

## GRACE COPPOCK MEMORIAL DRIVE MEETS SUCCESS

Over Eight Hundred Dollars Raised by Committees Up to Thursday Noon

### CAMPAIGN CLOSES ON FRIDAY NIGHT

Goal of Fifteen Hundred Dollars May be Reached by This Evening

More than eight hundred dollars has been raised toward the Grace Coppock Memorial Fund drive for \$1,500 up to twelve o'clock Thursday. This is a very encouraging total. The average per member is high and the team workers report that a high percentage of the girls are contributing. A very thorough canvass is being made and careful records are kept of the contributions.

The canvassing will continue until Friday evening. If it is at all possible, team members should have a final report ready Friday noon at the luncheon.

Aside from the religious purpose of the Y. W. C. A. the greatest duty of the association is to help educate the women of China. It has only been in recent years that women of the lower class have been allowed the privilege of an education. The expense today of the most elementary schooling is beyond the limited means of the working women. A free education is something entirely unknown. Poverty is quite widespread, due partly to the ideas of respect and obedience to every member of the family. A well to do man must share all he has with all of his relatives. China, as a country, is very backward along the lines of industrial development and makes very little use of the modern inventions.

The most prominent group in China today is her students. Since the development of the "student movement" in connection with the Shantung controversy, they have come to be an expression of China's idealism. Only a few of China's girls are members of her student movement. Eighty-nine student branches of the Y. W. C. A. are at work enrolling members. The Y. W. C. A. is constantly enlarging its foreign work for Chinese women and girls. A staff of 128 secretaries, 32 of whom are native Chinese, are carrying on educational and health activities. The executive at the head of this immense organization is dependent on the support the Nebraska girls will give. That means every girl in school must recognize her responsibility.

## MORE TRACK MEN NEEDED BY COACH

MORE TRACK MEN NEEDED BY COACH

### Coach Schulte Asks For More of the Cinder Path Artists

"More Men out for track," is the appeal made by Coach Schulte. The track mentor declares that Nebraska must have more men out for the cinder path sport. Every Husker is urged to report for track at once, as at least five hundred track candidates are needed. Schulte states that he is anxious for the men to come out, regardless of whether or not they have participated in track athletics before.

Coach Schulte is planning on making the inter-college meet next week the biggest intra-mural athletic event ever staged at the Cornhusker institution. All track men are being urged to enter the meet, and no effort is being spared to make the meet successful. The captains of the different college teams are vying with each other in their attempts to secure a winning team. Catch Schulte is especially desirous that all men now out for track compete in the meet.

## LIBRARY BOOKS ARE TAKEN BY STUDENTS

University libraries have been troubled by students who take out books without charging them and do not return them. In many cases, it is due to carelessness or ignorance.

The "U" Hall library has been the worst sufferer as it contains books on the English reading list and the shelves are open to the public. The following fourteen books are missing at the present time:

Edgar Allen Poe, Short Stories, Bret Harte, Stories in Light and Shadow; O. Henry, Ten Gentlemen; O. Henry, The Voice of the City; Mark Twain, The Man that Corrupted Hodge; Bennett, How of Live in Twenty Four Hours a Day; Kipling, Poems; Jane Austin, Pride and Prejudice; Hardy, Tess of the D'Urbervilles; Swinerton, Nocturnal; Lamb, Essays; Benson, From a College Window; Thoreau, The Maine Woods.

## A. A. E. ELECTS NEW OFFICERS

Plans For Engineer Week Discussed by Committees in Charge

### DEFINITE PROGRAM HAS BEEN ANNOUNCED

Engineers Hear Prof. G. N. Foster of the Law College at Wednesday Eve Meeting

An unusually large attendance marked the meeting Wednesday evening of the A. A. E. held in the Mechanical Engineering Building.

Professor Foster of the Law College gave an interesting talk in which he brought out the advantages and possibilities of the engineer as seen by those outside the profession. He emphasized the need of a broader appreciation of the sciences than the average engineer gets in his college course. Scientific research was mentioned as likely the most profitable source of development along this line. He ended his talk by saying that he wished to pay a tribute to the scientific man by the statement, "I feel comparatively speaking, that the men of science have never received their just credit. The man who develops a new step in science that is to be beneficial to the whole world, receives but slight mention as compared with the man who writes a story or poem."

Directly following the talk, election of officers for next year took place. The final ballot resulted as follows:

President, Paul Kreuch. Vice President, Lloyd Shildneck. Secretary-Treasurer, Ferd Bing. Assistant Editor Blue Print, K. F. Burnett. Assistant Business Manager, Noel Smith. Assistant Circulation Manager, Roy Randolph.

Installation of the newly elected officers followed, and the newly elected president presided for the remainder of the meeting.

The rest of the evening was given over to the enthusiastic reports of the chairmen of the various committees in charge of the annual Engineers' Week, which is to be held the last of this month. Shildneck, general chairman, gave a short outline of the program for the week. He said "Engineers' Week this year is to be one of the largest events of the school year. We plan to have it not just remembered as Engineers' Week, but as Engineers' Week of 1922."

