

SPORTRAITS

Tennis continues to attract a large percentage of the summer school sessioners. The university courts daily are the scene of "hot" contests. Plans are being made at the athletic office to hold some championship net matches soon and the details are being worked out.

The Lincoln state league team again hit the road today after playing a series of seven games on Landis field. The Links made a clean sweep of the three-game series with Grand Island. Earl Carr, 2nd baseman, walloped four hits, one a three-bagger, in the four chances in the first game of the Beatrice series. He got two in the second game of the Wednesday doubleheader. Pizer of the Blues got two hits in each of the two games Wednesday.

Twilight baseball among summer school students will commence late this week or early next week. Six teams are being organized and will engage in the diamond sport for supremacy of the league.

Baseball players who have not as yet been signed up by Twilight league teams may enroll as members of the

Summer Nebraskan team by leaving their name, address and telephone number at the student activities office with a statement as to the position they play. Students may see the editor or manager there between 3 and 4 o'clock today to secure a position on the team.

The eight men who will represent Nebraska are the cream of the Husker tracksters. Cornhusker fans will await with anxiety the reports from Chicago Saturday and they will expect that the Nebraska men show up well in all of the events which are entered. Nebraska has one of the best track coaches in the country and each year its cinder path teams become better and better.

Coach Schulte's track class will work out between 4 and 5 o'clock every day this session on the athletic field. Any students not yet registered in the class who wish to have track training for coaching purposes or individual benefit should see Schulte on the field any evening. This training will be given without credit. There is already a large enrollment in the track class and keen competition in the cinder path should be developed

CONTEMPORARY OPINION

When the average student refuses to do some friend a favor, or when he foregoes a picture show or cuts a class, or misses a dance, he heaves a sigh, or moans or snaps, "too busy." We, who also have our minor obligations of classroom activity and society, take him at his word and offer him a bit of brotherly sympathy; for we also are wrestling with the hallucination that we are likewise "too busy."

And so we continue our way of bending beneath the burdens of a fast and furious college life, until we hear of one student whose business is exceeded only by his ambition and physical endurance.

This student is in the College of Agriculture. He waits tables for his board and tends furnace for his room. He works five hours at night in a restaurant, finishing up at midnight; then he takes a turn at night watchman until 4 a. m., when he goes to bed for his less than six hours' daily sleep. When he studies no one can tell, and yet he is carrying on an average schedule and making good grades.

This man is determined to get a college education and it looks as though he were going to succeed. And we have learned that we, after all, are probably not so busy as we thought.—Daily Illini.

TEACHERS MUCH IN DEMAND THIS YEAR

Calls for teachers from practically every part of the United States are being received every day at the office of the dean of the teachers' college. Throughout Nebraska and outside the state, scores of calls come in for teachers for next year. The western states particularly Colorado, Wyoming, Montana and Arizona, want a large number of instructors.

Many superintendents are also visiting Lincoln in quest of teachers. High school instructors are the most in demand. A few places want normal school instructors for universities.

STUDENT ACTIVITIES LOST-FOUND COUNTER

Students who are in the habit of losing articles of value should adopt a habit of regularly calling at the student activities office to see if some of those articles have been turned in by good hearted university citizens. The student activities office maintains a lost and found counter and daily receives a large number of pencils, pens, note-books, etc. These are returned to the owner when properly identified.

LUTHERAN STUDENTS TO HOLD A PICNIC

Lutheran students attending the University of Nebraska summer school will hold a picnic at Antelope park Friday evening at 6 o'clock. The basket lunchers will meet at the west entrance of the Temple building, and proceed to the picnic grounds. Lutheran students who intend to be present for the picnic should call L5591 before Friday noon. Eleanor Johnson is the chairman of the summer committee of the Lutheran club.

ICELAND FROLIC IS FRIDAY NIGHT (Continued from Page One)

to help the summer school students be come acquainted. It is the first party which the Y. W. has ever tried to give during a university summer session. The enrollment in the past has not been sufficient to make it worth while. This year, however, with some 2,000 students, a large part of them women, it is believed that a series of clever parties can be given.

Every woman student in the summer school is urged to attend the party. It is the best means possible of becoming acquainted with other women in school.

Any woman who plans to attend the party should notify Rath Orthway at B6450.

An interesting program of games, music, dancing, and refreshments has been provided for the Frolic. It is expected that a large number will attend.
