THE DAILY NEBRASKAN

VOL. XXI, NO. 68.

LINCOLN, NEBRASKA, THURSDAY, JANUARY 4, 1922.

PRICE FIVE CENTS

JOURNALISM FRAT TO HOLD CONTEST

Pi Delta Epsilon to Conduct Editorial Competition on "Cultural Education."

PRESIDENT HARDING
WILL AWARD TROPHY

All Male Undergraduates in United States and Canada to Be Eligible.

CHICAGO, Ill., Jan. 4.—In order to arouse the active support of every male undergraduate in the United States and Canada of liberal arts courses, and to refute the popular claim that a four-year cultural course is time mis-spent, Pi Delta Epsilon honorary collegiate journalism fraternity, has announced as the subject for its 1921-22 intercollegiate editorial contest, "The Practical Value of a Cultural Education."

Thousands of editorials on this subject are expected, for the contest will, this year, be open to every male undergraduate in every college and university of the United States and Canada. Because great interest in this subject has been manifested of late and because of the fact that Pi Delta Epsilon will award its coveted gold, silver and bronze medals to the prize winners, as well as its certificates of merit to first-prize winners in each college and university represented, an exceptionally large number of entries is expected.

Harding to Make Awards.
President Warren G. Harding, a member of Pi Delta Epsilon, and former editor and present owner of the Marion (Ohio), "Star," will represent the fraternity in the presentation of awards. Three prominent metropolitan newspaper editors will act as final judges.

Nation-wide publicity is given the 1921-22 contest through the Associated Press and other news-gathering mediums, and the prize-winning editorials will be released in mimeographed form simultaneously, to every college, university and daily metropolitan newspaper in this country and Canada, together with photographs of the winners.

Contest Double in Scope.
This year, Pi Delta Epsilon's contest will be double in scope. A local contest will be conducted at every college and university, and each local first prize winner will receive the certificate of merit of the fraternity, and will be eligible to submit his editorial in the national contest. Three prize winners in the national contest will receive the Pi Delta Epsilon medals.

A faculty committee of three men. (Continued on Page Three.)

FRESHMAN HOP WILL BE FRIDAY EVENING

First Year Class to Give Dance at Roseville Party House Tomorrow.

Freshman hop, in a flurry of green decorations and amid the strains of Ackerman's orchestra, will be held Friday evening at 8:30 at the Roseville party house, according to an announcement made Wednesday afternoon. A record crowd of university merry-makers are expected to attend the first year party.

Tickets for the hop went on sale Wednesday evening. Members of the Green Gobblins and the Mystic Fish, freshmen boys' and girls' organizations respectively, are selling the party tickets. The tickets are an even dollar, the war tax being dropped in accordance with federal regulation following the ushering in of the new year.

The hall will be decorated in the freshman colors. A committee of freshmen will be the decorating party. The decorations are to be completed at 1 o'clock. They are Elizabeth Johnson, chairman; Ed. Steinman, Ted Husted, Jane Gooden, Marcia Follmer, Dorothy Paine, Dan Spier, Jane Babcock, Isabel Evans, Mildred Taylor, Paul Strader, Duke Gleason and Charlotte Young.

The freshman hop is the second of the parties to be given this year. The junior class gave their hop before the holidays and had a good crowd in attendance. Freshman parties are noted for their "pep" and a record breaking crowd is expected to attend the dance put on by the first year class.

NEBRASKA GRADS AT OMAHA CONVENTION

Several Nebraska graduates attended the convention of the Nebraska association of reserve officers, which took place December 12 and 13, in the Federal building at Omaha. Over 200 former officers attended the meetings.

The list of University of Nebraska men included former Dean Stout of the engineering college, major engineers, R. C. Fred B. Ryons, '00, major engineers, R. C.; A. L. Burnham, '16, major infantry, R. C.; M. L. Poteet, '16, captain N. N. G.; Professor C. W. Taylor, '98, captain infantry, R. C.; Amos Thomas, '09, colonel infantry, N. N. G.; Anan Raymond, '11, Lt. colonel infantry, N. N. G.; Professor C. J. Frankforter, '08, major C. W. S. R. C.; and Jay P. Hopkins, '95, lieutenant colonel and chief of staff of Eighty-ninth division O. R. Major General Omar Bundy and staff was present at the convention.

COMPANY "I" TEAM WINS RIFLE MATCH

Junior Unit at College of Agriculture Takes Second Place in First Meet of Year.

