VOL. XXI, No. 104.

LINCOLN, NEBRASKA, FRIDAY, MARCH 3, 1922.

PRICE FIVE CENTS

## FINAL GAME OF SEASON TONIGHT

Nebraska Meets Kansas Aggies in Last Contest on Home Floor Tonight.

## TEAM IN GOOD SHAPE FOR GAME WITH AGGIES

Missouri and Kansas Clash in Post-Season Contest for Championship at Kansas City.

Nebraska's basket-tossers will wind up the home cage season tonight when they battle with the Kansas Aggies on the state fair coliseum floor. Coach Owen Frank put his cage men through a final practice yesterday afternoon, and the Huskers are in fine shape for the contest with the Farmers. The Aggie school flippers are planning on revenge for their defeat at the hands of the Huskers two weeks ago, when the Huskers won by a one-point margin, the winning points dropping through the hoop after the final whistle blew.

The Scarlet and Cream cagesters will probably present the same lineup as that which faced the Drake Bulldogs Tuesday night, but they are expected to put up a much better game than they did Tuesday night when the Husker cage artists were badly off-form. Captain Austin Smith and Carmen will be at the forward positions. "Slim" Warren will hold down the pivot position, and Riddleberger and Russell will play the guard positions.

The Cornhusker team has won seven games this season so far, and lost the same number of contests, giving them a percentage of .500. The Huskers have been badly handicapped because of the fact that their captain, Austin Smith has been unable to practice with them because of his studies being at the Omaha medical school.

The announcement that the Missouri and the Kansas U. quintets will meet in Kansas City in a six-season contest for the championship of the Valley conference has caused a great deal of comment in cage circles in the valley. Both of these teams have suffered but one defeat, which was handed to each by the other. These two quintets are both of excellent quality, and a hard-fought battle is promised when they meet in Kansas City.

## MILITARY DEPARTMENT TO BREAK INTO MOVIES

Dr. Condra to Take Four or Five Reels of Nebraska Unit of R. O. T. C.

The military department expects to break into the movies next! All the state will see their greatness shining forth from the nickel show as the companies march and counter-march, charge dummies with fixed bayonets and go through all sorts of martial exercises.

Prof. G. E. Condra, head of the geologists, has brought up the plan and is going to expend five or six reels in the endeavor to take some pictures which he can show throughout the schools of the state in his extension service work. Each company will send a detachment of men for some department of the work, composed of picked men. Besides this, several reels are to be shot on "compet" day, showing the reviews, inspections, movements, and everything else. The lucky men who get to be members of the detachments will have to try hard for the place and try still harder to keep up the pace which will be set for them to get into top condition for the event.

University of Colorado—As a result of the cooperation between a committee from the Boosters' club and Sigma Delta Chi the latter has asked men prominent in newspaper work and advertising, to address members of the high school publications staffs at the conference arranged by the Boosters' club to take place simultaneously with the basketball tourney, March 9, 10 and 11.

## KOSMET PLAY TRYOUTS TO BE HELD SATURDAY

For the benefit of those people who were unable to be present either Tuesday or Wednesday evenings to try out for Kosmet club, an additional hour has been set in order that everyone may have an equal chance to show their talent. Saturday afternoon from four until five o'clock, in the basement of teachers college, the committee in charge of try outs will meet all people who wish to try for Kosmet. It will not be necessary to sign up for these try-outs.

## NEBRASKER GLEE CLUB IS NEW ORGANIZATION

Tryouts for New Club will be Held Wednesday Night. Place Announced Sunday

A new organization was born on the campus yesterday and is under the name of the Cornhusker Glee Club. A number of loyal Nebraskans interested in seeing Nebraska have a glee club gathered together in the Alumni office of the University and drew up a constitution for the new organization.

Harold F. Holtz, alumni secretary, is one of the men back of the Cornhusker Glee club and he feels that the University is in need of some singing and this is one of the best ways of obtaining it. The organization is open to everyone but a limited number will be accepted after the tryouts are completed.

The tryouts are to be held Wednesday night, the place will be announced in the Sunday Daily Nebraskan. Every Cornhusker who has any ability in the vocal line is especially requested to make an attempt to be a member of this organization. The real purpose of the Cornhusker Glee club is to stimulate singing in the University since the spirit of a college or university is exemplified in this manner.

