

University "Speed Demon" Has Remedy For Girls Late To Classes

An article appeared in the Nebraskan recently remarking about the number of people who are late to their eight o'clocks. Now is the time of year when it is hardest for the girls to make their early classes on time. The parties and meetings keep them out so late that they just can't force themselves to get up any earlier than is necessary.

This state of affairs offers an opportunity to the men who are fortunate enough to own cars to make themselves everlastingly popular with any fair co-eds they care to. When a girl is making a dash down R street in nothing flat she will appreciate a ride more than an invitation to a party. After helping a girl out two or three times a man ought to be in a position where she would be his willing slave for life.

The aforesaid men should make a

practice of driving past sorority houses at just the psychological moment. They might even make two trips if they drove fast enough and did not fall into the hands of Gross.

But they should be aware of getting involved too deeply. One man ran up to his sweetie's place of residence the other day and had a rather exciting experience. He got her into his car and was just starting away. Out of the house came about fourteen girls and they all asked him to take them down to school. What could he do? If he refused his girl would think that he was a cheap skate and so he had to consent.

He piled them in his old wreck and started, and ended his somewhat crowded voyage in front of "cootie hall". There they all left him and he took stock of the damage to his flier and his pocketbook. There was a broken spring, torn upholstery, and various articles of feminine paraphernalia strewn around the car. Moral: Don't attempt to do too much at one time.

UNIVERSITY MEN PLAY ON PACIFIC COAST SHIP

The Jazzbandits—"breaking up everywhere"—is an orchestra that has taken the contract to play as the Keystone States dance orchestra. The Keystone state a United States liner will leave Washington March 31 for Japan. The orchestra was organized by Edward Simpkins, Fairbury, Neb., and is to be composed entirely of men from the University of Nebraska. The ship will go from Washington to Manila where it stops for six days, from there they go to Hong Kong, China, and remain there only two days. Next they go to Shanghai and from there to Kato and other ports. The trip will take a little over two months and the object of which is to make money for the boys as well as a pleasure trip. Following is a list of the lucky fellows who will make the trip. Edward Simpkins, Fairbury, Neb., manager and the banjo player; Jack Marshall, Tilden, Neb., drums; Jap O'Bannon, Holdrege, violin; D. Harvey, Newman Grove, Neb., piano; Curtis Plass, Madison, Neb., trombone; and N. Nicholas, Stanton, Neb., saxophone and clarinet. The name of the orchestra may be changed. This is the second orchestra from the university to journey to other lands.

ESSAY CONTEST IS PROMOTED BY POST

ELGIN LEGIONNAIRES PLAN TO INTEREST CHILDREN IN AMERICANISM

School Whose Pupil Presents Best Paper Will Be Given Large National Flag By Legion

Elgin, Neb., (Bennett, P. O.)—Elgin Post No. 229, is in the throes of an essay contest among children of the schools within its zone of influence. Recently the following letter was sent to teachers of seventeen schools:

"Elgin Post of the American Legion will carry on an essay contest among the schools in and surrounding Elgin.

"In general the plan is this: Pupils will submit essays to their teachers of not less than 200 words, on the flag, its history, its significance and the honor due it. The essay judged the best by the teacher will be forwarded to the Americanization committee of Elgin post. A disinterested board of judges will pass upon the best essays received.

"The post will present to the school whose pupil submits the best essay, a large national flag; to the pupil, not of the winning school, whose essay is adjudged next best, a copy of Washington Irving's "Life of Washington"; to the writer of the third best essay a season ticket to next years Lyceum course and to every school entering the contest a citation printed artistically and suitable for framing, on which will be inscribed the names of the pupils submitting essays with the worth of their essays indicated.

"A pupil's age will be taken into consideration in judging the essays.

"C. A. Mohrman, county superintendent heartily endorses the plan and urges every teacher to push it in her school.

"Representatives of the post will visit your school to give you and your pupils details of the contest and tell you something of the aims of the Legion."

These letters were followed within a day or two by a team of two Legionnaires, an experienced speaker and a

student speaker who gave short talks on Americanism after outlining contest rules. The idea of the student speaker is to educate all our men to talk on their feet before a public.

The kids have fallen hard for the plan and some good essays are coming in.

The contest will have its windup in a celebration of Washington's birthday in which the children will take part and where a good Legion speaker will give an address.

SECOND YEAR GIRLS ARE GUESTS OF MORTARBOARD

Mortarboard will entertain for all sophomore girls at a party Saturday afternoon from 3 to 5 at Ellen Smith hall. A program has been prepared and there will be music for dancing. Novel refreshments will be served.

Every sophomore girls in the university is invited. The Mortarboards are making a special effort to make the party unusually attractive and to give the girls the opportunity to meet those of their own class. This is one of a series of parties given by the senior girls honorary organization for the girls of the different classes.

AMES DUAL INDOOR MEET IS SATURDAY

The outlook for the Nebraska track team for the Ames indoor dual meet Saturday is far from promising. In completing the task of rounding out the Husker track team for the Ames meet, Coach Schulte has been hampered by bad weather, ineligibility on the part of some track stars, injuries on the part of others, and failure of men to yet out. On the Saturday following the Ames meet, Feb. 25, the Huskers will take part in the K. C. A. C. indoor meet.

