Former High "Y" To Be Organized

Former High "Y" men, who are now attending the university, listened to two talks Sunday afternoon by men who are active in boy's work and considered experts in that particular line. Mr. L. C. Oberlies of Lincoln related the high school "Y" activities to university work and O. R. Diehl, State Boys' Secretary of Omaha, made an appeal for the continuation of Christian work on this campus.

Following the talks there was an open discussion on the advisability of making a permanent organization of all former High "Y" men, as a branch of the University Y. M. C. A. Since there are nearly two hundred such men now in the university, it was decided to call another meeting next Sunday afternoon for the purpose of organizing such a group.

Through the city Y. M. C. A. it was learned that there are boys in various parts of the city, and West Lincoln that are asking for young-people used for boy's club work, scout leaders, and industrial group leaders. The aim of the organization when it is perfected will be the keeping of the ties made in High "Y" clubs and the branching out into other activities on our campus and in the city.

TICKETS ON SALE FOR KANSAS GAME

Husker Contest to Be Feature of Homecoming Program at Lawrence.

Jayhawks Planning Royal Reception for Northern Invaders this Week.

Today the tickets for the Kansas-Nebraska football game go on sale at Tucker-Shean's. The Kansas-Nebraska game this year is the feature event of the Kansas annual homecoming celebration, and tickets are at a premium at Lawrence now.

The Kansas athletic management has set aside a section of four hundred seats in the middle of the field for Nebraska rooters. In order to guarantee this section the Nebraska supporters must have their reservations in by Thursday night.

A special train will leave Friday night at 11 o'clock for Lawrence and will return Sunday morning at 10 o'clock. Reservations for this train can be made at the Union Pacific office in the Chamber of Commerce building, 204 North Eleventh street.

Round trip tickets will cost fourteen dollars and sixty cents without Pullman and twenty dollars and forty-eight cents with Pullman. One hundred and twenty-five round trip tickets must be guaranteed in order to obtain this train. Extra cars will be added if needed.

Last year Kansas sent about four hundred rooters to the Kansas-Nebraska game at Lincoln and there should be at least this number of Cornhuskers at the game at Lawrence this year. Arrangements have been made so that the students who wish to accompany the team will not have to miss any school. Kansas has a real team this year which, combined with the fact that they will be playing before a homecoming crowd, will put a up real battle.

RINDGE SPEAKS TO LAWS AT GENERAL LECTURE PERIOD

Association Worker Tells Students of Challenge for Work of Americanization.

"These are days of great industrial and social problems, and the nation is looking toward the college men and women to solve these problems," said Mr. F. H. Rindge, Jr., in addressing the Law College at the seventh general law lecture in the Law building, Friday morning, at 11 o'clock.

Mr. Rindge is the national secretary of the Industrial Service Movement of the Y. M. C. A. He is thoroughly acquainted with the subject of his talk and his lectures are all the more appreciated because he speaks from actual experience. He believes the industrial unrest to be partly due to the fact that there are so many people dwelling in this country who are not American citizens. He encourages that more effort be put forth in teaching American citizenship. He said the three outstanding problems were the problems arising from socialism, radicalism and of Americanization and these could be overcome by teaching American citizenship.

In closing he left these ideas, "Men need co-operation and friendly counsel. Foreigners are anxious to procure the use of the English language and why not help them?"

STUDENT VOLUNTEER LIST FOR FOREIGN WORKERS

Positions in Other Countries Open To Men and Women To Render Service.

The student volunteer movement which is interdenominational has recently published a long list of the needs in foreign fields. Some of the positions open for women are: one music teacher; science, industrial, normal and high school teachers; a teacher of kindergarten, physical culture and home economics; a teacher of the school for the deaf at Chefoo, China, to receive her training at Clarke School, North Hampton, Massachusetts; a teacher of painting and drawing; a teacher of biology; nurses and physicians.

The positions for men are: agricultural teacher, boarding school superintendent with agricultural training, teacher of high school physics in the Philippine Islands, principal of agricultural high school in Greece, medical men, preachers, private secretaries, builders to superintend construction work in China, India and Africa, a laboratory chemist, business agents.

Dr. Benson Baker, of India, representing the Methodist Church will be in Lincoln, December 4, 5, 6, to talk on the needs of India. A few of the specific needs of this field are: three educators with M. A. degrees for Lucknow College in northern India; one educator, one social worker in Bikanir, agricultural worker, mechanical engineer, physicians and surgeons, evangelists, printer, nurse, social service director, deaconess nurse, educator to train kindergarten teachers, for other parts of India.

Harry F. Huntington, chairman of the Life Work Guidance Committee, whose office is in the American Legion room first floor of the Temple, wishes to talk to any student interested in the work to be done in the foreign countries.

THE RAJAH'S PALACE
MYSORE, INDIA
Equipped with Otis Elevators

WITHIN the romantic line of "India's east strand," in Mysore, an-thing-of-places, Otis has introduced modern, vertical transportation.

The Rajah of the native State of Mysore resides in this palace in the capital city of the same name. What a strange note this modern elevator must bring to this palace! . . . The civilization of the West reaching into the very heart of the Orient and paving the way for other products.

As an achievement, this Otis installation is noteworthy in itself, but its chief significance lies in the fact that it is a true indication of the world-wide scope of Otis activities.

Most of the famous buildings of the world are equipped with Otis Elevators
