**DR. A. J. BARNOUW.**

Tonight Dr. A. J. Barnouw of Holland begins a series of addresses to the students and faculty of Nebraska of Nebraska on international questions of importance, and their particular relation to his own country. Faculty men that have been more or less in touch with Dr. Barnouw regard him as a very able man and express the hope that every Nebraskan will have the opportunity to hear him at least once during his stay here.

The International Relations club, which is responsible for Dr. Barnouw being here, is to be congratulated in bringing such an able man before our student body.

**NEXT YEAR'S SCHEDULE.**

Today Director of Athletics F. W. Leuhring, and Coaches Schulte and Frank are in Kansas City framing our football schedule for next year. The football fans are impatiently waiting the results of the conference, and are hoping that the strongest of the Missouri Valley teams may be seen in action at Nebraska next year.

The splendid showing that our football men made this year is one that will long be remembered. The team met some of the fastest aggregations in the country and is recognized as being one of the best football machines in the United States.

Because of our present high standard we should be entitled, again, to games with the strongest football schools in the east. The fact that eastern football experts are naming western men on their mythical all-Americans shows how the dopsters feel in regard to our brand of football.

**THE JUDGING TEAM.**

It is with pride that loyal Huskers note the rapid advance made by the Nebraska school in every field of endeavor. In football we demonstrated quite conclusively what we could do. Our department of advanced geography is recognized as being among the best five in the United States.

The college of agriculture did its bit to raise our present high standard among American universities at the international live stock exposition now being held in Chicago. One thousand one hundred dollars in money and fifty ribbons were awarded our stock which was entered in the competition there. The team sent by the college won sixth place in the judging competition against a field of twenty teams. Last year we won second.

What is the next line in which Nebraska will demonstrate its superiority?

**MORE ATHLETICS.**

Football now history, other sporting events begin to loom big in the future. The basketball team is practicing daily and some splendid material is available for the varsity.

This year every Missouri Valley team is to be seen in action here against our quintet. In the past the school has not been so fortunate as it has this year, and sport enthusiasts are predicting a mighty big year for this activity.

Wrestling also, is attracting more than a passing interest and a call has been made mat team candidates.

**NEW ORGANIZATION.**

A social fraternity is nothing more than the published desire of twenty-five or thirty men to let the world know that they have tied a string

around themselves and formed a living unit.

Nebraska would be benefited by more of these social organizations. They are easy to create, but the good results far outstrip the effort necessary to create them.

To start a social group, it is necessary, of course, to have fifteen or twenty men that are congenial. They must have enough enterprise and faith in their attempts to lease a furnished house, or rent and furnish one. They must choose a leader, and then create a set of laws which will be their guide or working model. Add three Greek letters, and the result is accomplished.

The benefits are manifold. In the first place, there is economy of living, for careful buying for a group will result in a material saving, along every line.

In the second place, there will be educational help and inspiration, for men interested in the same things and the same courses will get a great deal more out of them if the problems confronting them are discussed and settled in groups rather than alone.

In the third place, there will be the intimate friendships formed that will not only mean a great deal during the four college years, but will be present at any time, that is, if it is a trip to the library for study, several will be doing it, if it is a cram session, a partner or two will be available; and if it is a game of cards, or workout in the gym, there will be someone willing to go.

In the fifth place, it will offer an opportunity to many who have not before had the opportunity to practice the superficial, yet highly valuable feats of "society life," a chance to learn along this line, so that when the social occasion arises in latter life—a dance, or formal party, or a similar affair than most successful people will at some time be called upon to attend—the individual will know what to do and be at ease while doing it.

In the sixth place, such a life will furnish a host of amusing incidents of serious things, of true fraternal spirit, and a love different from any other they will ever have, that will mean, in later years, a great deal to them.

Every national social fraternity at Nebraska got its start by doing just what is advocated above. A national can't come here until it has a place to come, and many nationals, recognizing Nebraska as a powerful school in which they would like to locate, are eagerly awaiting the petition of some local group.

