

SIG EPS FIRST IN TRACK MEET

Win Inter-Fraternity Classic by Close Score Over Phi Psi and Sig Alphas.

WEATHER IS BAD

Thirteen Fraternities Register Points—Good Time Made in Runs.

The annual inter-fraternity track meet went to the Sig Eps who gathered a total of 48 points. The Phi Psi and Sig Alphas were close on the heels of the Sig Ep team with scores of 31 and 21 respectively.

Layton and Lowellen for the Sig Ep crew were the big point winners in most of the runs. Morgan and Noble of the Phi Psi team secured the most counters for their fraternity. Hickman, Dewitz and Weller were responsible for the Sig Alpha points.

The time in most of the races was remarkable considering the unfavorable weather that prevailed. Carman's performance with the javeline was one of the features of the meet. Meyers for the Sigma Nu's did good work in the half and mile runs, capturing first in both races. Following is a list of the fraternities and the points secured by each one:

- Sigma Phi Epsilon, 48.
- Phi Kappa Psi, 31.
- Sigma Alpha Epsilon, 21.
- Sigma Nu, 16.
- Acacia, 10.
- Delta Tau Delta, 10.
- Delta Upsilon, 9 5-6.
- Farm House, 5.
- Alpha Tau Omega, 4 2-3.
- Delta Chi, 3 1-2.
- Bushnell Guild, 3.
- Alpha Sigma Phi, 1.
- Delta Sigma Delta, 1.

A complete summary of the meet is as follows:

100 yard dash—First, Morgan, Phi Psi, and Noble, Phi Psi, tied; third, Hickman, S. A. E.; fourth, Lukens, Phi Gamma. Time—10:2.

220 yard dash—First, Hickman, S. A. E.; second, Morgan and Noble, Phi Psi, tied; fourth, Dewitz, S. A. E. Time—24:3.

440 yard dash—First, Layton, Sigma Phi Epsilon; second, Hawkins, S. A. E.; third, Woodward, Delta Chi; fourth, Cressell, Sigma Phi Epsilon. Time—53:3.

880 yard run—First, Meyers, Sigma Nu; second, Weir, Farm House; third, Gross, Delta Upsilon; fourth, Williams, Acacia. Time—2:12:1.

1 mile run—First, Meyers, Sigma Nu; second, Williams, Acacia; third, E. (Continued on page four.)

C. STEELE HOLCOMBE

Steele Holcombe, '16, Y. M. C. A. representative in Alexandria, Egypt, who is partially maintained by University of Nebraska men. "Nebraska in Egypt" week, in his interests will begin Tuesday morning when fifty teams will commence to canvass all men on the campus to raise the \$1,700 needed for the work of the coming year. Nebraska in Egypt week has been sponsored by the University Y. M. C. A. for several years.

ALPHA RHO TAU ELECTS FIVE STUDENT MEMBERS

Alpha Rho Tau, national honorary fine arts fraternity, has elected the following members from this year's graduating class: Lela Hardy, Frances O. Oman, Bertha A. Reese, Annamae Rystrom and Herbert A. Venne. Miss Marian Wilcox and Miss Hermine Steller, of the fine arts faculty, were elected to membership.

Members of Alpha Rho Tau are elected from those students who are taking the degree of bachelor of fine arts or are majoring in one of the fine arts. Membership is based upon scholarship.

W. H. BROKAW ADDRESSES AGRICULTURAL STUDENTS

Will Petition Regents to Install Journalism Course in Ag College.

W. H. Brokaw, director of the Nebraska agricultural co-operation extension work, addressed the Agricultural Club Thursday evening, April 7. The Farmers Fair Side Show committee met and planned the details for two side shows. A resolution was presented to the club, and carried unanimously to petition the Board of Regents of the University to install a journalism course in the Agricultural College.

Mr. Brokaw reviewed the history of agricultural extension work in the United States, from its inception in 1862 "when the Morrill Act was enacted by congress, which provided 50,000 acres of land for the establishment of our University." Later the Hatch Act of 1887 was enacted which provided money to carry on experimental work at the various experiment stations. The Smith-Lever Act of 1914 adds in the development of our present agricultural extension work. Under the latter bill Nebraska first developed the farmers' institutes and demonstration trains, but these reached only a few farmers and at the wrong time of the year with no follow-up work, so it was abandoned for the Farm Bureau work.

According to Mr. Brokaw's statement there are 4,000 extension employees in the United States at present. In Nebraska the work is divided into five groups: The central office force, 17 specialists working out of the central office, 42 county agricultural agents, seven home economics demonstration agents and four county club agents. He explained the possibilities of extension work in Nebraska for Agricultural College men, stating that at salaries range from \$1,800 to \$4,600 per year; for men who have the right personality and ability.