Allen, Omaha medic, a star miler, and one of the mainstays of the track team, has injured his leg and will be out for some time. Kinglear, another medic, a promising hurdler, is also on the injured list. Four track letter men are on the ineligible list and will not be able to compete in the meet with the Ames team.

The final tryouts for the broad jumpers who will make the trip to Ames will be held this afternoon. Layton, Hatch, and Gish will take part in the broad jump tryouts. The half mile tryouts will be held within the next two days.

Freshman Meet.
Missouri has challenged Nebraska to a dual freshman telegraphic meet. Nebraska has accepted and results will be exchanged by each team every Saturday. Coach Schulte received a wire from Bob Simpson, Missouri coach, Sunday, telling the first results. Coach Schulte has been unable to do anything as yet due to the lack of candidates.

All Nebraska freshmen are urged to come out at once. In order to get the Husker yearling competition started this week the first year men must begin performing this afternoon as Coach Schulte will leave for the Ames dual meet Friday noon. Nebraska's freshman records must be completed by Thursday evening.

Competition will be conducted in the following events: Fifty yard dash, fifty yard low hurdles, 50 yard high hurdles, quarter mile, 500 yards, 1,000 yards, pole vault, shot put, and high jump. The results received from Missouri Sunday indicate that the Tiger freshmen have an exceptionally strong team.

OPPOSE GUN MEN

The central labor body of Charleston, has appealed to congress against the brutality of coal owners' gun men in West Virginia. The unionists charge that Sheriff Clafin of Logan county is using his position and the other county machinery to persecute miners, and that he is being aided by Governor Morgan, who has assigned state cossacks for this work. The cossacks are making wholesale arrests for imaginary offenses and Clafin, it is stated, issues warrants without regard to facts, while men are railroaded to jail without preliminary hearings.

Life's Uncertainties.
People who think they know it all usually discover their mistake when they bet on football and elections.

DIRECT WOLF HUNT FROM AN AIRPLANE

THREE LEGION POSTS PLAN THE LARGEST COYOTE CHASE IN NEBRASKA

Legionnaires From Beaver City, Oxford and Stamford Will Throw Lines Around 140 Sections

Beaver City, Neb., (L. N. Merwin, P. O.)—The American Legion posts of Beaver City, Oxford and Stamford are putting on a wolf hunt next Monday that will cover 140 sections and is possibly the largest ever staged in the state. The corners of the ground to be covered are the corners of Edison, Oxford, Stamford and Beaver City. The hunt will be directed from an airplane by J. Hodgins Smith, pilot of a local aviation company. This is said to be the first hunt ever directed from an airship. Captains for all sections of the lines have been chosen and Pilot Smith will fly around the lines and drop messages to the captains notifying them of any weakness in the lines so that no coyotes may escape. He will also signal the hunters with colored flags in regard to their movements. The hunt has been widely advertised and it is expected that virtually the whole county will turn out as most of the business houses will close. Wolves and rabbits slain will be sold for the benefit of the Legion posts putting on the hunt.

FRESHMEN HEAR TALK ON FINANCIAL CRISIS

(Continued From Page One.)
the courage to pass it outright because it will mean higher taxes which people do not often approve.

"I believe we should vote for higher taxes if they are necessary to pay the bonus," said Professor Virtue.

Professor Virtue said that the foreign countries are badly in debt and are constantly going in deeper. He said that this debt problem coupled with taxation is one of the most serious problems facing the world today. He submitted the following figures showing the indebtedness of several European countries and the United States both prior to the war and in 1920:

| | |
|--------------|-----------------|
| France, 1913 | \$6,300,000,000 |
| France, 1920 | 46,000,000,000 |

| | |
|---------------------|----------------|
| Austria, 1913 | 2,000,000,000 |
| Austria, 1920 | 17,000,000,000 |
| Germany, 1913 | 11,000,000,000 |
| Germany, 1920 | 55,000,000,000 |
| Italy, 1913 | 3,000,000,000 |
| Italy, 1920 | 18,000,000,000 |
| United States, 1913 | 1,000,000,000 |
| United States, 1920 | 24,000,000,000 |

None of these governments have yet been able to pay the interest on their debts and they now owe the United States in the aggregate more than \$1,000,000,000 dollars defaulted interest. As long as they cannot pay the interest they cannot of course create a sinking fund to retire the principle.

The remedies are all only speculative. It is clear however that each country must decrease its expenditures especially for military purposes. The national incomes must be increased, but there is a danger that taxes will be raised higher than the people can stand and thus revolution and social unrest will be fostered. Another proposed solution lies in cancellation of the inter-allied indebtedness. Professor Virtue said that the university debaters would discuss this question this year and he recommended that the freshmen follow the debaters' discussions.

DR. DEMMING SPEAKS TO FROSH ENGINEERS

(Continued from page 1.)
"Engineering is the adoption of material substance to serve human needs," said Dr. Demming. Chemistry and physics deal with the properties of matter in its relation to energy. Engineering is based on chemistry and physics.

A student wishing to become a chemical engineer should prepare along the following lines—learn about strength of materials and understand how to handle and work with men, he should also take post graduate work in a school that combines practical experience with technical knowledge.

FOOTBALL MEN
Coach Dawson desires all football men to report for instruction in boxing as often as possible. Regular classes will be conducted at the Armory daily from 3:30 to 5:30, and football men will be able to take this without interfering with their work in other athletic squads. Coach Dawson will be assisted by Coaches Day and Young.
