

"OVER THE TOP" IS CRY OF ALL COLLEGES ON THE CAMPUS

STUDENTS JAM CITY AUDITORIUM AT STADIUM RALLY YESTERDAY MORNING

Campaign Gets Good Start Yesterday Morning With Big Mass Meeting—Professor Miller M. Fogg in Charge—Many Good Speakers on the Program.

CHANCELLOR AVERY GIVES "O. K." OF UNI. REGENTS

Dean Amanda Heppner Outlines Part Girls Can Play in Building the Memorial—Professor Scott Pictures Kansas Building Activities to Students—Dawson Closes Program.

KEYNOTES OF THE STADIUM BUILDERS CAMPAIGN.

"The facts will argue for themselves," Prof. M. M. Fogg. "Whatever Nebraska starts out to do, she does, and the stadium campaign will be no exception," Chancellor Samuel Avery.

Four thousand students, ready to accept the challenge which thirteen other western colleges have issued to Nebraska in the form of stadiums, crowded into the City Auditorium for the rally which Monday morning opened up the campaign to raise \$90,000 in pledges from among the ranks of the students before the end of the week.

When at the close of the meeting, Chancellor Nelson, president of the Students Society, announced that the College of Law had pledged 110 per cent and still had some members of the college to solicit, the students set forth a war whoop indicating that the Laws would not surpass any other college in the school before the campaign ends Friday evening with a rousing rally and parade.

Prof. M. M. Fogg of the department of Journalism, presided at the rally. In introducing Mr. Fogg as the chairman of the meeting, Chauncey Nelson told how every student who had been approached on the subject of working on the Stadium Builders' committee had been "ticked to death to serve."

As Prof. Fogg assumed the role of chairman, the crowd of four thousand breathed as if with an air of expectation, as of persons about to start upon an important duty which they knew must be accomplished and knew depended on them.

Fogg told of how four and one-half years ago, the City Auditorium had been crowded with University students backing 100 per cent the Red Cross campaign. The students gave a "superb exhibition of a devotion to an ideal and with a sense of duty, got behind the Red Cross."

Fogg then launched into a short explanation of the Stadium. "Today," he said, "this college generation is gathered here in the interests of a great cause. That great cause lies in part in this monumental edifice.

"The object of this meeting is to have the people on the platform give

JUNIOR CLASS MEETING. Junior class meeting will be held today at 11:00 a. m. in Social Science Auditorium. Election of minor class officers.

Teachers' College Professors Speak At Conventions

(University Publicity Office.) Teachers' College professors were in demand at district teachers' association meetings last week. Dean W. E. Sealock spoke at the meeting of District No. 1 in Lincoln, on "Habit in Education," and at District No. 3, Norfolk, on "Education and Social Reconstruction."

FRESHMAN ENGINEERS HEAR PROF. HOLLISTER

Head of Electrical Engineering Department Explains Field to First Year Men. Prof. V. L. Hollister of the Department of Electrical Engineering explained the field of electrical engineering to freshmen engineers Monday at 5 in M. E. 206.

"Where there is competition, there is business," said Prof. Hollister in explaining the apparent overcrowding of the professions. "The fact that there are so many graduates from this college shows that there is a field for the young engineer. There are many regions of human endeavor yet unexplored, problems untouched. Engineering, itself, involves problems concerning power, stresses and so on, and their solution. To solve them well, an engineer must have a knowledge of the laws of the universe. He who utilizes the forces and laws of the universe and of nature for the advancement and betterment of the race might be called an engineer."

"The field of medicine includes homeopathy, diagnostics, surgeons, dentists, osteopaths, dietitians and hosts of others," said Mr. Hollister in illustrating the overlapping of the various divisions of civil engineering that have developed since the old distinction of civil and military engineering was dropped. "The electrical engineer deals with telephone instruments and apparatus—their manufacture, sale and operation, telegraph instruments and apparatus—simplex and duplex, radio instruments and apparatus, and problems connected with them, all under the heading of signal engineering. Under the head of power engineering, he deals with larger rates of flow of electric currents and high voltages, and is concerned with the production, transmission and use of electric power. However, he does not confine himself to this, but is interested in his field from the coal pile to the reflectors surrounding lights, and the color of the walls in the rooms where the light are."