The Inter-Company rifle match among the university cadets was finished last week. Company "I" was victorious with a score of 2,474. Second place went to the junior unit at the school of agriculture. They turned in a score of 2,457. Company "H" made a score of 2,433 and received third place.

The New Winchester Gallery Rifles were used in this match and the targets were of the "V" type. The full course of sixty shots were fired by each man. Forty of these shots were fired in the kneeling and standing positions. The course was rather difficult because of this, but some excellent records were made.

Some of the high individual scores were as follows:

	Co.	Score
Capt. J. G. Noh	L	271
Capt. D. S. McVickers	I	268
L. V. Smetana	A	267
Lieut. Taylor	H	265
H. W. Smith	G	263
C. R. Jensen	I	162
C. L. Brown	H	261
Lieut. Doherty	D	259
L. L. Ewing	L	258
Capt. N. W. Coats	B	258
M. H. Layton	K	257
A. W. Kendall	H	253
E. W. Hayes	F	237
J. R. Lowell	Ag. School	253
C. G. Lockwood	C	255
V. P. Johnson	K	254
R. H. Dunn	D	253
R. S. Hayes	F	222
B. C. Dukes	K	256
P. D. Weaver	Ag. School	252
G. A. Dunkle	M	252
M. D. Gleason	F	251
E. J. Lake	A	250
T. E. Cable	C	250

Major Erickson expressed himself as being very well satisfied with the work that the men have done so far on the gallery range. The next shooting event on the calendar is to be a match between picked men from the R. O. T. C. and the national guard companies of Lincoln. This will take place some time this month. Later there will be other matches, culminating in the international matches held at Camp Perry, Ohio, and to which the R. O. T. C. units of the country are entitled to send representatives.

ART GALLERY EXHIBIT FOR AG. SOCIETIES

A special exhibition is now on display at the University of Nebraska art gallery on the second floor of the library building. The exhibition is staged at this time particularly for the benefit of the agricultural societies now in session.

On exhibit is a collection of prints for the home. As the name indicates, these prints, which are sent out by the American Federation of Arts are of the sort that would be suitable for any home and while thoroughly good in an artistic way, are quite inexpensive. The exhibiting includes examples of some of the older masters, such as the "Mona Lisa" and Rembrandt's "Old Woman Paring her Nails." Featured also are the works of modern American painters. There are good examples of Innes, Whistler, Alexander, Jules Guerin, Corot and other well known artists.

The exhibition is free, and the public is cordially invited to inspect the paintings between the hours of nine and five.

Students Slow To Start Registering; Dean Urges Early Attention To It

Slowness on the part of University of Nebraska students in starting to register for the second semester following the announcement that registering would start January 3 and end January 11, is beginning to worry the deans. Two days of the first period are already gone and few of the students have yet seen their advisers to fill out schedule and tentative time cards.

A new plan of registering is being put into effect this semester. The new system calls for double registration. Class schedules are ready at the registrar's office and students should consult these for full instructions which were published in the Wednesday edition of the Daily Nebraskan.

The first part of the new system extends from January 3 to 11 during which time the students consult their advisers and make out class and time schedules. Women should consult the dean of women for approval of their schedule and all students should see the deans of their college and leave with him a registration blank and a statement of outside activities.

PARTY TO BE HELD FRIDAY

Armory Will Be The Scene Of Big Fun-Fest Tomorrow Night.

A full house is predicted for the party to be held Friday evening at the University Armory. Plans are going ahead in fine shape and the committee in charge is daily adding more and more details to the already over-loaded program.

Something new—never before tried out at the University of Nebraska—is awaiting those students who attend the party. The committee has been hard at work since long before the Christmas holidays lining up the plans for the big affair and promises to open the secret bag before the entire audience Friday night.

Some of the finest dance music obtainable is in store for the pleasure seekers. Northwell's orchestra will furnish the strains for the one-step and the foxtrots.

Dancing is not the only thing on the program for the Friday entertainment. While the committee has refused to make public its plans, it has hinted that rare treats are in store for the students. The single admission price will be 35 cents.

Due to the story which appeared in the Wednesday issue of the Daily Nebraskan there has been some misunderstanding about who is staging the party. It is not under the direction of the all-University party committee.

DR. EARTH SERIOUSLY ILL AT MAYO'S HOSPITAL

Dr. Lida B. Earhart of the faculty of the teachers college failed to meet her classes this week on account of the serious illness. She has been taken to the Mayo Brothers' hospital at Rochester, Minn., for examination. During her absence her classes are being cared for by the graduate students of the department.