Wilcox, chairman of publicity, reported that not only the Omaha and Lincoln papers are to herald the important events of the week, but that papers in most of the other towns within a radius of ten miles are to carry announcements of the occasion. He also mentioned the small silk emblems to be worn during the week and said that the committee felt that due to the absence of the fairer sex in the college, that the young ladies who have friends that are engineers might also wear the emblems.

Upton spoke of Engineers' Night, which is to be on Thursday. He told of how great a value this night is to the University as an advertisement.

## New Cornhusker Will Penetrate Globe From France To California

The fact that a prominent manufacturer of Davenport, Iowa, sends each year to the University of Minnesota, his Alma Mater, for a copy of the college annual, does not worry Cornhuskers. This is a common occurrence at Nebraska.

Right now on the books of the 1922 Cornhusker are the names of Nebraska alumni who are scattered in the four corners of the globe. Some of these names are well known now, too, but the memories of Nebraska still linger with them so vividly that they never forget to order a copy of the Cornhusker yearbook.

The 1922 Everybody's annual will penetrate the heart of India, it will go to the famous island of Japan, it will venture into the "Powder River" country, it will make the rounds on Lonk Island, it will pay a visit to sunny California, it will invade the Cascade range and will even make its presence known in southern France.

Former Cornhuskers are now scattered, but their minds are still centered around the college nucleus that they knew so many years ago. They

write that it is refreshing to look through the new annuals and mark the progress of the institution along the many lines of development.

When old grads and alumni that are far away from Cornhuskerland feel their heartstrings pulling them back to Nebraska to the extent that they order each year their Cornhusker, it makes the students the are on the campus now realize that every student now registered in school subscribe.

The 1922 book will be a combination of everything worth while that a student likes to read. It will contain optically pleasing photographs on rotopography, many new campus scenes, snapshots of prominent campus luminaries and other things as well. The special new Women's section will be a feature.

Cornhuskers are now being given an opportunity to subscribe to the Cornhusker, if they have not already done so for financial or other reasons. Order your copy of Everybody's Annual now at the Student Activities office in the southwest basement of Administration Hall.

## STRENUOUS WORKOUT FOR FOOTBALL MEN

### STRENUOUS WORKOUT FOR FOOTBALL MEN

Dawson Coaches Squad of Thirty Five Spring Grid-esters

Aided by a dry field, the Cornhusker spring gridsters went thru a strenuous workout yesterday afternoon. Head Coach Dawson, assisted by Bill Day, 1920 captain, and Farley Young, drilled the candidates in the fundamentals of the gridiron sport. The squad showed some increase in numbers, about thirty-five men reporting. The practice was interrupted by the hail-storm.

Coach Dawson is devoting the practices largely to teaching the men the various fundamentals of the sport. Handling the ball, backfield sidestepping, punting, and passing are among the points being stressed. Bucking the charging machines is forming a large part of the work of the linemen. "Chick" Hartley, captain-elect of the grid team, is aiding in the coaching and is proving to be a most capable leader. The captain of next fall's team is displaying excellent leadership and promises to efficiently fulfill the position of captain. The Husker leader sets a fine example to his men by his spirit and enthusiasm, which is quickly taken up by the other football athletes.

### PROF. GRUMMAN HEARS OF FOUNDATION WORK

A letter from the Louis Comfort Tiffany Foundation has been received by Professor Grumman. The letter states that the Foundation will this year admit a limited number of women artists under the same conditions as men. Artists will be received in residence any time after April 15, for a period of two months, with the understanding that the time may be extended if their work meets with the approval of their committee.

Candidates will be accepted in any branch of artistic endeavor if the work submitted shows sufficient ability and a thorough technical training. No courses of instruction are offered but artists of acknowledged reputation visit the Foundation and give criticisms. This year, Mr. Daniel Garber is to spend the month of June with them and assist the younger artists. A charge of \$10 per week for board is made to each pupil, but in special cases a Fellowship of \$200 is offered for two months residence.

This is the third season as residence for artists. The purpose of the Foundation is to bring together a group of artists and craftsmen of ability and technical training who will work out their own problems and assist one another by their various view points.

## DR. LYMAN GIVES ADDRESS AT BLAIR

Dr. R. A. Lyman of the College of Pharmacy made a trip to Blair, Nebraska, Thursday, to speak to the students of Dana College. In the afternoon he gave an illustrated lecture on the growing of medicinal plants in the United States, with special reference to Nebraska. Dr. Lyman has established one of the best experimental drug plant gardens in the United States at the University of Nebraska and most of his illustrations were obtained from this garden.

In the evening he talked to the same group on the subject of why some men succeed while others under the same conditions are failures. Last Saturday Dr. Lyman gave a talk before the Boone County Teachers at Albion on Physiology and Health in the Public Schools.