A resolution was introduced before the club by R. E. Fortuna and passed unanimously, to petition the Board of Regents to place a course of journalism in the Agricultural College. "Such a course would fill a long felt want of agricultural students. It would no doubt raise the literary and news value of the official organ of our college, namely Agriculture," stated its sponsor. (Continued on page four.)

"Nebraska's France" Transformed Into Beautified Cadet Drill Grounds

More than thirty new tennis courts, small trees and shrubbery have converted the once barren space south of Bessey Hall into an expanse of sightly new ground which is a part of the realization of the new "campus beautiful."

Juniors and seniors in the University probably remember when this space was occupied by dozens of cramped-up dwellings. They will tell you, also, of the period of muddy days which followed when the first excavations were made toward the results which are now showing themselves. Those were the days when "Nebraska's France" was given as a nickname to this walk in muck and mire from rooming houses to the University.

During the present school year the improvements on this part of the extended campus have been noteworthy. Laborers have been busy for the past nine months levelling off the ground

on this part of the campus and also on the part surrounding the Teachers' College and north of Ellen Smith Hall.

Just south of Bessey Hall a row of tennis courts extending to Fourteenth street has been almost completed. These courts will meet with the approval of "tennis-loving" students and will take the place of a long felt need at the University. The courts are part of the Greater Nebraska athletic program initiated by Director Luehring when he came to the school.

The grounds will be beautified along the newly laid cement walks with trees, spirea bushes and other shrubs.

Members of the University R. O. T. C. will use the grounds south of the tennis courts as a drill field. Before levelling off the ground, the holes that were in evidence in all parts of the field reminded some of the shell holes which they had seen in France.

Altogether, it has been a wonderful transformation!

CHRISTENSEN GETS DANISH FELLOWSHIP

University Graduate Receives \$1,000 Scholarship for Study of Co-operative Agriculture.

C. L. Christensen, '20, has just received a fellowship from the American Scandinavian Foundation for the study of co-operative agriculture in Denmark. The fellowship carries with it a stipend of \$1,000.

Mr. Christensen was graduated from the University in 1920. He was a member of Alpha Zeta, honorary agriculture fraternity, member of the Innocent's society, president of the Student Council and member of Farm House. He will start for the Scandinavian countries next summer and will probably spend some time traveling in Sweden and Norway before beginning his studies.

Four other students from the United States have received fellowships for study in Denmark. The students are divided up among the three Scandinavian countries, ten to Sweden, five to Norway, and five to Denmark. Candidates for traveling fellowships must have been born in the United States or its possessions. They must be capable of original research and independent study and each must submit a definite plan of study. It is desirable that they be college graduates and familiar with at least one language in addition to English, preferably Swedish, Danish or Norwegian.

"SOIREE FRANCAISE" PRESENTS PROGRAM

The University French Club, "Soiree Francaise," met Saturday evening at Faculty Hall, in the Temple building. This club is composed of those students doing advanced work in French.

The following program was given under the direction of the committee in charge, Mrs. Dilworth, Mrs. Crittenden, and Miss Brebert.

Monologue, Au Telephone—Mary Prost.

Dialogue, Les Martins au Restaurant—Le Patron, Edward Buck; Les Faroux, Bliss Mapes, Renney Glenn; La Mere et sa Fille, Evelyn Daby, Harriet Daby; Les Amoureux, Daisy Graf, Arnett Polson; Madame Martin, Elizabeth Burritt; Monsieur Martin, Roy Forsman; Charlot Martin, Bernard Gradwohl; La Classe de Francaisen Alsace; La Solur, Zoe Schalek; L'inspecteur, Harold Hinkle; Les Eleues, Frances Graham, Merle Malchow, Beatrice Ward, Julia Stephens, Florence Gable, Ruth Troit, Reba Gerstenberger, Madeleine Hendricks.

AG SCHOOL TO HOLD CLOTHING EXHIBIT

The School of Agriculture will hold an exhibit of clothing work Monday, April 11, in room 301 of the Home Economics building on the Farm campus. All friends of the school are invited to visit the exhibit between 9 and 3 o'clock.

Miss Gretchen Haslam and Miss Harriette Muneke are in charge of the exhibit. There will be graduation dresses, silk afternoon dresses, blouses, children's clothing and hats made by freshmen and senior students.

COPPOCK CAMPAIGN TO BEGIN TUESDAY

Annual Drive for Funds to Support Y. W. C. A. in China Comes this Week.

The Grace Coppock campaign for funds to support Grace L. Coppock '05, national executive of the Y. W. C. A. in China, will be on in full force beginning Tuesday. The campaign will not only be a campaign for money but it will be a week in which the work of Nebraska women graduates in the foreign field will be put before the students.