Selling and promoting the use of electrical apparatus were described by Prof. Hollister as among the less technical departments of electrical engineering. "Fifteen years ago, a man in a town in Illinois asked me if an electric motor was a practical thing—if it would work," he said, in explaining the former need for promotion engineers. "The sales engineer is concerned with two things, to sell the right equipment, and not to sell the wrong equipment."

Among the biggest fields for young engineers just graduated from college, according to Prof. Hollister, are public utilities, government service, and the employ of great companies such as the Westinghouse Electric Manufacturing company, and the General Electric company. "If some day you are called upon to take the chair of a president of some company, do not hold back. More engineers are taking financial positions every day, and their training is valuable to them in those positions," he concluded.

Miss Genevieve Addleman, '20, will appear in a Stuart Walker production, "The House of Job," in Lincoln and Omaha about Christmas time on a tour with her company. Miss Addleman has followed up her prominence in University dramatics with considerable success in the portmanteau plays of Stuart Walker.

DR. DEVINE WILL BE CONVOCATION SPEAKER TODAY

Subject Will Be "America Among the Nations"—Will Be Here One Week.

GRADUATE OF COLUMBIA

Former Editor of Survey—Was Red Cross Worker During the War.

Dr. Edward Devine of Columbia University, New York, will speak on "America Among the Nations" at convocation today at eleven in the Temple.

Dr. Devine is coming to Lincoln to conduct an institute—a series of lectures—for an entire week, for the Social Welfare Society. He has a fine reputation as a lecturer on historical and political subjects.

KOSMET KLUB PLAY DATE IS APRIL 24

Annual Farmer's Fair to Take Place May 5—Will Be Closed Night.

The 1923 Kosmet Klub annual musical comedy will be given April 24 at the Orpheum theater. The faculty committee on student organizations at its meeting Friday afternoon, granted the Kosmet Klub permission to use a mid-week night on account of the inability to secure the theater for a week-end night.

Former Nebraskan Editor Is Located In New York City

Merrill V. Reed, '14, formerly editor of The Nebraskan, is now located at 242 Madison Ave., New York City, with the Dartnell Corporation as associate editor in charge of the editorial work of their eastern office. The Dartnell Corporation publishes "Sales Management," the "Hardware Salesman," and other sales journals, the headquarters being in Chicago. For three years Mr. Reed was in sales promotion work with Brown and Bigelow, of St. Paul, one of his duties being the publication of their weekly sales magazine, "Business Builder." This was a valuable experience in preparation for his present position. Both Mr. and Mrs. Reed have always been interested in some form of journalism. It will be recalled that Mrs. Reed (nee Jean Burroughs) was for a time society editor of the "Star," and was connected with the "Ladies Home Journal." At present she is associate editor of the national organ of Delta Gamma.

Y. W. C. A. Staffs Will Have Dinner Thursday At Woman's Building

A dinner for all Y. W. C. A. staffs will be given Thursday evening at 6 o'clock at Ellen Smith Hall. A general get-acquainted time and an outline of plans for the year are the objects of the dinner. The affair will be concluded by 8 o'clock.

Professor Cochran Will Talk Before Local Woman's Club

Professor Roy E. Cochran has been asked by the Lincoln Woman's Club to lecture to the History Division of the American Revolution. This will be the second year in succession that Professor Cochran has been asked to give his series of lectures. Last season he talked on various subjects of importance in Modern History.

JOHN R. DYER. John R. Dyer, Dean of Men at Kansas University, will address the members of the Y. M. C. A. at a banquet Wednesday evening. Dean Dyer served as a lieutenant in the late war and is one of the most popular men on the K. U. faculty.

DEAN OF KANSAS MEN AT Y.M.C.A. BANQUET

Several Other Good Speakers on Program—Dean Dawson to Be Toastmaster.

John R. Dyer, Dean of Men at Kansas University, will speak to the members of the University Y. M. C. A. at a banquet Wednesday evening at 6:15 at the Grand hotel, Twelfth and Q streets. Fred T. Dawson, Director of Athletics will introduce the speakers. Members of the cabinet will present a program of the activities of the coming year under the title of "The 'Y' in Nebraska."