## VARIETY SHOW AT ORPHEUM TONIGHT

University Talent to Present Excellent Program of Nine Feature Acts

### PROSPECTS FOR LARGE CROWD ARE BRIGHT

"Bachelor Days" is Added Attraction to Already Long List of Numbers

Nine acts of every kind of feature will make up the program for the Variety Show to be presented at the Orpheum theatre tonight as the climax of the annual University Week, sponsored by the Lyceum board of the university. Acts of every kind of musical entertainment, dramatic program and comedy attraction will be presented as a part of the show.

Tickets to the Variety Show have been going fast although there are still many good seats left. It is expected that the greater part of the seats will be all taken long before the opening of the doors at 8:20.

"Bachelor Days," a short musical revue, is a last minute addition to the show. Although the program was more than filled with spice and fun previous to the addition of the short revue, the act was of such noteworthy character that it was deemed worth while to make it a part of the show.

"Hiis to the Heavy," a comedy tumbling act featuring Glen Preston, varsity quarterback of the 1921 football team and a former performer with the Ringling Brothers circus. Floyd Reed, captain of the Varsity wrestling team and Frank Adkins, a well-known athlete.

"Comme-ci, comme-ca" entertainers have an act of unusual character. The two mystery acts, "The Mystic Zaza," and "The Crystal Gazer," featuring an unknown man and Floyd Johnson, are already important subjects of conjecture among university students. The Violin Girls promise an entertaining musical attraction and the special dance number by two popular co-eds and two men will undoubtedly win fame.

The Variety Show is to be an annual event in Lincoln amateur theatrical performances. It is one of the best shows ever presented by home talent in Lincoln and Lincoln people have already shown their appreciation of the chance given them to witness university talent in action.

### ART CLUB VIEWS PICTURE EXHIBIT

The Art Club held a 6 o'clock dinner at the Grand Hotel Thursday evening. After the dinner the members of the Club went to the home of Mrs. F. M. Hall, who gave a talk on her collection of art objects.

Survey division of the University ran a number of state films Thursday and Friday at the community meetings at Beaver City and Orleans.

The Motion Picture department of the University is now busily engaged in making several hundred prints showing the plans of the new state capitol. These slides will show the progress that has been made in testing the capacity of the subsoil rock.

## NEBRASKA AND SOUTH DAKOTA DEBATERS MEET

Big Crowd Hears Forensic Artists From Two Institutions Clash

### FIRST APPEARANCE OF AFFIRMATIVE TEAM MEN

No Decision Rendered in Argument on Question of Allied Debts.

Entrenched with books, pamphlets, figures and statistics and alive to every apparent issue of the question, the Nebraska and South Dakota debating teams vied with each other for forensic supremacy in the Temple theater Thursday night with the question, "Resolved: that the United States Should Cancel the Allied Debts." Nebraska upheld the affirmative of the question and no decision was rendered as has been the custom in the debates of the past year.

Chief Justice A. M. Morrissey of the Nebraska Supreme Court presided over the meeting in the place of Governor McKelvie who was unavoidably detained in Omaha due to illness of a brother. Chief Justice Morrissey briefly explained the question of the debate and introduced the speakers. He was presented to the audience by Professor M. M. Fogg, coach of the Nebraska team.

The cases of both teams were well developed and a heated discussion marked the conflict of points. The question was dealt with from every angle and the honors were very close. Nebraska carried through a very well developed line of argument and each speaker was forceful in his defense of the question. A number of cleverly worked out points of the negative were sprung in the rebuttal which followed the direct argument and the cases were strong on both sides. Nebraska seemed to have the edge in the presentation.

This debate, the second half of which was carried on by the Nebraska negative team in Iowa at the same time as the South Dakota-Nebraska argument, is the thirty-second debate since 1902. The first thirty of these debates carried decisions and Nebraska carried twenty-one of the thirty decisions. Since the War Nebraska has participated in six no-decision debates.

This is the first appearance of the Nebraska debating team this season and the affirmative team is made up entirely of men who have not handled the case for Nebraska in previous years.

## SOPHOMORE SPREE IS SATURDAY NIGHT

Second Year Class to Hold Celebration at the Armory Amid Flurry of Decorations

Amid a flurry of decorations, a volume of real peppy music, and an array of unusual novelties, the "Sophomore Spree" will be the big attraction for Saturday night. The spree will be held in the armory and is to be one of the most unusual celebrations of the year. Admission will be 50 cents.

The committee in charge has been making great plans for the celebration. Many novelties have been added to the usual features and the party promises to overflow with "pep."

The Louisiana Ragadors will furnish the music for the spree. This popular college orchestra has long become a favorite and will help much to make the party successful. Decoration of an attractive nature will lend beauty to the scene.

The committee in charge of the "spree" is H. Stephen King, chairman. Floyd Cropper, Ruth Codrington, Alva Little, Rhea Freidell, William H. Edelman, Jean Holtz and Charles Ortman.

# HARRY LAUDER SAYS "LET US WORK, PLAY AND SING"
