FRANK O. LOWDEN SPEAKS TO AGRICULTURAL GROUP
 Frank O. Lowden, former governor of Illinois, who was one of the chief speakers at the organized agriculture meetings at the Ag. college Thursday, was a guest at the Beta Theta Pi house while in the city. Ex-Governor Lowden is a Beta from the University of Iowa where he graduated in 1885. He was one of the candidates for the republican nomination for president in the last elections.

F. W. CHASE ADDRESSES CROP GROWERS' ASS'N.

Pawnee City Man Tells of Travel Over United States, Mexico and Canada.

The 1922 meeting of the Nebraska Crop Growers' association was called at 10:00 o'clock at the college of agriculture campus by President B. C. Drinley. After a few introductory remarks, Mr. F. W. Chase of Pawnee City was introduced to the assembly. Mr. Chase is a retired farmer, having been actively engaged in farming near Pawnee City for many years.

Mr. Chase spoke on "Nebraska's Agricultural Prospects as Compared to Other States." Within the last two years, Mr. and Mrs. Chase has traveled through thirty-six states, parts of Mexico and Canada, covering altogether, more than 17,000 miles on the trip, so a general outline of the tour was given, touching only upon the more important parts. The talk was made more directly to the younger men who are or will be seeking opportunities in the agricultural communities of Nebraska or various other states. He advised those who contemplate taking trips into other states to go on their own initiative, rather than with any land company. In this manner they would be able to see more, to go where they desired, and to talk to those familiar with the conditions in that particular section.

In conclusion, Mr. Chase stated that the "Garden Spot of the World" was contented, but that there were more financially successful retired farmers in eastern Nebraska and adjacent territory than in any other agricultural section of the United States.

SHEPHERDS LISTEN TO TALK ON LAMBING OUT

About sixty shepherds listened to the interesting talk on "Lambing Out Western Ewes," given by Mr. W. M. Ross, a practical sheepman of Gibbon, Nebr., at the organized agriculture meeting.

From his actual experience Mr. Ross advised his listeners to obtain ewes with good strong constitutions and plenty of vigor. If possible, they should be purchased by September 1, in order to complete the breeding by the middle of October. The ewes should have some good fourth cutting alfalfa hay and some corn before and after lambing. During the lambing period a day and night man should be kept to insure safety. The lambs should be marketed by the first of June. Mr. Ross recommended feeding oats and bran in a creep to the young lambs, gradually working them on to cracked corn and alfalfa. He also recommended that the lambs should be docked at the age of one to two weeks and that it was very practical to market the lambs and ewes together as there would be less shrinkage in the lambs.

WESLEYAN QUINTET COMING INTO FORM

Cage Artists Getting Ready for Western Trip to Meet Grand Island, Hastings and Kearney.

Coach Mac is working his squad every day now and the next week will see a winning team start on the western trip. Grand Island, Hastings and Kearney will be taken into camp on this trip beginning the 11th of January, and will serve as appetizers for the Wesleyan cagsters in the early home games.

Five men of former varsity squads are on the floor and all look good. Capt. Rogge is fast hitting the old stride and promises to lead the yellow and brown to a victorious season. Ex-Capt. Hniman, Harrell, Hare, Andrews, all show good form and serve as a nucleus for a strong squad for 1922.

The schedule this year embraces some big games and also has a strong sprinkling of conference contests mixed in. All the Coyotes need to insure a big season in the basketball sport is unlimited student support. Visit the gym and pick your favorites for the coming season.

TO GIVE CLOTHING COURSE NEXT TERM

Juniors and seniors! Have you heard of the new clothing course to be offered next semester for those especially interested in artistic dress? This is an opportunity to study types of individuals and the designs and colorings which suit different types and years. The girls will study designing and have practice in planning and making high class costumes for themselves and other people in a laboratory managed like an up-to-date shop.

Miss Morton will give the lecture work and Miss Haslam will have charge of the laboratory. All those who have had home economics 7, 8, and 17, or its equivalent are eligible. The hours will be arranged to suit the majority, altho from 9 to 12 Tuesdays will probably be the most satisfactory time.
