Clinking Buckles.
 "Curses," murmurs the disgusted
 frat man as he hears the clinking
 buckles of the golashes by his side.
 For not only does the co-ed insist on
 wearing them to school, but she
 wears them as she trips off to a
 party. Not only must the hosts or
 hostesses furnish rooms for coats but
 a regular parking space for golashes
 now in vogue. Some one murmurs
 that it is too bad to spoil a perfectly
 good date by having the girl wear
 golashes, but cheer up, boys, it will
 soon be spring.

 Pearsall, the world's famous "jigger"
 will give her thrilling stunt. Martha
 Krogmann, the greatest juggler that
 Darem and Jolley have ever had trav-
 eling with their show will be at her
 best Saturday night.

Herbert Yenne is the dainty, tight
 rope walking artist and does the Japa-
 nese parasol balancing stunt. He

 his toes and finally break a leg or
 two for your entertainment.

 eloquent genius has been gathered

 if printed here, because while "fig-
 gers won't lie, liars will figger." The
 whole big show of wonders in one
 ring, has its one and only performance
 in Lincoln next Saturday evening at
 the Coliseum starting promptly at
 7:45. Don't miss a minute of it.

 of Control and widely known over the
 state as a speaker of especial ability,
 had been secured to give a talk at
 the meeting this next Friday noon. Mr
 Oberlies has taken for his subject,
 "Our Duty to Our Alma Mater." The
 full program will be given out later in
 the week. Tickets may be secured at
 the Y. M. C. A. office at the Timp's
 and from a corps of men who are
 selling them on the campus.

Dr. Alexander told of the difficulties
 encountered in extending the present
 campus on account of the fact that the
 business section on the south and rail-
 road tracks on the north and west pre-
 vented any extensive development in
 those directions. "The campus must
 be extended a great deal in the fu-

ture," he said, "and it must of neces-
 sity extend toward the east." He
 emphasized that if all the buildings
 which are needed at present were con-
 structed the campus would extend to
 Seventeenth street.

Must Move Rock Island Tracks.
 "It will be necessary to have the
 tracks of the Rock Island removed
 from their present location," the
 speaker pointed out, in order that
 enough room for athletic facilities may
 be had. The present site of the
 freight yards would make an ideal
 place for a recreational center for the
 people of the state as it is situated
 near all of the great highways lead-
 ing into Lincoln. Dr. Alexander urged
 the men to use their influence toward
 working up public sentiment to have
 these tracks removed to some other
 equally good location.

Guy Reed spoke of the plans which
 are being developed by Mr. Luehring
 for placing Nebraska at the head in
 athletics among the big Universities
 of the country. He urged the stu-
 dents to support Mr. Luehring in his
 efforts. He told of the bill before the
 legislature, for the erection of a me-
 morial gymnasium and a stadium. Mr.
 Luehring, who was to have spoken,
 was called to Omaha Thursday to a
 meeting to arrange for the high school
 basketball tournament to be held in
 Lincoln this spring.

Arrangements can be made, it was
 announced, to seat two hundred men
 at the luncheon this week.

 bers of Mystic Fish have been cam-
 paigning on the campus. These or-
 ganizations have been active in secur-
 ing the new delivery service for their
 houses. The plan of giving the stu-
 dents the announcements for the day
 each morning by 7 o'clock has been
 successfully tried in many of the
 large eastern institutions. In many
 of these places the college paper
 takes the place of a daily newspaper,
 in the absence of any of the city
 publications. The more papers that
 are delivered to the various houses,
 means less of a congestion each
 morning at the postoffice. With
 fewer people depending on this place

for getting the paper, it is hoped that
 a closer check on the students will
 be taken. "Rag picking" is going to
 be reduced to the minimum, accord-
 ing to the staff members who are
 working out the plan.

Will Study Work of Steele Holcomb.
 Many students have indicated their
 desire to take at least one of the
 courses being offered. The topics to
 men include missionary work in
 South America and Asia, and the Y.
 M. C. A. work being done in Egypt
 by Steele Holcomb, former University
 of Nebraska man. The classes for
 girls will include a study of work
 done in China, India, South America,
 and a course named "Under Our
 Flag." This course takes up not only
 home missions but work being car-
 ried on in American possessions.
 An evening class open to men and
 women on the subject, "A Trip
 Around the World," is to be given in
 Social Science Hall, Room 208. The
 class will be held on Thursday eve-
 nings and at each meeting a different
 speaker will talk on some special
 country about which he is informed.
