CLEANERS AND DYERS

NEW COMMANDANT HERE FOR R. O. T. C.

Colonel Moses Issues First Statement to Advanced Student Soldiers.

Colonel Moses, new Commandant of cadets at the University of Nebraska R. O. T. C., has arrived in Lincoln. He has purchased the home of J. C. Harpham at 1546 South Twenty-second street and his family will arrive in the city shortly. Colonel Moses is a man of great experience in military work and announces that the drill program for the University is being extended somewhat and is almost ready for publication.

The first official communication from the Professor of Military Science and Tactics to students eligible to enroll in the advanced courses of the R. O. T. C. has to do with enrollment.

The substance of this communication is as follows:

"From: Professor of Military Science and Tactics.

"To: Students eligible to enroll in the Advanced Course, R. O. T. C.

"Subject: Enrollment.

"1. You are eligible for enrollment in the Advanced Course of the R. O. T. C., Infantry Unit, Senior Division, and have been selected by the Chancellor and myself from the list of eligible students as being qualified mentally and professionally to enter upon the course.

"2. It is important that you communicate with this office as soon as organization of the Cadet Companies may be arranged before the opening of the academic year. It is planned to appoint all the cadet officers and the non-commissioned officers of the higher grades from among those students taking the advanced course. This is to be the policy for the future, although it may be necessary to make exceptions for the ensuing year. It is also necessary for this office to know the number of students taking the advanced course, so that the academic programs may be arranged.

"3. The following is required of all students taking the advanced course:

a. Five hours per week. Three of these hours are to be the same as those taken by the basic course students. This is the schedule:

Company "A"—Monday, Wednesday, 8 a. m., Tuesday, 5 p. m.

or Company "B"—Tuesday, Thursday, 8 a. m., Tuesday, 5 p. m.

or Company "C"—Monday, Wednesday, 11 a. m., Tuesday, 5 p. m.

or Company "D"—Monday, Wednesday, 5 p. m., Tuesday, 5 p. m.

(Co. D for students whose program of required subjects will not permit them to elect one of the other companies, and for certain other classes of students.)

Credit for the above three hours—one point per semester.

b. Two hours per week of theoretical work, attendance as follows:

Tuesday, Thursday, 12 noon (to be changed to 11 a. m.)

or Monday, Wednesday, 9 a. m.

or Tuesday, Thursday, 1 p. m.

"Completion of the four years of Military Science will count as the completion of the 'minor elective.'

c. One hour per week—This is for cadet officers, and at present is only tentative. Preparation on the part of cadet officers is essential, and it is the hope of the Commandant that adequate inducement can be arranged for, so that the cadet officers school will be a success.

d. Attendance at the Advanced Course Summer Camp, of six weeks duration. The normal time for attendance at this camp will be between the first and second years of the advanced course. By special permission, students may take the camp course after the second academic year.

e. The advanced course, once started, must be carried through to completion, unless the student leaves the University, and failure to do so will be a bar to graduation, unless permission to withdraw has been granted by proper authority.

"4. The following inducements are offered students:

a. Academic credit and proposed credit as mentioned above.

b. Money compensation from the government at the rate of 53c per day for the two academic years, plus the summer vacation between the first and second years, except for the time when the student is actually rationed by the government. The commutation of rations (which you draw in actual case) amounts for the two years to approximately \$275.

c. Traveling expenses, including ticket, Pullman and meals to and from camp, with no expenses at camp, and pay for the six weeks of camp duty at the rate of \$1.00 per day.

Clothes alone wont get you an invitation from the fraternity of your choice---but they'll help.

However, our young fellows clothes will make you a member of that brotherhood of well dressed fellows—and contrary to the usual opinion—they won't cost you a lot of money.

Here's how we did it—bought a lot of nifty new fall clothes that a timid retailer had cancelled—and we bought them at our price.

We've got 'em here—lots of them—smart double breasted—both suits and overcoats. We're selling 'em close, too, BUT WE'RE SELLING 'EM HAND OVER FIST.

Forty-eight seventy-five

that's the price and you'll see here some of the swellest stripes and plain colors in the land—why not, they're actually worth \$70 and \$75—everyone of them.

And for you fellows that want the best in the land—pure virgin wool worsteds; the kind that take a press and hold it; the kind that really wear—all silk trimmed and all that—for

\$75, \$80 & \$85
