

LUEHRING HERE FROM PRINCETON

Now Director of Physical Education and Athletics Announces Gigantic Plans.

Intra-Mural Sports to Be Developed—Coaches Will Train at Nebraska.

Nebraska University is one of the leaders in athletics in the middle west, according to Fred W. Luehring, newly elected Director of Athletics and Chairman of the combined Departments of Physical Education and Athletics.

Mr. Luehring comes to Lincoln directly from Princeton where he has been located since 1911. While there he was in charge of the Department of Physical Education and developed intra-mural athletics to a large degree.

The development of inter-collegiate and intra-mural athletics to a much larger extent than ever before forms only a part of the program which is designed to place Nebraska University on a par with the best institutions in the country without exception.

Mr. Luehring will have charge of the carrying out of this program and will have as his co-worker Henry F. Schulte who will have charge of coaching the teams.

Luehring's First Plan.

The first plan of the new director is to co-ordinate the work of the physical education and athletic departments in the work already being carried on. The plan of one department for this work is used in practically all colleges and universities.

With the plan of giving the students a thorough education in physical education and in intra-mural and inter-collegiate athletics his main purpose, Mr. Luehring has extensive ideas and plans to increase the facilities for carrying on his work.

He has been deeply interested in the drive conducted here last spring for funds to erect the memorial gymnasium and stadium. Of the results of the campaign Mr. Luehring says, "I want to congratulate the students on their splendid response to the campaign this spring. It is necessary that the campaign be carried over the state. Every student should carry the needs of the University back to the people in their communities in order that we may put Nebraska first in athletics."

Besides the new gymnasium and swimming pool, plans are being made to secure additional ground for use of the teams in their practice. The football coaches are greatly handicapped in their work on account of (Continued on Page 4.)

NEW PROFESSOR COMES FROM TRANSVAAL

Dr. Emmet Anderson Will Arrive from Africa to Teach Chemistry.

Dr. Emmet Anderson, of the Transvaal College, Pretoria, South Africa, has been appointed professor in the Department of Chemistry of the University of Nebraska. Professor Upson, head of the University of Nebraska Chemistry Department, received word that Professor Anderson reached the United States Tuesday and will arrive in Lincoln Monday to take charge of the courses formerly given by Dr. McLeod, as well as a number of Freshmen courses.

Dr. Anderson, who has been head of the Department of Chemistry at Transvaal University College for three years, is a teacher and scientific investigator with an exceptionally strong record. Before his service in South Africa he was on the faculty of the University of Chicago and the Massachusetts Agricultural College. His college work was done at the University of Texas and Chicago University. He received his Ph. D. degree at Chicago in 1909.

Leading chemical journals have published research articles by Dr. Anderson and his record as a teacher at both Chicago and Massachusetts is said to be a noteworthy one. Members of the Chemistry Department, in filling the vacancy left by the resignation of Dr. McLeod, feel that a strong addition to the University faculty has been made.

The Managing Editor of the Daily Nebraskan may be interviewed this semester from four until six o'clock daily except Saturdays.

CIRCULATION MANAGER.

Applications will be received for Circulation Manager of the Daily Nebraskan until five o'clock Monday afternoon, September 20, in the Student Activities office.

COMMANDANT GIVES OUT INFORMATION

Colonel Moses Issues Directions for Those Required to Take Military Science.

IMPORTANT TO FRESHMEN

Colonel Moses, new commandant of the R. O. T. C. unit at the University, has issued another circular of information to those who are registering for Military Science the first semester. These directions are to be read carefully by students as they include all information that the beginning cadet may wish to know.

The statement follows:

1. Students required to take military training will find it to their advantage to study this memorandum and comply with its provisions. It is issued solely in the interest of the students who are to become members of the University Corps of Cadets.

2. The hours for military training are as follows:

Company A—Monday, Wednesday, 8 a. m.; Tuesday, 5 p. m.

Company B—Tuesday, Thursday, 8 a. m.; Tuesday, 5 p. m.