Parwin Whitte, Director

In securing Parwin Whitte as the director for the Glee Club, the University has been extremely fortunate in getting a man with an international reputation. Mr. Whitte was the director of the Ohio Wesleyan Glee club last year where he attained a nationwide reputation as a director. Mr. Whitte's club was one of the glee clubs chosen to go to the Panama Canal, which is considered one of the greatest honors that can be received by any musical organization in this country.

Following is a copy of the Constitution adopted by the club:

The Cornhusker Glee Club Constitution.

The name of this club shall be the Cornhusker Glee club.

The purpose of the organization shall be the stimulating of singing at the University of Nebraska, because college spirit is exemplified by college singing.

Officers of the club shall be: President, secretary-treasurer, leader.

Duties of the president shall be those of executive head acting under the advice of the director.

Duties of the secretary-treasurer shall be those of business management.

Duties of the leader shall be such as may be indicated by the director.

The director shall be approved by the chancellor of the university and subject to recall by him only.

He shall have complete authority over the direction of the club and its internal organization.

Membership shall be by competitive tryout before competent judges to be indicated by the director. Membership shall be limited as specified in the by-laws.

This constitution may be amended by a two-thirds majority of the enrolled membership, the amendment having been submitted in writing one week prior to the date on which the vote is to be taken, copy of the amendment having been filed with the chairman of the committee on student organizations.

Adopted in a meeting at the alumni office March 2, 1922.

## High School Cagesters To Judge The University At Tournament Next Week

For three days next week, the University of Nebraska is to be subjected to a careful examination at the hands of some 2,000 Nebraska high school basketball players who will invade Lincoln for the annual cage classic on Thursday, Friday and Saturday. Every player is a possible future student of the University and the actions of the present student body toward them will do much toward determining whether they will enter the University of Nebraska, some other college or university, or not go to any school of higher education whatever.

The annual high school basketball tournament is one of the best advertising mediums which could ever be devised to bring future college men into close contact with the university. The University of Nebraska is proud of its school and it is proud of every record for which it stands, and every student at Nebraska knows well that no Nebraska boy or girl would make a mistake by enrolling here. Yet how important each individual's part is in the "university play of life" in determining whether next year and the following part of the university students, will give them a favorable impression of the University and will serve to carry into every part of the state the fact

that the University is deserving of the support of every citizen of Nebraska. years, the Cornhusker institution will or will not have these boys for their students.

From every corner of the state these followers of the cage sport will come. Battling their hardest to take glory home to their towns and their high schools, these boys are going to spend a good share of their time investigating Lincoln and the University of Nebraska. The impression which they get during their three-day visit will largely determine their future course along educational lines.

Students should bear in mind constantly that these boys represent every kind of person living in the state of Nebraska. Sons of farmers, merchants, bankers, ministers, doctors, and lawyers, will take part in the tournament. Many have not had the advantages of training which the students in the University have had. Few of the schools have had any particularly envious basketball training and when they get out on the floor to fight their hardest to win, their brand of basketball may not be the best. But no matter, they are future students of Nebraska and the present students must act toward them as they would wish others to act if they were in the same position as these boys.

Good treatment of the boys on the

## ALPHA KAPPA PSI TO HAVE NEW HANDBOOK

Dean LeRossignol is Contributing One Chapter to New Book—California Man Editor.

Under the editorship of Professor Ralph L. Power, of the University of Southern California, a new handbook of Alpha Kappa Psi—national commerce fraternity—will soon be issued. Prof. Power was national editor for some time and wrote a fraternity manual a number of years ago.

Leta chapter was established in this institution seven years ago and the volume will be of considerable interest to commerce students.

In addition to listing the thirty chapters of the organization there will be a list of national officers, representative members, the war roll, a chapter on commercial education, fraternal organization, a history of the organization and much additional material of value not only to Alpha Kappa Psi men but also to those interested in business education.

## ART EXHIBIT DEVOTED TO MATINEE MUSICAL

Special Program Given Thursday Evening—Board of Trustees Met Wednesday.

