## FARMERS' FAIR HIGHS SUCCESS

Hundreds Visit Farm Campus and Take in Sights During Day.

**PARADE IS BIG FEATURE**  
Humorous Floats Prominent of Morning Demonstration—Wild West Show in Afternoon.

Hundreds of people crowded the sidewalks on O street yesterday morning when the Farmers' Fair day parade, headed by a twenty-five piece band, stopped transportation for half an hour. In the afternoon and evening, exhibits, shows, eating and dancing were indulged in by thousands of University students and people from Lincoln and the surrounding towns.

The parade was a work of art. It not only depicted what agriculture means to Nebraska as a state, but had humorous floats that brought peals of laughter from the interested onlookers. A complete \$5,000 "still" which supplies the Yellow Dog Saloon did much to bring students to the Farm campus for the day.

A wild west show that outshone Buffalo Bill's aggregation in its palmyest days was the big feature of the afternoon. Side shows, too, attracted the crowds.

The educational end of the fair was given a great deal of consideration this year. Exhibits occupied one entire floor of the plant pathology building. Student-made clothes were exhibited by the home economics department. Model arrangements for kitchens and labor saving devices were shown.

The fancy stock owned by the college was exhibited, including La Verna, the champion cow of the state of Nebraska.

The agronomy department showed samples of many kinds of grains, grain grading machinery, specimens of grasses and grains, weeds, soils, etc.

Dancing, on three floors, contributed a great deal to the enjoyment of the people that attended.

The fair, although hampered by Omaha day, the Kansas-Nebraska track meet, and the "annual" rain, was a distinct success from every standpoint.

## BRYAN TO SPEAK AT ST. PAUL CHURCH TODAY

William Jennings Bryan will speak at St. Paul church, Sunday, May 8, at 4 p. m. on "The Bible and Its Enemies." The invitation to speak was extended by the Federation of Church Workers at the University of Nebraska so that the students might have the opportunity of hearing Mr. Bryan. A year ago, and again last fall, Mr. Bryan addressed the students in the Temple theater which was packed to its capacity, and many were turned away, in spite of the fact that classes were in session at the convocation hour.

## CORNHUSKER BOOK WILL APPEAR ON CAMPUS SOON

University Student Annual Crowded with Interesting Features Sure to Score a Hit This Year.

Bulging with pictures, jokes, cartoons and sketches, the 1921 Cornhusker, a review of the student life of Nebraska University will appear about the third week of this month, providing everything runs along as smoothly as it has in the past month. Five hundred and fifty pages of pictures and reading are devoted to University student life on and about the campus during the past year.

The book is made to conform in shape and size with the regulation standard. It is bound in leather of light grey with an imprint of the Social Science building on the cover which is finished in a green and red combination. The announcing of the dedication will be made the latter part of this week.

The annual is divided into twelve sections each representing a different phase of University activity. The first section contains pictures of University buildings and scenes about the down-town and farm campuses. Several additional pages are devoted to pictures of the University deans and a foreword.

One of the most interesting features of the annual from the standpoint of the student is the section in which the individual pictures are printed of the senior and junior classes. One half of each page is used for group pictures of the students alphabetically arranged with the names, colleges and society affiliations on the opposite half of the page.

The section for athletics is unusually complete. Football heroes, basketball players and track athletes are shown in a bewildering profusion. A review of the football season of the fall of 1920 a continuous procession of basketball victories and the wonderful record in track work is the climax of this department.

Perhaps a larger portion of the masculine half of the student body is concerned in the affairs of the military department than in any other one phase of college work. Each company received a certain number of pages in the book. The pictures of every company with officers will appear.

The so-called "Kollege Klubs" shows group pictures of fraternities, sororities and all the varied clubs and organizations connected with the student.

The section devoted to the school year is a review of the various school activities of the year, including all class activities, such as football, girls' basketball, debating, Ivy day exercises, olympics, dramatics, social activities and politics.

The last section of the book "Student Life" is the one that comes home to the average student. In it are contained hundreds of cartoons, snapshots and sketches of students in their playtimes. In addition, write-ups will accompany the pictures which will point in the true colors many of the bright lights that attend University and play about the campus. It is thoroughly characteristic of student life and represents better than any other part of the annual the real undergraduate life. It is the work of student writers and artists.

## OMAHA DAY PRONOUNCED ENTHUSIASTIC SUCCESS

Tradition of Visiting Metropolis is Re-established at University.

The tradition of Omaha day was re-established Friday when six hundred students traveled to Omaha on a special train to inspect the industries of the state metropolis in which they were particularly interested. An additional two hundred left Lincoln in autos and two adopted an aeroplane as the most unusual method of getting there. The special train left Omaha late Friday night with most of the six hundred it had carried down in the morning.

The morning was spent in visiting the various concerns of interest. The students from each college had particular places to go that would be along the lines they are now studying at the University. Lunch was served by the concerns through which the different groups traveled.

No plans were made for the afternoon, except a general sight-seeing tour which lasted until time for the big dance which was held at the M. E. Smith company's establishment.

## NEBRASKA TRACK TEAM VICTORIOUS

Huskiers Triumph Over Kansas University in Track and Field.

### FILLED WITH INTEREST

Smith Makes 100-Yard Dash in 9 4-5 Seconds—Wright Does Hurdles in 15:1.

The University of Nebraska track team defeated University of Kansas Saturday afternoon in a dual meet on Nebraska field 64 1-3 to 52 2-3. The meet was full of interest and thrills the wet condition of the track and field taking none of the spirit of contest from the events all of which were warmly contested.

In the sprints Smith and Wright carried off the honors. Smith started out by clicking off the century dash in 9 4-5 seconds. He had a strong wind to his back but was running on a slippery track. This betters the varsity record of ten flat.

Smith followed with a victory in the 220-yard dash when he showed his heels to a classy entry of Kansas runners.

Floyd Wright chopped a fifth of a second off his record in the 120-yard high hurdles when he went over the high sticks in 15 1-5 seconds. He also took the low hurdles.

Kretzler ran a pretty race in capturing the two mile run. Carman hurled the javelin better than 145 feet.
