

THE SUMMER NEBRASKAN

VOLUME XXI. No. 161.

Lincoln, Nebraska, Saturday, June 10, 1922.

PRICE FIVE CENTS

41 "N" MEN IN SPRING SPORTS

Twenty-three Track, 11 Baseball and 8 Golf and Tennis Letters Awarded.

Forty-one University of Nebraska athletes won their right to "N's" in the four spring sports, track, baseball, golf and tennis. Twenty-three letters were awarded to cinder path artists, eleven went to baseball men, and four each to golf and tennis player.

Frank Carmen, pitcher and outfielder, is the captain of the 1923 track squad and Kenneth Hawkins will lead the next year track enthusiasts.

The list of men awarded letters in baseball follows:

Clyde Anderson, Earl Carr, Verne Lewellen, William McCrory, George Smaha, Joe Pizer, Fred Thomsen, Rudolph Ziegenbein, Frank Carmen, Glenn Munger and Milton Blankenship.

The list of men awarded letters in track follow:

E. V. Allen, E. R. Beckord, N. Coats, L. L. Davidson, D. N. Deering, G. G. Fischer, M. Gardner, Herb Gish, Kenneth Hawkins, A. Hatch, M. H. Layton, W. D. Lear, I. Lukens, C. Moulton, Dave Noble, Andrew Schoepel, T. M. Slemmons, E. G. Smith, M. Smith, "Hobb" Turner, R. F. Weller, A. Wenke, C. Hartman.

The tennis letter men follow: Bryce Crawford, E. S. Peddicord, R. C. Russell, Minor Skallberg.

The golf men follow: Phillip Aitken, G. J. Henkleman, George Salter, Eugene Slattery.

STUDENTS ON TOUR OF NORTH COUNTRIES

Flood and Wilson Take Trip to Canada and Alaska for Canadian Government.

James C. Wilson, '22, and Francis Flood, '20, left Lincoln Thursday afternoon on an extended tour of Canada and Alaska, to be gone most of the summer. They will travel through Canada along the American border, then go north to the Peace river country, where they will leave their specially constructed Ford tourist car, taking canoe and portage on to the Norman oil fields.

The trip is being taken for the Canadian government as an economic and industrial survey.

While in school, Wilson was prominent in university commercial and music circles. Flood was well known as a hurdler, in which event he was on the Varsity team for three years. Both were members of Palladian literary society.

STUDYING BY MAIL PROVING POPULAR

Correspondence study during the summer is proving a popular means of making credit in the university. The extension division is receiving a heavy registration for the mail work. The correspondence study enables students to make credit in the university without having to attend school at Lincoln. Many teachers are finding this a good means of summer study.

SUMMER ENROLLMENT IS NOW NEAR 2,000

Until Late Friday, 1,881 Students Had Registered—Still a Few Late Comers.

Probability that the two summer sessions of 1922 will double the high mark of 1,589 hit for the two sessions last year is now very evident. Until late Thursday the registrar's office had a high record of 1,881 already enrolled for the first half of the summer session.

This mark is very nearly double that hit for the first six weeks last year. The number enrolled for the early summer courses in 1921 was only a little above the thousand mark. If the registration holds out until the end of this week as is expected, the record mark of 2,000 summer sessions will have been passed.

Increase in the number of students attending summer school is due to the general increase in registration in all schools in the country, according to Chancellor Samuel Avery. Last winter almost every university experienced a marked upward turn in the number of students enrolled. This was credited to the fact that students who have not in the past had the time nor the opportunity to continue their education have found themselves in a position favorable to the pursuit of their studies. The so-called hard times found many men and women out of jobs but with a neat sum of money saved up these persons have found it advisable and convenient to continue their university courses. This group together with the fact that students have a hard time finding work and so do not have the incentive to leave school has caused the increase in the numbers felt in all schools.

EMERSON CLINICS MUCH IN DEMAND

The Emerson Institute clinics to be held June 19 to August 17 is proving a popular course judging from the response made to the university extension division. The course is offered to teachers, principals, supervisors, physicians, medical child specialists, public health and tuberculosis nurses, social and child welfare workers and dieticians. The course includes the organization of four model Emerson nutrition clinics for underweight children.

COMMENT ON NEBRASKA EXHIBITION OF ART

The American Magazine of Art for June contains a statement of the exhibition activities in the Nebraska art association for the present season. The Nebraska society each year exhibits some of the best paintings from the entire country. Many works of Nebraska artists are shown in the exhibition.

RADIO EXPERT HAS CHARGE OF STATION

Will Take Over Duties Now Handled by Engineering Students—Send Out Market Reports.

The board of regents of the University of Nebraska has approved the request of Dean O. J. Ferguson of the college of engineering for a full time radio expert to care for the rapidly increasing work in that field. For some time the university has been broadcasting market and weather reports by both telephone and telegraph. This work has required the part-time services of two students, H. E. Hein, now graduated, and B. E. Ellsworth, who has charge this summer.

Classes in radio have been taught as an elective in the engineering college by Dean Ferguson. This work will probably be turned over to the radio expert to be employed.

Due to the recent activities in radio, inquiries have been pouring in from not only Nebraska but from neighboring states and a large part of the work of the radio man will be answering questions regarding hookups, what instruments are used and how, or answering politely worded requests by equally gentle statements to the effect that though the university sends out radio reports, it cannot furnish blanks on which to copy them.

New and larger quarters are to be partitioned off elsewhere to replace the old crowded space on the second floor of E. E. building in accordance with the rapidly growing importance of the work.

PROFESSORS TALK AT HIGH COMMENCEMENTS

Many University Instructors Give Addresses at High School Graduations.

University of Nebraska professors were busy this spring delivering commencement addresses throughout the state. Some Nebraska instructors were called to towns outside Nebraska to deliver the speech at the high school graduation exercises. Some of the professors who gave commencement talks this spring follow:

TWILIGHT BASEBALL LEAGUE IS FORMED

Any Group of Summer Students May Organize Team to Enter in Competition.

A twilight baseball league has been formed at the University of Nebraska. Six teams have already been entered in the competition and a call has been issued for as many more teams to enter as can be formed from groups of summer students. Applications for teams to be entered in the twilight league should be filed at the athletic office before next Tuesday evening.

Coach Owen Frank will have charge of the twilight league. He will supervise and criticize all games and players entered in the league will not only receive good baseball practice but will be given excellent coaching.

An attempt will be made to have each person entered in the league take part in two or three games each week. At least one team is to be entered from each of the coaching classes, baseball, football, basketball and track. Any group may organize a team and enter it in the competition by filing a list of from twelve to fourteen players and an assurance that it will play the games necessary at the athletic office. Forms for filing will be provided.

There are three fields open for the twilight league. Two of them are on the drill grounds and the other is on the athletic field.

"MUNY" AND BEACH POOLS READY FOR USE

The municipal swimming pool at Twenty-second and M streets is now ready for the use of water enthusiasts. The pool was opened to the public last night and will be run every day throughout the summer.

This pool and the large pool at Capital Beach are both excellent for swimming. The muny pool has its deep water section running from east to west in the middle while the pool at the Beach has a place for diving marked off at one side. Both have a gradual slope toward deep water and both are fine for swimming. Prices are very reasonable at both places.

BASEBALL PLAYERS!

The Summer Nebraskan is planning to organize a baseball team to be entered in the Twilight Baseball league. Any summer school students who can wield a "wicked bat," pitch a fancy ball, run the bases, catch or play any position is wanted for the team. Students who wish to join the Nebraskan quad report at the student activities office today between 3 and 4 o'clock.