Company C—Monday, Wednesday, 11 a. m.; Tuesday, 5 p. m.

Company D—Monday, Wednesday, 5 p. m.; Tuesday, 5 p. m.

The above hours are for the city campus. Company D is reserved for students in the Engineering Colleges, and others who are unable to register for any of the other hours. Hours for the Farm campus are Monday, Wednesday and Friday, 1 p. m.

3. Assembly for military training will be on the hour. When practical (training is under arms, students will be required to take their arms before assembly, which will be five minutes after the hour. Formations normally take place on Twelfth street facing west, the right resting on T street.

Only 18 Demerits Allowed.

4. Students will be graded in this subject the same as in any other. Students who receive more than eighteen demerits per semester will be given a failing mark. The following will affect standing in military science:

a. Absence. Unexcused absences will count three demerits.

b. Tardiness. Unexcused tardiness will count one demerit.

c. Willful disobedience of orders or insubordination will count five demerits.

d. Slovenliness, improper wearing of the uniform, failure to comply with saluting regulations, failure to (Continued on Page 4.)

ERNEST HUBKA. One of Nebraska's candidates for the all-American team.

Even "Rush Week" For Co-Eds Is Limited By Pan-Hellenic Rules

The one week of each year when the social events of University life appear upon the sky-line and partially obscure the more serious activities is in full swing. But those in the inner circle are eager to explain that the serious phases of life are all present during "rushing" week. Indeed the tea dansants and the cotillions and the little breakfasts that the sororities are giving are all carefully restricted by Pan-Hellenic rules. They began Wednesday noon and must end Saturday night. The Pan-Hellenic Board will send out formal invitations Saturday to the rushees whom the sororities elect to become members. Pledging in sororities takes place only at the end of the week. Restrictions are placed on the

number of parties and on the expenditures.

The only way in which the sororities are not restricted is in the effort to make the limited expenditures go as far as possible. The many clever parties show that ingenious ideas have been well combined.

The fraternity "rushing" parties take place with less "social buzz," but the fact is that they are in no way restricted and last from Sunday till Saturday. "Open rushing" is their custom, while the sororities are permitted to rush only at the scheduled social affairs. The daintiness of sorority parties does not appear in the fraternity parties; they have the atmosphere of solid comfort. This is perhaps explained by the difference of temperament in men and women.

COMPROMISE IN FRATERNITY ROW

High School Greeks May Be Pledged Until October 1, 1920.

Inter-Fraternity Council Committee Responsible for Concession.

University fraternities may pledge the members of high school fraternities who were expelled from Lincoln High School last spring, according to the latest ruling of the board of education, passed at its meeting Wednesday afternoon.

A committee of three, representing the inter-fraternity council appeared at the meeting and asked the approval of the board of an amendment to their rules. The amendment provides that members of high school fraternities may not be pledged or initiated in University fraternities after October 1, 1920, instead of September 1 as at present.

This change will permit the open pledging of men who have already been "spiked." The committee members promised that any man entering a high school fraternity after October 1, 1920, would be barred from membership in a University fraternity.

Members of the committee representing the inter-fraternity council were O. J. Fee, chairman of the committee on the Lincoln High School situation; Eugene Holland, representing the fraternities; and Prof. R. D. Scott, chairman of the committee.

The board also passed a resolution commending the University fraternities for their announced efforts to stamp out secret societies in high schools.

During the discussion, one of the board members stated, "If University fraternity men deliberately set out to violate the state law, the next legislature may take action to suppress fraternities in the University."

"BIG SISTERS" ACTIVE THIS WEEK

Freshmen Girls Guided By Upperclassmen Members of Organization.

The "Big Sisters" movement which was organized at Nebraska University a few years ago, has been very much in action during the past few days. The motive of the movement is to help new Freshmen girls get a start which will enable them to grasp a better idea of school life and of what they can do in the University.

Each "Big Sister" during the summer months is assigned several Freshmen girls who are to be her "Little Sisters." Many of the "Big Sisters" are meeting trains and are helping the Freshmen in their registration. Any phase of the University life which is new to the "Little Sisters" is explained to them. In short, the "Big Sisters" are just what their name implies.

