AGRONOMY CLUB HOLDS FIRST MEETING OF YEAR

The Agronomy Club held its first meeting of the year in the Dairy Industry building Thursday evening, November 2. Faculty members of the department and students majoring in agronomy were present.

The club discussed tentative plans for the reception of high school students during boy's and girl's club week next spring. Prof. C. C. Minter of the Agricultural Education department, who has been prominent in club work, gave an interesting talk on the viewpoint of boys. Paul Stuart of the Extension department, outlined a tentative plan for carrying on of contests to be held. Prof. T. H. Gording of the Instructional Department of Agronomy, made an inspiring talk on the work the department as a whole must do so.

to hold its own among the other departments of Agricultural college. Other members of the club including Professor Klein made short talks about their views of the undertaking.

The club, which consists of about twenty-five members has a strenuous campaign before it, and with proper spirit should do its full share in putting the college as well as the University before the high school pupils of the state.

Y. M. C. A. ACTIVITIES

The Y. M. C. A. is starting its drive for finance Tuesday of this week. The Y. M. C. A. is felt throughout the school in the activities in which it is engaged.

At the Temple building two large reading and study rooms are maintained for the students alone. In these rooms the students will find at their disposal the leading magazines and papers which are directly connected with their work.

University night, one of the most widely known university events, is directly under the supervision of the Y. M. C. A.

The "N" book is printed each year and distributed among the freshmen, free of charge. This is a handbook of complete information and it contains a full university calendar.

The student directory is published and sold to the students at cost.

The Y. M. also helps toward securing work for the students. It works in co-operation with the university employment bureau in order to help needy students.

At the beginning of each year about 1,000 rooms are listed so that students will have no trouble in finding a room. All trains are also met during registration week and incoming students are assisted in any way possible.

The Y. M. also devotes a good deal to create an incentive among high school students to go to this school. The value of this phase of the work can hardly be overestimated. Last year during the high school basketball tournament pains were taken to make visitors feel at home. A check stand was kept at the Temple so that the visitors would have no trouble in locating their belongings.

Bible Study classes are now being organized so that anyone who wishes to get training along this line may do so.

Wherever the student goes he feels the influence of the Y. M. C. A. An organization of this kind deserves the hearty support of every loyal student and it is hoped that the students will respond when he is given an opportunity to contribute toward its support.

Call THE LOUISIANA RAGADORS for the best music for that dance.
