

MICKEY ATTENDS A. A. E. CONVENTION

Engineering Instructor Will Make
Extended Trip in Western
United States.

Prof. Clark E. Mickey of the college of engineering of the University of Nebraska was the delegate from the Lincoln chapter of the American Association of Engineers to the annual convention of the society held at Salt Lake City, Utah, June 5, 6, 7 and 8. He is accompanied by his wife and will make an extended trip to the west coast.

Before arriving at Salt Lake City for the convention, Professor and Mrs. Mickey will visit Denver, Colorado Springs and Pueblo. From Salt Lake City they will go to Los Angeles and San Francisco where they will attend the Shrine conclave June 13, 14 and 15. They will pay a short visit to the University of California at Berkeley.

From Berkeley they will go to Corvallis, Ore., for a short visit at the Oregon Agricultural college. Professor Mickey will then go to Portland where he will visit C. H. Purcell, C. E. '06, and to Seattle to see C. B. Hall, '08.

On the return trip they will visit Canada stopping at Victoria, Vancouver, Calgary and Winnipeg. After a short stop at Minneapolis, Minn., they will return to Lincoln about July 4.

COURSE FOR GRAIN BUYER IS OFFERED

Elevator Men to Be Given Instruction
in Testing and Book-
keeping.

A short course for the benefit of Nebraska elevator men is to be given at the University of Nebraska college of agriculture June 12 to 23. The course is given at the university in co-operation with the United States department of agriculture.

The increased complexity of the grain market has made demand for more accurate testing of grain by the buyer and it is to supply this need that the course is being offered. In years past it was the custom for grain buyers to take a handful of grain, smell it and shake it, and then state the price.

In the present day, samples of grain are taken from several places in the car and to the laboratory and carefully tested for its many different qualities, weight, per cent of moisture, etc., before being priced.

Country elevator managers rarely have an accurate system of bookkeeping. It is to supply a need for better accounts that the bookkeeping course is offered.

A large attendance is expected at the short course.

PROFESSORS TALK AT HIGH COMMENCEMENTS

(Continued from Page One)

Prof. L. E. Aylsworth of the political and social science department, journeyed to Sheridan, Wyo., to deliver the commencement address.

Dr. H. E. Bradford was the commencement speaker at the graduation exercises at Randolph, Nebr.

Rev. H. F. Huntington, Methodist student pastor, made commencement addresses at Kenesaw, Arnold, Callaway, Rowells, Cowles and Utica, Nebr.

Rev. Thomas, Congregational student pastor, delivered addresses at Huntley, Stamford, Hinton, Ia., and Morrill, Ia. He also spoke at Union College, Le Mars, Ia.

DR. POWERS GOES TO TENNESSEE UNIVERSITY

Dr. Edwin B. Powers, instructor in zoology at the University of Nebraska for two years, has accepted an associate professorship in zoology at the University of Tennessee. Dr. Powers expects to spend the summer at Edinburgh, Scotland, where he will take work in the university.

ACCEPTS INSTRUCTORSHIP AT OKLAHOMA UNIVERSITY

W. E. Bruner, assistant in the botany department at the University of Nebraska the last two years, has accepted an instructorship in botany at the University of Oklahoma. He will assume his new duties September 1. Mr. Bruner took his master of arts degree at Nebraska this year.

Return of the Lincoln state league team Friday from its road trip affords the summer school students a chance to see a fancy exhibition of the American national pastime. The Links are leading the state league ball clubs for

the laurels in the first half of the split season. They stay in the capital city six days playing three games with the Grand Island club, now at the bottom of the league standings, and an equal number with Beatrice. The games are played at Landis field on west O street. Three 1922 Cornhusker stars will be in action, Carr of the Links, Pizer and McCrory of the Blues.

The squad of Cornhuskers who will take part in the national A. A. track

and field championship meet at Chicago next week have broken training and are at their respective homes working. Coach Schulte felt that it was not fair to hold the men from their work for the two weeks training period before the Chicago meet since all of them are working their ways through school and can make good use of the period. All of the men were willing to stay but Schulte did not feel that they should and they went to their homes and summer work. The men will leave June 15 for Chicago.