The art exhibit was devoted specially to the Matinee Musical, Thursday evening. A program was presented by Madame Gilderoy Scott, Miss Mariel Jones and Miss Katnerne Kimball. The special committee of hostesses for this occasion consisted of Mrs. Albert Watkins, Mrs. L. E. Mumford, Mrs. D. M. Butler, Mrs. J. W. Winger, Mrs. Lewis Trester, Mrs. L. H. Watson and Mrs. A. S. Raymond.

The board of trustees of the art association met Wednesday at the gallery to discuss the progress of the exhibition and plans for extending memberships. The attendance at the exhibition has been very gratifying. There is a steady stream of visitors whenever the gallery is open. The attendance has been better than in any former year, which shows that the public appreciate the exhibition.

## Results Of Arms Conference To Be Measured With Little Realism

Two international conferences ought to teach us something. This last one at least ought to lead us out of the bogs of garrulity on to the solid ground of actuality.

We have just adjourned sine die the Conference on Limitation of Armaments and Pacific and Far Eastern Problems. It is time to measure the results of that conference with a little realism. It has on its credit side a great contribution. It has spared the insanity of a naval race on two oceans and a war on at least one as a consequence. So far so good, and let the editor and politician voice ring out. But that is only half. The other half is the Far East.

As to that half let us not deceive ourselves with our favorite national clichés—idealism, justice, democracy and all that—and befuddle ourselves into contentment by the national passion for optimism. We have not succeeded with respect to the Far East. One reason is that we have brought to the test little more than words. We were self-frustrated by our own rah-rah spirit. We stuck by the team, without watching the play, without thought of what was the game, why we were playing it and whether the game was worth playing. College stuff, you see! or you might call it Rotary, which is the post-college form of college stuff—or you might say college is preparation for Rotary

Great quality, loyalty, if not dissociated from intelligence.

We brought to the test, I say, little more than words. So we got only words—new resolutions, more principles, fresh promises; but in deed nothing. Naturally, since we were satisfied with words alone, and the cheerleaders—press and politician and public figures generally—worked us up to a great boost frenzy over that.

Satisfied we may be, but let us cherish no illusions as to where these platitudes have left the Far East. They have left it substantially where it was. China, for all the magna charta, so-called, written at Washington, is still at the mercy of any despotic nation in the future, and past for. The clash of national interests in China has not been checked. The status quo has been sanctified. There have been promises not to do in the future those things that have been done in the past; but until those things that have been done in the past are undone there is little prospect that they will not be done again in the future. The principle of balance of power and the desire of each nation to even up for advantages gained by other nations in the past will propel each nation to better its own position as compared with the others—always at China's expense.

(Continued on Page 3.)

## PROF. SCOTT TO HAVE NEW CLASS IN ENGLISH

Professor R. D. Scott has a class in the application and practical use of English. So much instruction today has to do with the writing of themes and stories and too little of the correct use of English is taught in our public schools and high schools. This class at 4 o'clock on Tuesday and Thursday, law 107, is open to all those who want to learn to speak correctly, write and punctuate correctly and spell correctly.

## STUDENTS TO TRY OUT FOR PLACES IN SHOW

Personnel of Acts in Variety Show to Be Put on Next Month Will Be Selected by Competition.

Students wishing to take part in the variety show to be put on by the university lyceum board next month at the Orpheum theater will be given a chance to try out for places in the show next week. All applications of students wishing to try out must be in the student activities office by next Tuesday evening, March 7. Students should hand in their name and the kind of an act in which they prefer to take part.

Acts of every nature, from comedy to dramatic, from musical revue to feature stunts, will make up the variety program. Suggestions of students having ideas for the show will be gladly received by the board.

The variety show will be an annual affair in Lincoln home talent circles if the program this year goes off as is expected. Every spring vacation for many years, the university lyceum has sent university talent out into the state to advertise the university but they have never before put on a production for the benefit of Lincoln people. It is for the purpose of showing Lincoln people what the university can do and what the students of the university can do that the variety show is to be produced.

Want Best Talent. Realizing that Lincoln people are the most nearly correct judges of university life as it exists at Nebraska, the lyceum board is anxious that the best, and only the best, talent of the university be presented at the show. Skits, comedy acts, musical numbers, dance acts, and feature stunts of any kind appropriate for a variety program are wanted for the show. Any student or group of students can try out for the acts.

