VARRITY READY FOR LONG GRIND

Backfield Material Plentiful. Husker Line Looks Strong. Dawson Optimistic.

Forty-three men turned out for varsity football work yesterday afternoon at the State Farm campus gridiron. Coach Dawson put the men through a varied series of workouts before time was called on account of the downpour of rain early in the evening.

Practice started with a little military work under the direction of Coach Dawson. The men went through some exercises especially designed to loosen up the muscles and develop them for the long grind to come.

Assistant Coach Frank took charge of the backfield men and gave them a long workout on sidestepping, and evading a tackler. "Bill" Day had charge of the line-men and spent most of the afternoon in coaching the men on charging and blocking. Coach Dawson and Captain Swanson gave the ends a stiff workout on sidestepping and forward passing was practiced for some time with good success considering the earliness of the season.

The Huskers look good as far as weight is concerned. The line will average around 185 pounds with the backfield coming in at 165. A number of good men were lost last year by graduation but indications point to their places being very ably filled. Four complete sets of backs went through simple formations last night and a real backfield should greet the Husker supporters a week from Saturday.

Captain G. Murphy has returned from a six weeks vacation in the east most of which he spent with relatives in Pittsburgh. Captain Murphy spent the fore part of the summer as an instructor at Fort Snelling. Mrs. Murphy and son remained in the east, but expect to return to Lincoln soon.

RUMOR KLAN UNIT TO BE FORMED HERE

(Continued from Page One)

COMMITTEE LINCOLN PROVINCE. Chancellor Issue Statement.

Chancellor Avery late Monday afternoon issued an unofficial statement in which he discouraged the organization of a unit at the University of Nebraska. The Nebraska university executive declared that he had made no personal investigation into the workings of the Klan but he was led to believe that such an organization by the students on the University of Nebraska campus would not be beneficial to the institution.

Meet University Rule.

Any effort to organize a unit on the campus will meet the rule passed by the university senate clamping the lid down on societies whose membership is secret.

The following rule was passed by the university senate:

"Section 1. No student of the university shall retain membership in any society, fraternity or organization in the university whose membership is secret, concealed or not made public in the usual way."

"Section 4. Any student convicted of violating any of the provisions of section 1 shall be suspended or expelled from the university. Any conduct on the part of the members of the teaching or official bodies of the university clearly tending to support or encourage students in the violation of that section shall be deemed an impropriety." Passed by a unanimous vote of the university senate April 29, 1909.

OLD MAN AWGWAN WILL SOON BE OUT

(Continued from Page One)

Students who have a great deal of originality and humor or who are able to cartoon unusual ideas of a comical nature will be made members of the comic staff. Membership on the staff will not be given to those who will not devote time and attention to the work or to those who simply do the work "to be on the paper." A place on the Awgwan this year will be an honor comparable to the best in school and no slackers will be forced on the student public with poor stories and weak smiles in the name of jokes.

First Issue Soon.

Awgwan will appear on or about the first day of October. A subscription campaign will accompany the initial issue of the college humorous publication, Sigma Delta Chi, honorary journalistic fraternity and publishers of the Awgwan, have sliced the price of the monthly humorous publication in half. Last year the magazine sold for \$2.00 a year or 25 cents per copy. This year it has taken a drop to \$1.00 for the year or 15 cents per copy, nine issues coming out during the year.

The reason for the drop in price was not the ability of the magazine to sell. It sells itself. But the student body has been looking for a return to normalcy and the Awgwan publishers

decided to initiate this movement in cutting down the cost of student publications and placing the magazine within easy reach of all students at all times.

"The magazine this season will be the best ever put out if the student humorists and cartoonist get busy and do their part in helping the paper hold its high place among the college comics of the country," said Leonard Cowley, editor of Awgwan, Monday afternoon. "We will not publish any semi-humorous trash or rewritten and ancient jokes insofar as these can be avoided. The publication shall be placed on a high plane with oral wit and humor of a high type as the objective."

Students are asked to turn in all

the good jokes they can manufacture before Friday. These should be mailed to Leonard Cowley at Station A or dropped in the Awgwan contribution box in the Nebraska office. Any student who desires to take up work on the publication will be welcomed in the Awgwan office between 3 p. m. and 5 p. m. each day and will be given all the opportunity in the world to make good with Awgwan. Men and women alike are invited to give their efforts, at joke making, to the editor. Applications for positions on the staff may also be made by mail and should be accompanied by a good sized sample contribution together with a statement of former experience. The publication should be addressed to the Editor of Awgwan, Station A.