**EXHAUST**

When you've worked  
For three days  
At the machine  
And haven't yet  
Gotten a single  
One correct—  
And you go slow  
And take your time  
And hunt and peck  
And then get it  
All wrong—  
And then  
You get sore  
At the world  
And the University  
'n' ever'thing  
And don't give a hang  
Whether school keeps  
Or not—  
And you rush right thru  
A whole letter  
And don't make a single  
Mistake,  
And you start  
To put the initials  
At the bottom  
Like they are  
In the book,  
And you put an E  
Instead of an I—  
Gosh!  
Aint it fierce?  
—oo—oo—  
"DIDJA?"

—P. B. C.

"That's the last straw," remarked the generous one as he gave away his last straw tipped Pall Mall to the co-ed at his side.

**Famous Bands.**

Uni—

—cleer.  
Sousa's—  
—Oline.  
The Isle of —a.  
—box.

We have heard of post season football games, today we learned that Farmhouse has a post season party, a fall party on January seventh.

—X. Y. Z.

Corduroy trousers, "college tweeds," are enjoying another season of popularity.

**Cornhusker Queries**

Q—How many University men enlisted in the war?

A—The service flag bears 2,300 stars, including both students and faculty members.

Q—How long after the first fraternity did the second enter the University?

A—Phi Delta Theta was established in December, 1883 following the establishing of Sigma Chi in January of that year.

Q—Was Lincoln the capitol of Nebraska in 1869.

A—It was made capital only two years before the University was founded.

Q—Is basketball a comparatively new sport in the University?

A—Basketball was introduced at Nebraska in the winter of 1895-96 when Dr. Clark was in charge of the gymnasium. At that time there were seven men on a team and the team played only local organizations.

**University Calendar**

Saturday, December 3.

Alpha Omicron Pi freshman party, chapter house.

Bushnell Guild house party, Saturday, December 3.

Silver Lynx fall party, the Lincoln Franklin club party, 7:30 p. m., art hall.

Delta Delta Delta dinner party, Lin. colnshire.

Catholic students' club dance, K. of C. hall.

Twins club 8 p. m., the Barr home, 1104 D street.

**UNI NOTICES**

**NOTICE.**

Nebraska field has been leased for a game of football between Nebraska Wesleyan university and Wayne Normal Saturday, December 3, at 2 o'clock.

Passes to the university home athletic events do not admit bearers to this game.

Signed: F. W. LUEHRING,  
Director of Athletics.

**Union.**

Open meeting in Union hall, Saturday, Dec. 3 at 8:30 p. m.

**Baptist University Class**

Dean Enberg will address the university class at the First Baptist church, corner of Fourteenth and K, Sunday at 12 o'clock.

**Girl's Cornhusker Party, Dec. 10.**  
The first ten organizations who hand in their names and the name of their stunt to Marjorie Barstow by December 3, will be given parts on the program. Each stunt is limited to three minutes.

**Civil Service Examinations.**

Examinations for the federal civil service will take place in the near future. See the bulletin board, Temple building, for specifications and exact dates. For further information call at the civil service window, postoffice, Professor A. A. Reed, director bureau of professional service urges anyone, at all interested, to look this up.

**Palladian.**

An original farce, "The Corner Drug Store," will be presented by the Palladian pharmacists at the regular open meeting, Friday 8:30 p. m., third floor Temple building.

**Wrestlers! Attention!**

The wrestling class will meet for the first time at 4 p. m. Monday, December 5, in the chapel. (Soldiers memorial hall, room 201.) All candidates for the varsity wrestling team should report at this time or at 4:45 p. m., Monday, December 5. Regular varsity practice will be held from 4:45 p. m. to 6 p. m., Mondays, Wednesdays and Fridays and 4 p. m. to 6 p. m. Tuesdays and Thursdays.

**Menorah.**

An interesting program has been arranged for the Menorah meeting which is to be held Sunday, December 4, 1921 at 8 p. m., at faculty hall, Temple building. All members are urged to attend. Visitors are cordially welcome to be present at this meeting.

