

Other Worlds Than Our Own.

Mines Experimental building is being moved back 86 feet toward the School of Mines because of the re-routing of the Northern Pacific Railway tracks. The contract price will be reduced \$84,000 because of this change. Contracts for the new library building will be let in the near future.

University of Michigan—Mimes, the Union honorary dramatic organization, was recently host for the evening to visiting athletic teams from the University of Chicago and the University of Wisconsin, at a banquet. The spirit of friendly competition was the keynote of the evening, fostered by speeches of the coaches and entertainment by campus musicians.

gigantic jump on Muir knoll in per-
fect condition, the slide which is
one of the best in the United States,
was used last Saturday for the first
time since its erection two years ago.
To add height and distance to the
jump made, the end of the take-off
was extended an additional 10 feet.
This made possible jumps of over 110
feet. Snow was imported for the meet.

Columbia University—Failure of
men available for crew to report for
practice is causing one of the most
serious athletic problems that Col-
umbia has faced in recent years.

Grinnell College—Plans are being
made by the class in dramatic pro-
duction to present a series of six
plays on Monday evening beginning
March 6. The plays nearly all of
which have been written by members
of the class are short and will take
but one hour for presentation.

University of California—The number
of flu patients at California is in-
creasing hourly. All University
dances and unnecessary gatherings
have been suspended. However, it
is not thought that it will be neces-
sary to have classes dismissed.

Willamette University—Registration
has been limited to 200 co-eds and
200 men here because of lack of fa-
cilities to care for more.

University of Iowa—Dean Robert E.
Rienow is of the belief that the an-
tics of frat pledges during probation
week practised at the instigation of
their big brothers does not meet the
approval of the University adminis-
tration and the consequences of stu-
dent opinion. Most of the stunts are
decidedly undignified and many are
quite dangerous.
