

# SPORTRAITS

Less green material is confronting Coach Henry F. Schulte in his coaches' training course this year. Last year "Indian" had a hard time pounding the fundamentals into the heads of many of those taking his course. This year, however, the early indications have been that the men taking the training courses, not only in football, but in baseball, track and basketball as well, have a more complete knowledge of the first principles of the game than those last year.

Interest in the Twilight League is at high pitch. The general dullness of the summer school sessions is about to be broken, for the men at least and for the co-eds who like the national pastime, by the inauguration of the evening baseball games. More than half a dozen teams have already entered in the Twilight league and indications are that before the books close Tuesday afternoon one or two other teams will have entered.

The call for baseball performers for the Summer Nebraskan diamond nine is still open. A generous response to the first call indicates that the newspaper team will be a reality. There are still a number of places, however, which can be filled. Any players should see the editor or manager at the student activities office today between 3 and 4 o'clock.

Earl Carr, Joe Pizer and "Bill McCrory, 1922 Cornhusker baseball players, are becoming worthy members of professional baseball company. Each of the three contributed runs in Saturday games to help bring forth victories for their teams. Carr brought in one of the four tallies which Lincoln piled up against Grand Island in a 4 to 3 victory. Pizer and McCrory each tallied one of the Beatrice runs and helped defeat Norfolk.

Summer school students may this week see three former Cornhusker diamond stars in action in the American national pastime and, incidentally, at the same time cast their eyes on a fancy exhibition of the baseball sport. Carr of the Links and Pizer and McCrory of the Beatrice Blues, are the former Nebraskans, who will contribute to the amusement of baseball fans of Lincoln this week. All three are earning renowned places in the realm of State League baseball.

University of Nebraska track stars who will take part in the national A. A. track and field championship meet at Chicago June 17 will leave Lincoln for the Illinois city June 15. The men at the present time are at their respective homes and are doing what training is necessary there. They had four months of intensive work under the direction of Coach Schulte

and it was not thought advisable to require that they stay in Lincoln for the two weeks period in so far as most of the men are working their own way through school.

The University of Nebraska athletic department is anxious to help high school coaches wherever possible. Besides offering courses in coaching, the athletic department is willing and anxious to answer any perplexing questions arising in the course of the high school athletic season. Assistance of all kinds will be given to Nebraska high mentors merely for the asking. Coaches should not be backward in taking advantage of this opportunity to secure excellent athletic advice.

## WOLF TO DO RESEARCH WORK AT EVANSVILLE

F. E. Wolfe of the college of business administration, will leave soon for Evansville university at Evansville, Ind., where he will take up research work during the summer months. Before returning to Nebraska in the fall he will stop for a visit with his wife at Maryland, Pa.

Mr. Wolfe is chairman of a committee which recently printed an important bulletin on "Stock Turnover in Nebraska." Practically all of the writing in the book was furnished by Prof. Wolfe.

## WRITERS CLASS WILL CONTRIBUTE TO PAPER

Dean Philo M. Buck of the English department has agreed to assign the writing of articles for publication in The Summer Nebraskan as a part of the work of students in his "Course for Writers." The articles to be written will be of a human interest nature probably "Who's Who" articles of prominent faculty members.

## HUSKER TRACK TEAM HELPS SCHULTE CATCH HIS LIFE'S AMBITION

Henry F. "Indian" Schulte has fished every summer for fourteen years. He has in this time caught hundreds of fish of all types. But it took the 1922 Cornhusker track squad to enable Schulte to realize the ambition of his fishing career—to catch a six pound bass.

Before the track men left for their homes this spring they presented Schulte with an excellent fishing reel of the finest type. Up until last Saturday Schulte had not had an opportunity to use the reel. Then he went on a picnic with Coaches Dawson, Day, Frank and families.

During the course of the picnic

Schulte cast his reel. A jerk, a tug, a struggle between Schulte and a fish and the husky Nebraska coach landed a six pound, two ounce bass. This was accomplished the first time that Schulte had tossed his new reel. It was accomplished in Lancaster county, about the poorest fishing county in the country. After fourteen years Schulte finally realized his ambition and landed the fish which he has always wanted.

And, incidentally, the other members of the picnic party, while they are jealous of Schulte's fishing ability unwillingly admit that Schulte did catch that fish.

## LARGE ENROLLMENT CAUSES CONFUSION

(Continued from Page One) have three or four sections. The instructors as well as the students are hard pressed getting started and straightened out on account of the large enrollment and the continued late registration. Book stores have been busy all week trying to replenish their supplies to meet the demand for the books.