**Faculty Men's Dinner Club.**

The dinner, scheduled for Friday, December 2, has been postponed to Saturday, December 3, Grand hotel, 6:30 p. m. Chancellor Avery and Dr. Barnouw will be the speakers of the evening.

**In Years Gone By**

**Nineteen Years Ago Today.**

The football team had their picture taken at Townsend's studio, for the football guide.

Seventeen 'N' sweaters were given to the boys on the football team.

**Eighteen Years Ago Today**

The first public banquet ever tendered a Nebraska football eleven was given this year. The banquet was held at the Lindell hotel, under the direction of the Pan-Hellenic congress. Although this affair was given by fraternity men, Lincoln business men were well represented.

**Eleven Years Ago Today.**

Nebraska defeated Wisconsin and Illinois in the debating contest.

Nebraska's cross-country team won the annual cross-country meet at Omaha.

**Six Years Ago Today.**

Tim Corey was elected captain of the Husker eleven for 1916.

**Three Years Ago Today.**

Major Samuel Avery returned from Washington to resume his duties as chancellor.

**Girl's Basket Ball**

**Slated to Commence**

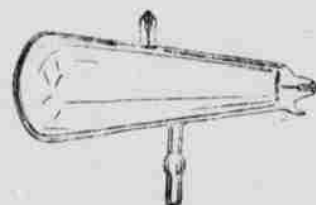

**Before First of Year**

It is yet amonth before the basketball season begins in W. A. A. camp. This sport is by far the most popular in the whole list of sports, no doubt, because few girls can not be found who have not shot baskets some time during their high school days. Even now before gym classes begin, a few old timers, practice hitting the hoop.

This year's seniors were inter-class champions for the last two years, and with Mary Stephens back in the lineup with all the old team members there is no reason why the engraving will not be dittoed on the loving cup again this year.

The Monte Carlo tournament will be played off first, when the players on teams are drawn from a hat. The interclass tournament will follow. Eleanor Snell an all-star player is the basketball leader for this year.

Miro Marek, the young Czecho-Slovak veteran of the world war, will address the Young People's Fortnightly of the Unitarian church, 12th and H streets, Sunday evening. Mr. Marek, who is now a student at the University of Nebraska, will tell of his experiences in the allied armies, in the course of which he won several decorations. The address will follow an informal supper at 7:30, to which all are cordially invited.

Hitroff or Crookes Tube

**How Were X-Rays Discovered?**

SIR James Mackenzie Davidson visited Professor Roentgen, N. Y. out how he discovered the X-rays.

Roentgen had covered a vacuum tube, called a Hitroff or Crookes tube, with black paper so as to cut off all its light. About four yards away was a piece of cardboard coated with a fluorescent compound. He turned on the current in the tube. The cardboard glowed brightly.

Sir James asked him: "What did you think?"

"I didn't think, I investigated," said Roentgen. He wanted to know what made the cardboard glow. Only planned experiments could give the answer. We all know the practical result. Thousands of lives are saved by surgeons who use the X-rays.

Later on, one of the scientists in the Research Laboratory of the General Electric Company became interested in a certain phenomenon sometimes observed in incandescent lamps. Others had observed it, but he, like Roentgen, investigated. The result was the discovery of new laws governing electrical conduction in high vacuum.

Another scientist in the same laboratory saw that on the basis of those new laws he could build a new tube for producing X-rays more effectively. This was the Coolidge X-ray tube which marked the greatest advance in the X-ray art since the original discovery by Roentgen.

Thus, scientific investigation of a strange phenomenon led to the discovery of a new art, and scientific investigation of another strange phenomenon led to the greatest improvement in that art.

It is for such reasons that the Research Laboratories of the General Electric Company are continually investigating, continually exploring the unknown. It is new knowledge that is sought. But practical results follow in an endless stream, and in many unexpected ways.