BAND TRYOUTS WILL BE HELD EARLY NEXT WEEK

Tryouts for the University Cadet Band are to be held on Monday and Tuesday of next week from three-thirty to five o'clock in Armory 302. All University men are eligible.

Director William T. Quick, who was with the Band last year, will have charge again and expects to produce a splendid organization. Students taking military training are allowed to substitute band practice two nights a week for drill on those nights.

FLOYD WRIGHT. A veteran backfield man who is sure of a berth on Schulte's 1920 team.

QUESTIONS ABOUT ADVANCED WORK IN R. O. T. C. ANSWERED

Military Department Receives Queries All Day Wednesday.

Queries were being received all day Thursday in the Military Department from upperclassmen who were confused about their eligibility to take the advanced courses in Military Science.

Authorities in the Department wish it made clear first that credits allowed by the University authorities for service in the army, navy or marine corps and S. A. T. C. have no bearing whatsoever on credits necessary for entering the advanced courses of the R. O. T. C.

To enter the advanced work students must have had two years' basic R. O. T. C. work under an officer of the United States army. Students Having Had S. A. T. C. Work.

The student who has had S. A. T. C. work may apply such work to the amount necessary before entering the advanced courses, but he can not sign the contract allowing him commutation of subsistence which amounts to fifty-three cents per diem, until he has had two full years of the basic course as previously stated.

For example, if a student has had one and one-half years of drill at the University of Nebraska under an army officer (3 credits) and S. A. T. C. work which counted as one year's drill, he may register for the advanced work but he will not be able to sign the commutation and subsistence contract until he has completed his two years' drill under an army officer.

CORRECTIONS IN LIST OF GREEK SOCIETIES

The following corrections have been communicated to the Managing Editor in regard to the list of fraternities and sororities which was published in Thursday's Daily Nebraskan: The Delta Zeta telephone number is B4889 instead of L5992 as listed, and Aethon now resides at 2530 Q street.

UNIVERSITY RECEPTION SATURDAY.

Chancellor and Mrs. Samuel Avery will hold the annual University reception in Art Hall from eight to eleven Saturday evening. All students and members of the faculty are invited. Chancellor and Mrs. Avery will stand in the receiving line. The wives of the deans will preside at the table where ice is to be served.

This reception is one of the oldest traditions of the University. It is the one opportunity of the year for all the University people to meet the Chancellor and his wife. New students are especially urged to attend.

1405 REGISTER BEFORE FRIDAY

Simplification of Method Causes Enrollment to Seem Quieter Than Usual.

NEW SYSTEM AT FARM

Although registration seemed a little quieter than in former years, due in part to the separate registration of Engineering students, yesterday at five p. m. fourteen hundred and five students had received receipts for fees, showing an increase of four hundred and forty-two students over the same period of last year. Whether or not the two remaining days will show the same increase can only be predicted, but judging from the number of students arriving daily, indications are that the University will have a heavier registration than ever before.

Large Lines Form.

At ten a. m. Wednesday the line of first-year students extended from University Hall to the east end of Administration Building, while upperclassmen and those experienced in breaking in the line scanned the patient waiters for a place where some timid and unwary Freshman would be compelled to lose his or her place in line, thus allowing some young friend of the upperclassman an opportunity of saving some valuable time.

Toward noon advisers and committees became busy persons and students stood about in groups renewing acquaintances while waiting for the advisers to complete their schedules. The assignment committee was not unusually busy, due to the simplification in this lap of registration.

In Agricultural College.

In the Agricultural College, for instance, students were immediately assigned classes and hence the lesser confusion about the assignment committee. Very few of the seven or eight hundred first-year students who received their credits were able to complete the mysteries of registration the first day, only one hundred and seventy-eight completing the final lap.