Weather Man Shifts Out Quilt Of Snow On University Campus

With the return of some four thousand students to the University of Nebraska Tuesday morning following eight short days of Christmas celebrating, Old Man Weather started his sifting moving and poured down upon the unsuspecting yet hopeful Cornhuskers a blanket of soft white snow.

Starting late Tuesday afternoon with a rain which continued long into the night, the old man soon shifted his work from the rain barrel to the snow piles and sent down upon the sleeping world an array of snow which lasted far into the morning of Wednesday. By noon Wednesday all of Lincoln including the campus of the University and all scenes of university activities had been visited by the storm and been clothed in a blanket of thick white.

Fraternity freshmen were busy most of Wednesday morning clearing the white flakes from the walks of their respective houses and many of them from the walks of neighboring sorority houses. The director of university grounds and buildings was out early in the morning with his crew and had the walks dedicated to one sweeping before the Cornhusker institution was

fully awake to the state of the weather. A new flurry soon covered up all tracks of the first attack on the slippery flakes and not until afternoon when the downfall ceased could the work be satisfactorily completed.

The visit from the weather man as seen in Lincoln Wednesday is nothing but a sprinkling compared to that which many students saw while home for the holidays. Some students reported snow falls in their home towns ranging from two to eight inches in depth. The scant two inch fall in Lincoln Tuesday night looked like nothing more than a sheet as compared with a thick wool quilt.

The cold snap has been sufficient throughout the entire holiday season, however, to insure good skating for those students who appreciate this best of winter sports. The city of Lincoln has allowed the freezing pool to freeze over and thereby provided a good skating pond. At Electric park, southwest of the city, is a larger pool which is well patronized. Both of these skating ponds will undoubtedly see many university students so long as Old Man Weather is so kind as to keep the ice thick enough for safety.

MUSIC BY WIRELESS FEATURES "AG. WEEK"

Daily Concerts Sent Thru Either to Auditorium on the Farm Campus

One of the features of "Organized Agriculture" week have been the wireless concerts to which the visitors have been treated. Daily from 12:30 to 1:30 the auditorium of the agricultural engineering building has been filled with music radiated through the ether from the city campus.

The agriculturists have been very much interested in the concerts and were especially enthusiastic about the grain and livestock market reports which are received. The latest news items, together with market reports are sent out from the E. E. building every morning by wireless telephone and many of the visitors indicated that they desired to secure apparatus and receive these reports.

The music is sent out from the station on the city campus and is received at the agricultural college on a set built by senior students in the radio class.

PROF. SMITH IS PRAISED BY NEW YORK MUSICIANS

It will interest university students to hear of the brilliant success of Prof. Herbert Schmidt, a member of the faculty of the university school of music. Mr. Schmidt appeared in piano recital in New York and Boston during the holidays. In New York he was one of five to make debuts during the week, and he received from New York people and publications the most favorable comments of any. His work was brilliant and his audiences were charmed. A brilliant future is predicted for this Nebraska man.

BULLETIN DESCRIBES VARIOUS SHORT COURSES

The new winter short course bulletin issued by the agricultural college of the University of Nebraska describes a large number of interesting and practical courses in agriculture open to farmers this winter.

The animal husbandry department will teach the importance of better livestock on Nebraska farms. The college owns a large number of the finest pure bred animals which will be used in the judging classes.

Other lines of instruction mentioned in the bulletin are: Dairying in Nebraska, Production of Farm Crops, Plant and Animal Diseases, Fruit Growing, Poultry Management and Farm Accounting and Organization.

The short course according to the bulletin is four weeks in length, beginning January 23, 1922.

PLAN STUNTS FOR UNIVERSITY NIGHT

Annual Fun-Fest And Appearance of "Shun" Is Looked For By Students.

University night, the annual stunt night of the year is to be with us again on February 18. Already students are clamoring for the "dope" which will be given on that night, "dope" which gives an idea of what is going on at our school.

University night has been a tradition with Nebraska students since 1912, at which time it was started by the University Y. M. C. A. Each year the Y. M. C. A. has fostered it until today University night is one of the big events of our college career. Each year the annual stunt night gives to outgoing students impressions and memories which will last a lifetime. It is one of the big drawing cards of our school.

