## TWELFTH NIGHT GREAT SUCCESS

University Players Present Great Shakespearean Play Thursday Night.

### PLAY TWICE MORE

Grey marble pillars against dark red velvet curtains, satin dresses, a pair of twins, a clown in motley with a mellow voice, two hilariously funny drunken men—this was "Twelfth Night" which was presented by the University Players at the Temple Theater last night and will be also given tonight and Saturday night.

"Sir Toby" (played by Walter Herbert) who found to his amazement that he had four legs, carried off the honors of the evening. Carlisle Jones as "Sir Andrew" with his squeaky little voice and giggle, Oscar Bennett as the singing clown, Melba Bradshaw as the dignified "Olivia," Marianne Gould as the girl masquerading as a boy and Mildred Gollehan playing the saucy maid were excellent.

The University Players should be greatly commended for putting on a play as complicated and difficult as "Twelfth Night."

## ENGBERG PUBLISHES SCHOLASTIC REPORT

Farm House and Alpha Xi Delta Lead Fraternities and Sororities Respectively.

The scholastic report of the fraternities for the first semester ranks Farm House first of the fraternities and Alpha Xi Delta first of the sororities. The highest of the Greek letter fraternities is Delta Sigma Delta. Next after it comes Delta Tau Delta, the largest of the fraternities. The largest sorority, Pi Beta Phi, ranks second among the sororities.

The official report follows:

Jesse Patty was circulation manager for this semester.

Officers for the Art Club were elected at a recent meeting. They will hold office during the first semester of next year. Helen Sines, president; Charlotte Kizer, vice-president; A. M. Bonge, secretary-treasurer.

## WORK OF ART STUDENTS IS PUT ON EXHIBITION

Delightfully colorful, and almost as interesting to those not specializing in art as to art students is the exhibition of drawings, paintings and designs in the art gallery, on the second floor of the Library as too few people know. The work represents the best of the pictures that have been accepted this year, one taking at least two or three weeks to perfect.

Spots of brilliant color strike the eye from the walls, bits of still life and vivid posters, startlingly realistic sketches from life in which one recognizes the model as a friend of his, advertisements, colored designs made from the original Indian beaded belts from the museum, delicate bits of lace and jewelry, varied shaded studies of the statues in the gallery, examples of mural decoration, plant sketches, a glass case of pottery and one of china of which the colors and designs were made entirely by art students.

## CALL FOR CORNHUSKERS

All those who do not call for their 1920 year-books before Wednesday, June 2, will forfeit the first payment of \$2.00 and the books will be sold to those on the waiting list.

## Kappas Set Pace In Sorority Pledging

The Kappa Kappa Gamma sorority set the pace for the rest of the sororities by pledging an average of better than \$25 per member to the Memorial fund. This shows splendid spirit for the girls and should help other groups to bring their quotas up better than before.

The recent ascent in airships may have had something to do with the girls doing things on a higher plane than others. However, the Kappas still lead.

## ENGINEERS ACCEPT JOBS FOR THE SUMMER MONTHS

Most Seniors Have Decided on Positions for Coming Year.

During the past month, the College of Engineering has been besieged by representatives of the large electric and manufacturing companies of the country who sought to secure students for their respective firms. The demand was far greater than the supply and most of the Seniors of the college have decided upon their position for the coming year.

The underclassmen, generally, will do engineering work during the summer. Professor Davis, the employment manager for the student chapter of the American Association of Engineers, has secured positions with the State Highway Engineering Department for many of the students.

The list of Seniors who have signed with different companies are as follows:

- E. R. Boruch, E.E., will work for the General Electrical Company of Schenectady, N. Y.
- Minoru Hirata, E.E., will go to Chicago to work for the Automatic Electric Company.
- Ray W. Scott, C.E., will be an instrument man with the Burlington Railroad.
- Charles S. Whitnah, A.G., will work for the King Ventilating Company of Owatonna, Minn.
- Fred Acton, E.E., will be with the General Electric Company of Schenectady, N. Y.
- H. C. Gustafson, M.E., will work for the Drake Realty Construction Company of Omaha.
- B. F. Silsbee, E.E., will work with the Cushman Motor Works.
- Roy P. Lintz, A.E., will be on his farm at Big Springs, Nebr.
- I. H. Worley, E.E., will go to York to work for the Western Electric Company.
- Among the underclassmen who will do engineering work this summer are: Hawley N. Barnard has gone to Cody, Wyo., to work for O. V. P. Stout, formerly dean of the College of Engineering.
- R. N. Tracy will work for the Burlington Railroad.
- N. H. Leavitt will work for the Union Pacific Railroad at Omaha.
- Wayne Montgomery will work for the City Engineer at Lincoln.
- Those who will enter the State Highway Engineering Department are D. J. Young, H. C. Doremus, L. N. Ress, M. R. Joy, J. Brooks, A. E. Anderson, Robert Anderson, D. Sprecher, H. N. Beatty, R. Wight, A. Fuller and A. E. Eberhart.
- A break in the motion picture apparatus prevented students in the Engineering College from seeing pictures of machines in action Tuesday morning.
- Lucille Wilcox, '18, secretary of the North Platte U. of N. Club, visited at the alumni office the past week.
- The W. S. G. A. passed a resolution to join the old clothes movement which is pervading the country. They are not in favor of gingham apron clubs, of farmerette costumes or of khaki clubs as they believe that such a movement would only be an added expense. They advocate the wearing of all old clothes as long as possible.
- A course designated "Problems in Citizenship" will be given next year at this University and will be compulsory for all first year students to take. This course will include problems in economics and government and a study of political science and American history.

## VETERANS LOSE TO HUSKER MEN

Schissler's Team Too Fast for "All Star" Aggregation—Win 4-1.

### OLD TIMERS TOO RUSTY

The Cornhuskers' training proved too much for "Pip" Cooke's "All Stars" and they were trimmed by a 4 to 1 score at M Street Park Thursday afternoon. Although the old veterans came on the field with the old punch, they could not stand up to the pace set them by Schissler's men.

Carr pitched first class ball for the "All Stars," but the rest of the team were a little too slow in backing him up. Towle showed real form behind the bat and kept the Nebraska men on their bags. His throw to second was faultless and a steal was next to impossible. A couple of two baggers and a single were required before the alumni could score their one run.

Reynolds pitched the same brand of ball that won for him the first South Dakota game. He accounted for twelve men and the team handled the few hits in such a manner that the "All Stars" had but little chance of scoring. Smith caught and his "peg" to second accounted for four of the alumni outs.

Mud on the field hampered fast playing, but the errors on the "All Stars" had much to do with the final score.

Cody Clark and Jim Beltzer were the stickers for the alumni, each poling a two bagger. Wythers also clouted out a nice two bagger.

Cooke was not disappointed in the outcome of the game and still contends that with the field in good condition and a couple of weeks more good practice he can treat the Huskers to the same score.

## DELIANS ELECT HIGGANS PRESIDENT OF SOCIETY

J. Clifford Higgans was elected president for the first term of the next school year. The Delians feel that with Mr. Higgans as president the society will open with a big boom next fall. The other officers elected were: Edna M. Eggert, vice-president; Harold E. Carlson, treasurer; Augusta Thaden, secretary; James L. Adams, artist; Harry E. Meakly, sergeant-at-arms.

## HAUSER COMMENDS THE PROGRESS OF CADETS

Commandant of Cadets Says that Advancement in Drill was Remarkable.

Captain J. N. Hauser of the R. O. T. C. at the University expressed satisfaction of the work of the cadets this year and issued the following statement yesterday in regard to the progress of the student soldiers:

"The Commandant is glad to be able to use the columns of the last issue of the Daily Nebraskan to express his satisfaction at the fairly successful completion of the year's work in the Military Department.

"The year began in a most discouraging fashion; facilities for proper work for all the units were lacking, as were facilities for the work of the other departments of the University, which had all expanded beyond expectation. There were no rifles and no uniforms. It looked like hard sledding and there was hard sledding until things got straightened out.

"It was gratifying to all the members of the Department to see how the student body, in the main, appreciated the difficulties of the Department. The Department has on the whole received very loyal support from the students undergoing military instruction.

"The Competition, held within a month after the issuing of uniforms and rifles, was to say the least, a hundred per cent success. A much (Continued on Page 4)