Altogether registration is passing very quietly. The experience of former years has resulted in greater simplification and more students are being admitted in the same time. If the enrollment keeps on increasing, it will be the biggest year that Nebraska has ever had and the record of Saturday of last year, fourteen hundred and forty-eight students, will have been shattered.

CHURCHES HOLD "OPEN HOUSE" THIS EVENING

Lincoln churches have thrown open their doors to welcome University students tonight and the first "open house" of the year will be held. Churches working together to entertain students this evening are the First Baptist, 14th and K; First Congregational, 13th and L; St. Paul's Methodist, 12th and M; Grace Methodist, 27th and R; Trinity Methodist, 16th and A, and the Emanuel Methodist, 15th and U.

Every student who has returned to Nebraska and especially those who are coming to the University for the first time are invited to these churches tonight.

Invitation is also extended for students to enter the Bible classes in their own churches. In addition to those mentioned above the following churches invite Cornhusker men and women to worship with them Sunday morning: East Baptist, Plymouth Congregational, Vine Congregational, First Presbyterian, Westminster Presbyterian, and the Second Presbyterian.

LIGHT WORKOUTS HELD THURSDAY

Yearling Squad Shows Exceptional Material and Looms Up Big Before Coach Schissler.

Varsity Must Be Rounded Into Shape Before Clash With Washburn October 2.

Two more comparatively light workouts were the order of the day for the Cornhuskers yesterday. Both in the forenoon and afternoon Schulte's pigskin warriors pranced about the field in track suits, the work consisting mainly in passing the ovals about and kicking, the principle idea being to remove all traces of stiffness and put every man in the best of physical condition before beginning any scrimmage work. Schulte announces that early next week, probably on Tuesday, scrimmage work will be started and the drive to put the team in shape to meet Washburn then begins in earnest.

Practically all the veterans who are expected to return this year have already reported for duty and the men from last year's Freshman team are also on hand. Everything is now in readiness for steady work for the rest of the season. Another double-header is slated for tomorrow as Schulte does not want to lose any time in putting the squad in shape.

Promising Yearling Squad.

A very enthusiastic and promising group of Freshmen greeted Assistant Coach Schissler yesterday. The caliber of the first-year material this season is exceptional and there is no doubt but that a Yearling eleven which will afford the Varsity plenty of stiff scrimmage practice can be developed. The Freshmen will start practice work early next week under the direction of Schissler. A process of elimination in the "Frosh" ranks will be necessary in order to find the very best material. It is the intention of the coaching staff to accomplish this as speedily as possible in order that a Freshmen eleven may be formed to scrimmage with the Varsity next week.

Washburn Comes October 2.

The first contest of the year is slated with Washburn College, of Topeka, Kan., on October 2, which falls just two weeks from tomorrow. The Topeka school has always stood high in Kansas football and is prominent in athletic circles throughout the entire Missouri Valley region. It is reported from authentic sources that practically all of the letter men of last year are again playing under Washburn colors and the Huskers are apparently in line for a stiff opening clash when the Kansans come to Lincoln. The Washburn team made an excellent record in football last year, several of her players being among the all-state selections. The two weeks intervening before the opening game afford little time indeed to develop a Husker team that can win from Washburn.

Don't Be a Rag Picker—Buy a Subscription Now

How much do you know about the University of Nebraska and the happenings of the campus? How much are you going to know about them through the course of the semester? Are you going to know all the dope and results of our athletic teams? Are you going to know about class affairs and elections? Are you going to know all the news of the campus activities from day to day?

The answers to these questions will depend very much upon whether or not you become a regular subscriber of the Daily Nebraskan. It is the duty and business of the Nebraskan to keep all of its readers informed of all of the news of the campus, and of any news affecting the school in any way.

Are You a Rag Picker?

Of course there are other ways of reading the Nebraskan other than by being a subscriber and getting your copy each day. There is the "May-I-see-your-Rag" way of getting hold of a paper for a few minutes at the beginning of class. Then there is a way of sneaking one off the "r" in Station A and joining ranks of individuals known as "Rag Pickers."

But these other ways are unreliable (Continued on Page 3.)
