

EX-MEMBERS OF HI-Y ORGANIZE

Freshman Members of Y. M. C. A. Get Together at Supper Thursday and Plan Freshman Club

An organization of the freshman members of the Y. M. C. A. may be the outcome of the supper given to the ex-members of the HI-Y of the University. The supper was held Thursday at six o'clock at the city "Y".

The organization, which was suggested by Paul W. McCaffree, will be a club within the University Y. M. C. A. and not a separate organization. The purpose of the club is the same as that of the Association—to lead the students to faith in God and train them for Christian leadership.

L. C. Oberlies of the State Board of Control told those present the necessary qualities of a successful student and citizen. A character could not be built on culture, on versatility, on talent, on money, or on education alone, he stated. Something more solid is needed as a foundation, and that something, according to Mr. Oberlies, is faith in God. He cautioned the students not to let their faith be torn down.

William Alstadt welcomed the freshmen to the Y. M. C. A. and the reply was given by Robert Shields. Raymond Ester presided. Paul W. McCaffree then spoke of the campaign for membership in the University "Y" and invited an student who believed in its principles, into the organization.

"Anyone may become a member, no matter how much or how little money he has in his pocket," he said. "The 'Y. M.' is maintained by voluntary contributions from students and business men, but no one is obliged to give."

He then suggested the organization of a freshman club to help the first year men in the working out of their problems and promoting fellowship. This was followed by an open discussion in which the plan was heartily endorsed by several students. It was decided to fix upon a plan of organization at the next meeting, to be held Tuesday of this week.

Omaha Club to Elect Officers at First Dinner

The Omaha club, a social organization open to any Omaha student, will hold its first six o'clock dinner of the season, Tuesday, October 2, at the Grand hotel, when officers for this semester will be elected.

The meeting, which will consist of a dinner and entertainment, will be over by eight o'clock in order not to interfere with evening engagements.

The club, which meets once a month at a group dinner, is considered the best medium in the University for Omaha students to become better acquainted and united for

common interests. The meetings last year were very popular and the "Omaha gang" is expected to make this year a humdinger.

There are no club dues, but the tickets for this dinner, which are fifty-five cents, may be purchased from Mildred Othmer, Leate Markwell, Frank Frye or Pierce Rogers. The houses will be phoned.

LECTURE ON HIGH SCHOOL CHEMISTRY

Professor Hendricks Announces Physical Science Program for Teachers Association Meeting

Prof. B. Clifford Hendricks, of the department of chemistry, president of the Physical Science Section of the

State Teachers' Association, has sent to the executive officers a program for the meeting of the Physical Science Section, District 1, Lincoln, October 12, 13, and 14. Among the topics to be discussed are: High school chemistry from the point of view of both the college and the high school instructor; physics as a certificate subject, discussed by both physicist and a representative of the state superintendent's office; and what the superintendent and his high school science teacher expect of each other, discussed by a representative from both sides. Among the University of Nebraska faculty members participating in these discussions are Dr. H. G. Deming and Ralph Tyler, Teachers College High School. Professor Hendricks prepared the program at the request of Superintendent M. C. Leifer, president of the district. He also prepared the physical science program for District 4, meet-

for District 1 follows:

Thursday, October 12, 2:30.
Supt. Walter E. Hager, Adams, presiding.

I. Administration.
1. What the Superintendent Expects of His Science Teacher.
Supt. I. H. Linder, Havelock.
2. What the High School Science Teacher Expects of His Superintendent.
Principal James P. Rigg, Geneva.
ing at North Platte. The program

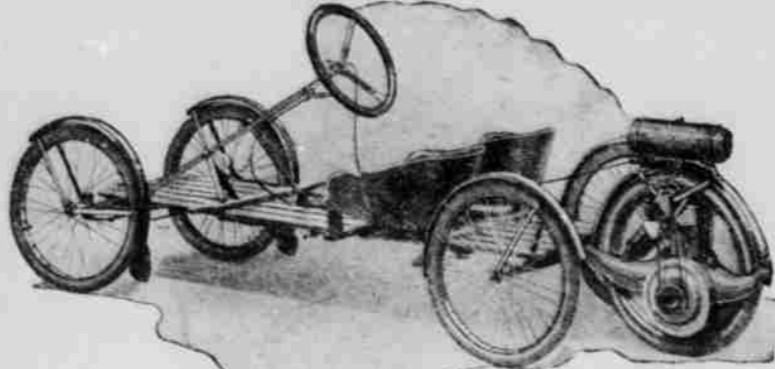

II. Physics as a Certificate Subject.

1. As Seen From the State Office.
Inspector I. N. Clark, Lincoln.
2. As Seen by the Physicist.
Prof. J. C. Jensen, Nebraska Wesleyan University.
Friday, October 13, 8:00.
Prof. Joseph A. Moss, Cotner College, Presiding.
1. High School Chemistry.
1. From the College Instructor's Point of View.
