventeen Officers and Departmental Heads Selected for Coming Year

The Y. W. C. A. cabinet for next year has been announced by Ada Stidworthy, president-elect.

President	Ada Stidworthy
Vice-President	Faye Curry
Secretary	Olive Hartley
Treasurer	Janet Maitland
Field Representative	Grace Stuff
Bible Study	Marion Mote
Publicity	Florence Wilcox
Church Affiliation	Grace Stuff
Grace Coppock Campaign	
	Hattie Hepperly
Rooms	Isabel McMonies
Office	Elsie Baumgartner
Meetings	Madeline Hendricks
Freshman Commission	
	Katherine Willis
Social	Katherine Harnly
Posters	Grace Lufkin
Social Service	Mary Sheldon
Geneva Conference	Hilda Gunwald

HIGH STUDENTS TO MEET MAY 15

Largest Track Meet for Nebraska School Lads Fostered by University.

THREE CLASSES PLANNED

The Nebraska state high school track and field championships will be held Saturday afternoon, May 15, on the Husker field. The largest entry in the history of the meet is expected because of the new grouping of the schools.

There are to be three distinct classes. Group one will comprise all high schools that have an enrollment for this year of under 100. Group two will consist of all eligible schools with an enrollment between 100 and 275. Group three will consist of all eligible schools with an enrollment above 275.

All entrants must be eligible under the rules of the association and the high schools must be members of the state association. No more than two competitors for each event will be allowed schools in group one. Group two may enter four men in each event, while group three may enter as many men as desired.

Bronze medals will go to the individual winners of each group for the first three places. A special medal will be given the man who makes the best record in his event for the day regardless of what group he is classed in.

There will be four places in each event. Five points will go to first; three to second; two to third; and one to fourth.

CIVIL ENGINEERS' HOP WILL BE HELD MAY 15

The Civil Engineers' Hop will be held May 15 at the Knights of Columbus Hall. It will be the first of the year and plans are being made to make it one to be remembered. The committee for the hop is as follows: Chairman, Sanford Saunders, Ferd Bing, Kent Holloway, R. N. Tracy and G. S. Salter.

Prof. H. B. Alexander, Prof. E. L. Hinman and Prof. Winifred Hyde have returned from a meeting of the Western Philosophical Society at Madison. Prof. Hinman was elected president for the coming year. Prof. Hinman read a paper on "Import of Nationalism." The next meeting will be held at the University of Chicago.
