MAGEE MANAGER SPEAKS TO COMMERCIAL CLUB

E. L. Smith Tells of Conditions in Clothing Market of Today.

E. L. Smith, general manager of Magee's clothing store, spoke to the University Commercial Club Thursday morning at 11 o'clock in SS 505 on "Conditions in the Clothing Market." He spoke at length on conditions in general in the garment industry and discussed the labor and wage problems that are causing havoc in that industry. The clothing industry is highly specialized and all the different operations have their special trade unions and strikes. Wages in general have decreased about 22 1/2 per cent since the close of the war; but this is small compared to the tremendous increases during the war.

He also explained how styles are made and the causes of radical changes that take place from season to season. The designers for the various clothing manufacturers meet in a convention with a committee from the Retail Clothiers' Association and they decide upon the styles that will be the most popular for the coming season.

In answer to questions from his audience Mr. Smith discussed a number of important problems that are met with in the retail clothing business and how they have been solved in a number of cases.

There was also a short business meeting of the club and plans were discussed for the club dance to be held this evening and for the annual banquet to be held April 29th.

She—People are saying that you married me for my money alone.

He—They are mistaken. You are quite a lot of real estate.—Boston Transcript.

FORDYCE RESIGNS AS COLLEGE HEAD

(Continued from page one)
The reply of Chancellor Avery follows:

"My dear Dean Fordyce: Subject to the approval of the Board of Regents, I hereby accept your resignation as dean of the Teachers College to take effect August 31, 1921. Furthermore, I shall take great pleasure in recommending to the board that you continue to serve the University as professor and chairman of the department of educational measurements and research.

"I sincerely hope that the laying aside of the difficult and sometimes harrassing executive burdens that you will have borne for thirteen years will give you the greater opportunity to pursue the departmental work which you deeply enjoy and in which you have won notable recognition. On this connection may I express the hope that the University community and the public will recognize such work as quite as honorable and important as administrative work of any type. I have long felt that one of the weaknesses of American universities is the undue emphasis and recognition given the work of executive officers, with a corresponding lack of appreciation of the work devoted to instruction scholarship and research.

Yours very truly,
S. AVERY,
"Chancellor."

Freshy—I saw something last night that I'll never get over.
Senior—What was that?
Freshy—Moon.

If the government collected a tax on brains it would owe most of us money.

The sweetest words of thought or pen.
"The price of board has dropped again."

Do You Need Extra Courses?

Send for catalog describing over 400 courses in History, English, Mathematics, Chemistry, Zoology, Modern Languages, Economics, Philosophy, Sociology, etc., given by correspondence. Inquire how credits earned may be applied on present college program.