Four Nebraska women are giving their services in the work for Chinese women. Grace L. Coppock, to whom the money given in this campaign goes, is national executive of the Y. W. C. A. in China. She is in charge of all of the work there. Fourteen years of work is her service record in that field. Vera Barger, '11, is head of the Y. W. C. A. normal physical education school at Shanghai, China. Ethel Hartley and Genevieve Lowry, '15, are secretaries in the Y. W. C. A. at Hanchow.

Miss Lowry, who is in the United States on leave, will be here during the campaign.

Why the work these Nebraska graduates are doing means so much to China is expressed in this extract from "Changing Chinese," by E. A. Ross: "All the railroads that may be built, all the mines that may be opened, all the trade that may be fostered, cannot add half as much to the happiness of the Chinese people as the cultivation of the greatest of their undeveloped resources, their womanhood."

Grace L. Coppock in her work in China is helping meet this challenge. There are working with her a staff of ninety-six foreign secretaries, seventy-five of whom are from the United States and all of whom are supported by their home people. Sixty Chinese women are giving volunteer services and there are thirty-two Chinese secretaries who are supported by money raised in China.

Difficulties which this corps of workers must face are great. The work this year is particularly heavy because of the famines. Miss Coppock writes that 20,000,000 men, women and children of North China are on the verge of starvation. Five dollars will keep one person from starving until the spring harvest.

Chinese women are looking to America for leadership. The University of Nebraska already has a worker in the field, whom it is the privilege of Nebraska women to support in her work. Every woman student will be given an opportunity during Nebraska in China week to contribute her share.

DR. E. C. FRANKLIN TO GIVE LECTURE MONDAY

Dr. E. C. Franklin of Leland Stanford Jr. University will speak on "Liquid Ammonia and the Ammonia System of Acids, Bases and Salts," 8 o'clock, Monday evening, April 11, in the main lecture room of Chemistry Hall. The meeting will be under the auspices of the Nebraska section of the American Chemical Association and will be open to the public.

LEROSIGNOL RECEIVES UNIQUE PAMPHLET

Dean LeRossignol of the College of Business Administration, has received a unique pamphlet entitled "A Theory of Competition—Mutualism." Commenting on the flood of war-time and post war pamphlets the author states that there are but two worth considering, each having but a single word for title: "Freedom," the one, and "Mutualism," the other. "Mutualism" is certainly an arresting word, he said, if only because it challenges speculation as to the sense in which it is to be used. A correspondence with the author furnished one more proof of that touch of romance which seems inseparable from the birth of great inventions and large ideas, it states.

Mutualism seems to be a system of politico-economic philosophy which being propounded in this timely era when there is a wide-spread groping for a method of financial reform such as will solve the difficulties of a return to peace. Each nation, it is claimed, is becoming dimly conscious that the necessities of the case call for "an entirely new departure in social reconstruction."

ANOTHER TRYOUT FOR JUNIOR PLAY

Due to the small number of people who tried out Saturday night for the junior play there will be another tryout Thursday night, April 14, in the Dramatic Club room of the Temple. The play committee urges all juniors to register at Student Activities office for these tryouts that the success of the play may be assured.

"The Invader," selected for presentation by the junior class is a story of the New York business world. It tells of a man who could not be whipped either by the untrammelled west or by the keenest business minds of the east.

The type of play offers contrast to the other plays presented by University organizations this year.

HOME ECONOMICS STUDENTS ESTABLISH FOOD CLINIC

Have Fourteen Children Under Observation at Clinton Schools.

The Home Economics department of the Agriculture College established a new food clinic at the Clinton schools at Thirty-second and Holdrege streets where fourteen children are under observation. Prof. Jean J. Stewart of the Home Economics department is in charge of the work.

A survey was made in the Clinton schools and fourteen pupils were found who were at least ten per cent under weight. Dr. Kathrine Wolf aided Professor Stewart in this survey. Professor Stewart states that "The cause for these children not being normal in weight is not that they come from poor homes and suffer mal-nutrition, but they result for the most part to several other causes, chief among which are too much activity, too much candy, too hard work, infected tonsils and adenoids, nervousness and other physical defects."

A special class in dietetics made up of home economics girls from the College of Agriculture visits the clinic every Friday afternoon from 3 until 4, and in charting the development of the pupils and in obtaining and tabulating data which will be of value to the department in the future.

At these Friday afternoon classes talks are given to the pupils to encourage them in the right habits of living. Each of the girls in the class is required to make an illustrated panel showing some phase of a "better health program." A great deal more interest is being shown by the parents in the work at present, but the backers of the clinic would appreciate greater cooperation.

Midday lunches are served to these pupils under the clinic care who are found to need it. Professor Stewart reports the results of these lunches to be very encouraging.

