CAMPAIGN FOR SONG BOOK TO START MONDAY

Girls to Canvas University For Subscriptions to Second Edition of Publication.

PRIZES WILL BE AWARDED TO WINNERS

Tea Service or Vacuum Sweeper to Winning Sorority—Travel-Bag to High Girl

The campaign for subscriptions to the second edition of the Nebraska Song Book which is being published by the Alumni Association under the direction of Harold F. Holtz is scheduled to start off with a bang early Monday morning. Every sorority on the campus and many individual girls are competing for the prizes. A Sheffield Tea service or a vacuum sweeper is the prize to go to the winning sorority, while a seal cowhide traveling bag will be awarded to the individual girl who carries off the honors. The traveling bag will be given to a girl outside a sorority.

The price of the new song book is to be \$2, one-half of which is payable when ordering and the other half payable when the book is delivered. Nearly two hundred subscriptions to the book have already been turned in as a result of the fourteen fraternities agreeing to publish twenty-three pages of songs.

The new issue of the Nebraska song book will contain a bulk of new material not used in the first edition. Thirty more pages will be contained in the previous edition. A section for songs from other large universities and a section to contain the fraternity songs is being added. Many of the less valuable songs and those which have no place in a university song book are to be eliminated.

Every bulletin board on the campus is now decorated with a large poster slogan in support of the plea for more singing at the University of Nebraska. This need has long been felt and the alumni have deemed it advisable to take the matter into their own hands in order that something may be done as soon as possible. The entire student body which has been appealed to for support is strongly back of the proposition and it should not be long until singing will be a habit with Cornhusker students.

EMPLOYMENT BUREAU DOES VALUABLE WORK

University Y. M. C. A. Has Found Jobs For Many Students This Year

Since the University Y. M. C. A. has taken over the students' employment bureau it has done a very commendable work. At present, however, it is having difficulty in filling the jobs as fast as they come in. Therefore, they wish to urge those who want work to leave their applications at the "Y" office in the Temple Building. Calls for girls are turned over to Dean Heppner so that co-eds in search of work will apply to her. Sometimes it is quite urgent that students find work to stay in school and since they have been found to do their work conscientiously, the bureau especially urges those who have work to be done to leave word with William Altstadt at the University "Y" office and he will secure the right party for the position. Some of the calls for help have been for raking lawns, house-cleaning, and for clerical work.

The following report of Wm. G. Altstadt, director of the Employment Bureau, shows that students have profited greatly from the positions secured for them by the bureau. It shows the approximate earnings of the students from the various classes of work:

Stenographic and clerical	\$194.00
Board	343.00
Room	67.00
Sales and Collecting	294.00
Printing, Janitor, Misc. Cash	133.50

Total est. earnings for Mar., \$1,031.50
The number of jobs secured and the amount of money earned compares favorably with that of the same month in previous years.

Alumni Notes.
Ernest F. Monroe, '04, dean of the junior college, Garden City, Kans., reports the following Nebraska university alumni living in Garden City: S. M. Moss, cashier Garden City National bank; B. R. H. d'Allemand, farmer; P. W. Pepon, '02, principal of Garfield school; Mrs. Mabel Pe-

poon Monroe, '07, teacher in city schools; Ernest F. Monroe, '04, dean of the Garden City junior college; Custer Dieseman and H. G. Nelson.

C. A. Atwell, '14, published an article, "Regeneration Characteristic Curves of Direct Current Locomotives" in the March issue of the Electrical Journal. Mr. Atwell shows the principal quantities that vary during regeneration, namely: armature or regenerated amperes, field amperes, speed, retarding effort, exciter amperes, efficiency.

Some advance students, under the leadership of Harry Mortlock of the conservational soil survey department, went to the Republican valley last week for plant classification and geological study research work.

Benjamin Masurovsky, graduate assistant in the department of dairy husbandry, wrote "The New Methods of Balancing Rations" in the March issue of the Journal of Dairy Science.

Personals.

Chancellor Avery and Harold Holtz, secretary of the university alumni association, returned recently from Chicago where they attended the meeting of the Chicago alumni association. Following the talks, election of officers took place.

Walter Meier is a candidate for mayor of Seattle, and is one of the most mentioned persons there now. Alfred Lundin is the alumni club secretary. J. W. Sayer, who used to sing in the St. Paul Oratorio chorus, is living in Seattle with his son.

Miss Louise Pound of the department of English was asked to arrange one of the programs for the national meeting of the American association of university women which is to be held this week at Kansas City. She was also asked to serve as one of the speakers at a meeting, April 5. Miss Pound will be unable to attend the meeting.

Professor John P. Senning, chairman of the Political Science department, spent most of his vacation at the University of Illinois where he had a delightful time visiting with Professors Garner and Matthews. According to his report the University of Illinois is more fortunate than the University of Nebraska insofar as it is not struck by a storm of retrenchment and economy. Salaries will be increased considerable and many of the departments are planning considerable expansion.

Miss Pound has also received a request from Japan for her autograph as one of "the leading philologists in America."

The speaking tour which Chancellor Avery was to have conducted to Falls City, Nebraska City, Auburn, Pawnee City and Table Rock last week as part of the University Week program was cancelled on account of the chancellor's sudden illness.

Grace Robinson, of Waterloo, Nebraska, who was in school last semester, is now visiting in New York state. At present she is at Greenwich.
