

MANY CHANGES IN ADMINISTRATION
(Continued from page 1)

Retirement of Colonel Americas Mitchell from the United States regular army and from the commandant position in the Nebraska R. O. T. C. is a change of the late summer. His successor has not yet been announced.

Another change of importance is the resignation of Neil T. Chadderdon as agent of student activities and the appointment of J. K. Selleck, former assistant purchasing agent, to that position. That change became effective August 1. Chadderdon is now working in a bank at Winner, S. D. He was agent of student activities for three years.

New Y. M. Secretary

A change which is effective September 1 is the resignation of "Bill" Day from the position of secretary of the university Y. M. C. A. and the appointment of Paul McCaffrey to that position. Day will continue as assistant coach of football and will become an agent for the New York Life insurance company. McCaffrey, who succeeds him has been doing High Y work for the state Y. M. C. A. committee. He was graduated from Southwestern College of Kansas in 1921.

Track Coach Henry F. "Indian" Schulte has been appointed to the position of assistant director of athletics. Appointment of Schulte to that position was made by Dawson late last spring.

Other changes, resignations of professors and appointment of new ones, have been made. G. H. Robinson, professor of law, has resigned from his work at Nebraska to assume similar duties at Harvard university. Dr. D. E. Thomas, Congregational student pastor, has gone to the University of Missouri to be student pastor and professor in the cooperative school of religion.

Dean Buck Absent

Philo M. Buck, dean of the College of Arts and Sciences, will be missing from among the faculty of the university when the students return in September. Dean Buck left late in July for India in an exchange professorship with Dr. S. L. Joshi of Baroda College, University of Bombay. He will not arrive in that country until about September 15 and will return to Nebraska early next spring.

Professor Joshi spent a week lecturing to summer school students from August 3 to 10. He then went to California and from there will make

a tour of many large universities and colleges of the country. He will return to Nebraska in February to give a series of lectures to winter school students. His headquarters are being maintained at Nebraska.

FEES DUE ON SEPTEMBER 7
Continued from page One

to go through the entire routine of re-registering.

A few days ago an announcement from the registrar's office stated that those students whose registrations were cancelled because of not having paid their fees on time would be required to not only re-register, but would be charged a late fee of \$3. Which statement is official is not known. Miss Florence McGahey, registrar, is on her vacation, not to return until about September 1.

In the May 16 issue of the Daily Nebraskan, a story on the spring registration contained the statement, "The fees will be paid from September 4 to 7 in the armory". The registrar's office now says that statement was incorrect.

The same story told of the plan as allowing students to make any changes in registration they wished previous to the time of paying fees. This, however, is not so, the registrar's office says now. If they change their registration it will cost a dollar, a statement from the registrar's office says, while if the entire schedule is dropped and made out anew, it will cost nothing, providing it is done during the week September 8 to 13.

ADVANCED CADETS HAVE NE WSUITS
Continued from Page One

on the hips and breasts. A gray shirt and black tie are worn, the collar of the uniform turning down in the same way as that of a civilian suit.

The trousers are similar to those of the old suits. They are better tailored but appear similar in design. Black leggings or puttees will be worn. For a head piece, a cap similar to that which went with the old suits, will be worn. The caps will have a black bill. The entire suit, from cap to trousers, is carried out in the blue gray.

To Cadet Officers

Most of the men taking the advance courses in the military science department are officers in the R. O. T. C. All of the cadet officers and a few

other men taking the courses will wear the new uniforms.

Insignia of rank, years of military training, etc., will be on each suit. The men who last spring registered for the advance courses have been measured and the tailors now have the specifications for the uniforms. As soon as the men return to school their suits will be ordered completed according to measure. The uniforms should be issued late in September, Colonel Mitchell believes.

MAGEE'S GIVE FRESHMEN CAPS

Clothing Store to Distribute Green Head Gears to Men Entering University

Green caps for the freshmen entering the university will be given away for the second time this year. Magee's Clothing company, which last year distributed nearly 1,200 caps to the freshmen, will again deliver the emer-

ald head gears to the first year men.

Wearing of green caps by the freshmen entering the university is a well-established tradition. Every freshman in the university is expected to wear the caps between the hours of 8 a. m. and 6 p. m., on every school day. Plans are already being considered by a group of upper-classmen to enforce more rigidly than ever the time-honored tradition.

Wearing of the green is ended on Homecoming day provided the freshmen defeat the sophomores in the Olympics. Few have been the times that the first year men have failed to trim the sophomores and not been allowed to discard their emerald caps.

Last year, for the first time, the freshmen were not required to buy their caps. Previous to that time they had been charged from \$1 to \$2 each for the caps—and forced to wear them too. Last year and again this year, Magee's will give the caps to the freshmen.

A

Hearty Welcome
is hereby expressed to
every prospective Cornhusker
and to
our old student friends
both boys and girls
and we
extend the outstretched hand