PAUL F. GOOD JUDGES CHAMPIONSHIP DEBATE

Paul F. Good, '13 (Amherst), ex-Law '16, Nebraska Rhodes scholar at Oxford 1914-1917, member of Nebraska team that debated against Minnesota in 1913, now practicing law in Lincoln, was the single judge of the North Platte-Hastings debate Saturday at North Platte, the championship contest in the Western district.

XI PSI PHI WINS ALLEY TOURNEY

Defeats Alpha Sigma Phi in Final Match of Inter-Greek Tourney.

CARR IS CHIEF SCORER

Kappa Delta Phi and Sigma Phi Epsilon Eliminated in Semi-Finals.

Xi Psi Phi defeated Alpha Sigma Phi in the finals in the inter-fraternity bowling tournament yesterday afternoon at the Lincoln Alleys. The Dentists won all three games, giving them a clear title to the championship.

In the semi-finals which were rolled Friday afternoon the Xi Psi Phi pin maulers handed the Kappa Delta Phi quintet the short end of the first two games rolled. The Alpha Sigs won two out of three from the Sig Ep team. The Sig Eps won the first contest by a good margin but the Alpha Sigs came back strong and won the second contest by one pin. The third game went to the Alpha Sig crew by a big score.

Carr for the Xi Psi Phi team was easily the star of the tournament. The anchor man for the Xi Psi Phi quintet had high total of 670 pins for his three games in the finals. Carr is a bowler of some note, securing second place in the City league. Cerney for the Alpha Sigs was second in number of pins with a count of 522.

Following is a box score of the finals:

Xi Psi Phi—	1st	2nd	3rd	Totals
Slama	182	166	169	517
Dennis	173	133	141	447
Layman	150	175	162	487
Warren	148	150	155	453
Carr	244	213	213	670

Totals	897	837	840	2574
Alpha Sigma Phi—1st	2nd	3rd	Totals	
Cerney	168	167	167	502
Berry	148	111	155	414
Stephens	171	145	151	467
Lucas	131	183	137	451
Diers	149	177	146	472
Totals	767	783	776	2326

Agronomy Club.

M. J. Hyland of the Omaha Hay & Feed Co., will speak on the hay proposition to the Agronomy Club in room 302, Dairy building on Tuesday, April 12, at 7:30.

Forensic "Thinkshop" Approached With Quake and Trembling

Just off t 106 in U hall is a little stuffy cubby room in which when one enters is startled by the change of atmosphere. A heavy depressive sensation takes her body by storm, but in this heavy mist caused by the refuse of the intellectual powers one feels a heavy charge of caged electricity which at any moment may flash across the room and is closely followed by a snappy clapp of thunder.

This phenomenal place is the debating seminary of the university which is ruled over by Professor Fogg. Here the material for the debating teams are taken from the rough and turned out into polished, clear and deep thinking speakers and always the result being a winning team for U. of N.

Twenty-one men have turned out for work and probably about this number will try out for places on the team. Tryouts will be held next Tuesday, but the time and the place cannot be announced at this time.

SQUARE AND COMPASS CLUB TO GIVE DANCE

The Square and Compass Club will give a dance at the Scottish Rite Temple, Friday evening, April 15. This club is one of the newer organizations on the campus. It is composed of University students who are Masons. Chairman H. E. Kokjer is planning an attractive party and urges all members to attend. The dance is given so that the members may become better acquainted. Music will be furnished by Beck's orchestra. Tickets are \$1 and may be obtained from H. E. Kokjer, Lloyd Rolfe, Thomas McLeary or George Slater any time this week.

April Angwan Soon To Appear On College Campus

Angwan will soon make its April appearance. The spring number promises to be an excellent one, according to those who have the publication in charge. Angwan, they say, has not received the appreciation from the students at the university that it has received from numerous other colleges over the entire country.

The Nebraska comic has been invited to contribute to several of the largest magazines in the country including Judge, The Independent and the Literary Digest. It has received mention in all of these publications and is fast winning for itself a place among the leaders of college comics.

"Some day the student body will wake from its lethargy and realize that the college comic is one of the most necessary publications on the campus," said one of the members of the staff in an interview Thursday. "The Angwan has had a rapid rise in the estimation of a multitude of other publications and is quoted quite often, not only in its contemporary comics, but in film reviews, trade papers and various other publications."

The serious side of college life too often makes a deep and lasting impression that has not been brightened by the cheery laughter and song of the lighter hearts. The Angwan staff is composed of the most cheerful group of students on the campus and their jollity is given free and unabated expression in the pages of Angwan. It is for the betterment of the student mind, for the brightening of student life and for the benefit of the student body that Angwan is published at the university.