Some of the numbers which will be sent out in the state as a part of University week will be presented at the Lincoln show. But the fact that transportation expenses will be eliminated in the home production will serve to allow for much better and larger acts than could possibly be sent to distant towns.

Organizations having students with talent among them are asked to try out for an act in the name of the organization. Such groups as the Green Gobblins, Iron Sphinx, Mystic Fish, Silver Serpents, Xi Deltas, and Vikings and particularly urged to help themselves and the school by taking part in the big show.

Possible closing of the night of April 7 in favor of the variety show is being discussed. The nature of the program and the fact that it is to be one of the big events of the school year warrants closing the night to other functions. Students are urged not to plan entertainments for that night insofar as is possible, but to make way for the variety show.

University of Kansas—W. S. G. A. boasts two new creations. One is the new badge of office, a key, alike for both W. S. G. A. and the men's council, and the other is a deputization board, the duty of which is to enlighten high school girls who seek information about K. U. and especially concerning the activities of women on the hill.

University of Washington—The A. S. U. W. will give the third and last series of parties for the school year this month. It will be in the form of a 23-ring circus with shows at the various sorority and fraternity houses.

## TRACK TEAMS OFF FOR BIG RELAYS

Team Will Compete at Urbana in the Annual Illinois Relay Carnival.

## CINDER PATH TEAM OF TEN MEN LEAVE TODAY

Nebraska Track Stars Expected to Capture Numerous Honors at Indoor Classic.

The Nebraska track team leaves at 4:30 today for Urbana, Ill., where it will compete in the Illinois relays Saturday. Coach Henry F. Schulte is taking the following men with him to the Illinois meet: Captain Ed. Smith, Noble, Lukens, Gish, Coats, Layton, Ted Smith, McCarthy, and Hawkins. One or two others may also be taken.

Coach Schulte has been putting the track men through a series of hard workouts for the past week in preparation for the Illinois meet. The cinder path artists have been somewhat handicapped by the cold weather lately, but are in fair condition for the meet.

Captain Ed. Smith will compete in the sprints at the meet. Smith performed very creditably at the K. C. A. C. meet last Saturday, and is counted on to make a good showing at the competition in the Illinois affair. Smith has a world of speed and always runs a strong race.

Dave Noble is expected to participate in the sprints and in the high jump. The big football star is fast and is also a good high jumper. Lukens will take part in the low hurdles. Gish will run in the low and also the high hurdle events. Coats, who won the thousand yard handicap race at the K. C. A. C. meet, will compete in the distance events.

The Cornhusker relay team, consisting of McCarthy, Layton, Ted Smith, and Hawkins is expected to capture a share of the honors at the Illinois meet. This quartet of runners are exceedingly fast, and run an excellent race. This team promises to spring a surprise at the M. V. C. indoor meet next month.

Twelve schools have entered in the Urbana meet, and a most exciting contest is promised. Leading athletes from all the middle-west schools will compete in the meet. The following colleges will have representatives at the meet: Nebraska, Purdue, Ohio, Notre Dame, Michigan, Wisconsin, Kansas U., Kansas Aggies, Grinnell, Drake, Chicago, Ames, and Illinois.

## FINGER PRINT EXPERT AT COMMERCIAL CLUB

Hans Nielsen Explains to Members of Club the Importance of Finger-prints.

"It's just as easy to find a man among a million as it is among a hundred by means of fingerprints." Hans Nielsen said in his talk to the university commercial club yesterday morning. His talk was very interesting as well as practical.

Fingerprints were used as identification as far back as a thousand years ago in China. They are used mostly in the detection and identification of criminals today, photographs and hand writing being used to some extent but these are not accurate. Fingerprints are absolutely correct, it being impossible to find two fingerprints alike in all the world. Mr. Nielsen pointed out what a great protection to banks fingerprints on checks were. There is so much forgery and swindling going on that the fingerprint system is going to be used a great deal in the commercial world.

He expressed a hope for a universal fingerprint system. He showed where this could be used as identification in wrecks, fires and drowning where identification was not possible otherwise. Mr. Nielsen had a number of interesting charts showing how a man was identified and he told a few experiences in identifying crooks in the state. The talk was thoroughly enjoyed by all of those in attendance.
