## HUSKER STARS IN TENNIS TOURNAY

Nebraska Racquet Artists of Old Compete in the State Meet Here

Nebraska stars of old in the tennis sport are listed among the players in the Nebraska state tennis tournament which started on the university courts yesterday. The racquet tournament will close next Saturday.

Practically all the old time net stars at the university for the last twenty years will take part in the state meet. This is the first state tourney to be sponsored by the university. It is made possible by the completion within the last few years of a string of the finest net courts in the entire country.

Among the former Nebraska stars entered in the tourney is Art Scribner. Scribner was one of the first and best known of the university net stars. He was graduated in 1907. He played on university teams for four years. He has been Omaha city champion several times and in 1910 was a runner-up in the national clay court doubles championship.

Charles Mathewson, in school about the same time as Scribner, is also competing in the tourney. He is now a banker at Walthill and has won the singles championship of the Northeast Nebraska association a half dozen times. He and his partner, Paul Landgenberg of Walthill, have held the doubles championship of this association for several years.
