W. A. A. HOLDS REGULAR MEETING LAST EVENING

The Women's Athletic association held its monthly meeting at Ellen Smith hall last evening. Davida Vangilder was elected from the board to attend the sectional convention of W. A. A. that takes place at Boulder, Colo., the first week in April. The important business of the evening was the election of the nominating committee who, with the senior members of the board, nominate the girls from whom four will be elected to go to convention as unofficial delegates. The three underclassmen on the committee are Dorothy Dougan, freshman, Lois Shepherd, sophomore, Sara Surber, junior.

All the girls who won their first 100 points in athletics this year were taken into the organization.

In Years Gone By.

Eighteen Years Ago Today.

The management of the girls basketball team received definite assurance from the University of Minnesota that it would be possible to arrange two games at Minneapolis. Nebraska is much ahead of other schools in this respect, as few girls' teams play outside the state.

Ten Years Ago Today.

J. G. Smith, 88, spent the day in

Lincoln on his way to New York city. Mr. Smith was one of Nebraska's oldest botanists and was in the first class which used microscopes.

Six Years Ago Today.

Much agitation was shown over the single tax. Ten reasons for the single tax occupied a prominent place on the front page of "The Daily Nebraskan."

Other Worlds Than Our Own.

Columbia University—Here it is found necessary to advertise time and time again for candidates for the cast and chorus of the varsity show. Students who are sufficiently talented do not report for tryouts.

University of Michigan—During the past week the Western conference radio news service, an organization that connects several of the big ten newspapers with wireless news service, has carried on tests which have proven the organization successful.

Pomona College—The first intercollegiate government conference which will include the six colleges of the southern conference and U. S. C., and which was formed to unify the dif-

ferent institutions toward common problems, convened at Pomona college February 17 and 18.

University of California—Plans have been made by the executive committee to ask the University of Missouri track team to meet the California team.

Syracuse University—Popcorn balls are the latest commodity for sale recently introduced by Theta Sigma Phi.

Ohio University—Delta Chi and Phi Kappa will stage a movie contest at the Y. M. Y. W. mixer with the Ohio

State Journal's contest along similar lines. Every one who enters is to have thirteen chances to guess the title of each picture. Sears & Roebuck's mail order dictionary will be the official catalogue and prizes will be awarded the winners, worth approximately 3,875,423 Russian rubles.

fraternities—whether social or professional.

Established in 1904 at New York university this commerce fraternity is now the oldest and largest commerce fraternity in the country. Dr.

Roy B. Kester, its president, is a national figure in accounting circles. Waldron H. Rand, for two years president of the American institute of accountants, is a member as is Dr. John T. Holdsworth, Prof. Paul Ivey, Dean Joseph French Johnson, President David Kinley, President Charles Hicks and others prominent as educa-

tors and writers. Dean Le Rossignol is collaborating in the handbook to the extent of writing one of the chapters.