Very often it has happened that a student has progressed as far as his junior or senior year before having an opportunity to feast his eyes on the skits that are the product of long hours of effort by some of our most gifted students. Then there is a waiting and a gnashing of teeth as he realizes what has gone before him and what he has missed. This upperclassman then becomes a missionary to the younger set in school viz: the freshman. He pleads with the freshman to make a supreme effort to purchase a ticket and when this is accomplished he is satisfied. The freshman goes, and to him is revealed a new understanding. Some of the dark happenings and secrets are brought out, he reads the Shun with horror as it tells of his doings of our students and faculty. Then a new light appears. He resolves that never again shall the wool be pulled over his eyes. The following year he goes again and finds that he has been bamboozled once more. So we find each year that as our school progresses, scandal and notoriety flourish.

This year University night is under the direction of J. Wilbur Wolf. The committee is made up of students who have served on committees for several years previous to this and it is predicted that this event will be superior to any University night held yet.

Organizations who are desirous of having a skit are asked to have their blueprints in by January 15. After that date nothing will be accepted. The committee is passing on the blueprints and determining which will be put on for the event. This makes it possible, by elimination, to have only the best talent in school represented. The Lincoln high school auditorium has been secured for the program. The committee is not sure yet whether or not it will be possible to have the program two nights, but announces that it will know in a few days.

Only a few days are left yet to submit the blueprints and the committee is particularly anxious that the organizations who have not handed in their blueprints to get busy at once and get them in before the final date, January 15. J. Wilbur Wolf also announces that prizes will be given to the organization who has the best blueprint in by January 15. Originality and cleverness will be a big drawing card.

HOME COMING PLANS ARE BEING MADE FOR SPRING

The student committee on alumni week has been completed, seventy-eight having reported to the alumni headquarters offering their assistance in helping to make the spring homecoming plan a success.

The first meeting of this committee will be held some time after the examinations, the exact date not as yet having been set.

NEBRASKA DROPS INITIAL CONTEST

Scarlet and Cream Quintet Lose Opening Game to Badgers At Madison Wednesday.

FIRST PERIOD ENDS
WITH HONORS EVEN

Wisconsin Wins Hard Fought Game by a 27 to 14 Score. Washington HereW Sat.

(Special to the Daily Nebraskan.)

MADISON, Wis., Jan. 3.—The Wisconsin Badgers defeated the Nebraska basketball team here this evening by a 27 to 14 count. The basket shooting of the Badgers excelled that of the Huskers and general all around playing was superior. The Nebraska athletes put up a hard fight but the guarding of the Maxwell men held their score down.

Losing last night's contest the Huskers will arrive in Lincoln some time Friday morning and will take a good workout in preparation for the Washington Pikers, who play here Saturday evening. The St. Louis quintet is playing its first contest of the season and are rated this year as having one of the fastest aggregations in the conference.

The Washington quintet finished in the cellar in the conference race last season but the entire basketball coaching staff and team have been revamped and are expected to come through with a fast bunch of hoop artists. The Nebraska quintet will play in St. Louis later in the season. What will be one of the best games of the season will be played here next week when Missouri, valley champions of last season, will invade Lincoln.

The Varsity will probably mix with Coach John Pickett's yearling quintet in a workout tomorrow afternoon and will continue with signal practice and floor work. Last night's contest gave Coach Frank a chance to see the weak points in the 1922 combination. Coach Pickett has been dealing out the work in large sized doses to the Freshmen and the first year men have developed a couple of teams that will give the Varsity a stiff battle.

TO ANNOUNCE TIME FOR GROUP PHOTOS

Organizations Must Report at Studio at Appointed Time for Pictures for Annual.

All campus organizations at the University of Nebraska will be notified by the end of next week exactly what time they are to appear at Townsend's studio to have their group photographs taken for the 1922 Cornhusker. Alva C. Townsend has been made official photographer for the new "Everybody's Annual," which assures students of the best and most painstaking work.

Organizations must appear at the studio at the exact time they are notified to appear, in order that all group pictures may be taken within the limit. It is imperative that the president of each organization make a memorandum of the hour at which the group's picture is to be taken.

It has been announced by the Townsend studio that all organization pictures and group photographs for the 1922 book will be placed on a uniform background. This will carry out a uniform color scheme throughout the annual and will improve to a great extent the appearance of each page.

Workers have already started to make "Everybody's Cornhusker" the best product that student brains and ingenuity can manufacture. Suggestions and "copy" are coming in from many students who desire to help make the new book a complete success.

MUSIC PROFESSORS ATTEND CONFERENCE

Prof. Sidney Silber, Prof. Carl Steckelberg, and Prof. Adrain Newens of the school of music attended the national music teachers' association in Detroit during the past week. The association was attended by music instructors from all over the United States. Prof. Steckelberg read a very interesting paper before the violin section.
