HOW MANY VETS WILL TAKE CASH

CONGRESS IS WONDERING WHAT PERCENTAGE NEED THE CASH BONUS

Polls in Various States Vary—Legion Referendum in Nebraska to Include This

What percentage of ex-soldiers will choose cash in the event compensation passes congress? That question is troubling legislators at Washington. Results of referendum votes conducted by the American Legion in widely separated localities indicate that the choice of the five provisions of the bill would largely depend on the varying geographical and economic conditions existing in the different sections of the country.

More than 8 per cent of 5,000 Pennsylvania veterans chose paid up insurance in a recent poll. On the other hand, two-thirds of the 6,105 Iowa ex-soldiers that voted chose to receive cash. This fact has been attributed to the hardships accruing from agricultural depression there.

In preparing an estimate for the house ways and means committee, fiscal officers of the army, navy and marine corps worked on the basis that 50 per cent of army men and 75 per

cent of navy men would elect cash settlement. On this division the cost of compensation was put at \$2,500,000,000. Legion officials took issue with the navy and marine corps heads on the 75 per cent estimate.

The referendum of all ex-service men being undertaken in this state by the Legion will show conclusively what number of the Cornhusker ex-service men will take the cash feature of the adjusted compensation.

"Enjoin on them the habits of industry. Teach them to abhor idleness and the accompanying vices—such as gambling and the like.

"Urge them to cease the use of ardent spirits, for intemperance is their greatest enemy.

"Encourage the young to go to school. And let all fear God and obey his commandments.

"A great responsibility rests on you and the other chiefs, and I ardently hope that you may all be found equal to any emergency which may arise in your country and among your people.

"I cannot impress too strongly on you the necessity of at all times conducting yourself properly. Your example should be such as to inspire your people with confidence. Much depends on this. I confidently hope that you will appreciate the great responsibility that rests on you; and set an example of temperance, patience and kindness before your people.

"I will often think of you when you are far away, and shall be anxious to hear some news from your country, hoping that it may always be good. Your friend.