Dean Dyer will take as his subject, "Why the 'Y?'" the campaign slogan used recently in the membership drive. This banquet was planned in order that the members of the Association could get acquainted with each other and the aims of the organization for the coming year. Carol Prouty, Chairman of the membership committee will be toastmaster.

Invitations and membership cards have been mailed to all members whose names have been turned in by the membership solicitors. There may be, however, some students who believe in the principles of the "Y" who are not members but who wish to join. These men will be heartily welcomed even though they did not receive invitations.

Dr. Blish to Speak At Chemical Society Meeting This Evening

Dr. Morris J. Blish, chemist of the Nebraska Experiment Station, will speak on "Flour and Wheat Chemistry," at the first regular meeting of the Nebraska section of the American Chemical Society for 1922-23. The meeting will be held Tuesday evening, October 17, at 8 in room 208, Chemistry Hall.

Dr. Blish specialized in the chemistry of flour while at the University of Minnesota, and is continuing special studies along this line since coming to Nebraska.

Dr. H. G. Deming, Professor of Physical Chemistry at the University of Nebraska will speak on "Reminiscences." Dr. Deming spent most of the summer in the east engaged in commercial work and attended the meeting of the National Society at Pittsburgh.

Nebraska Alumni Hold Big Banquet At McCook Meeting

Nebraska Alumni of McCook held a banquet Thursday noon with over 135 in attendance. The banquet was held in connection with convention of the Fifth district of the Nebraska Teachers' Association where a large number of former Cornhuskers were present. The building of the new Stadium was discussed and judging by the spirit shown, the McCook alumni are behind the movement 100 per cent strong.

Few Student Tickets At School of Music For Artist Course

Only a few student tickets for the Artist Course, '22-23, are left at the University School of Music. The prices are \$4.40, \$6.60, \$8.80. There are five numbers to the course, of which two of the most interesting are the recital by Geraldine Farrar, and the St. Louis Symphony Orchestra under the leadership of Rudolph Gand.

MUCH RIVALRY BETWEEN COLLEGES LAWS ARE THE FIRST TO FILL QUOTA

Students Respond in Splendid Manner to Stadium Drive Campaign—Number of Fraternities and Sororities Go 100 Per Cent in Drive—Not All Checked Up Yet.

DENTAL COLLEGE CLOSE SECOND TO THE BARRISTERS

Collect \$40,000 of \$90,000 Quota on First Day—All Committee Members Requested to Check in as Soon as Possible—Expect to Fill Student Quota Today.

HOW THEY STACKED UP AT 6 O'CLOCK MONDAY NIGHT.

Table with columns: Pos., College, Quota, No. of Units, Pledged, Per. Lists various colleges and their progress towards the stadium quota.

On account of the large enrollment in the Arts and Science College, all people registered in this college, who have not done so, are requested to subscribe voluntarily at the booth in front of "U" Hall.

FRENCH FELLOWSHIPS OFFERED TO STUDENTS

Society for American Fellowships Makes Annual Announcement and Rules.

Fellowships offered by the Society for American Fellowships will be open to the graduates of American colleges and other suitable candidates, not to exceed fifteen, for the purpose of encouraging advanced study and research in French Universities during 1923-24.

The fellowships, of the annual value of \$200 and \$300 francs, are granted for one year and are renewable for a second year. They may be awarded in the following fields of study:

Agriculture, anthropology, archaeology and history of art, architecture, astronomy, zoology, botany, chemistry, classical languages and literature, criminology, economics, education, engineering, English language and literature, geography, geology, history, law, mathematics, medicine and surgery, oriental languages and literature, philosophy, physics, political science and international law, physiology, religion, romance languages and literature, semitic languages and literature, slavic languages and literature, sociology, zoology.

Fellows will be required to sail to France not later than July 1 of the year in which the award is made, to matriculate in a French University for the following session, and to pursue studies in the field of science designated in their awards. They will be expected to send accounts of their studies with reports of their progress from their instructors.

Qualifications of Applicants. Applicants must at the time when an application is submitted be citizen of the United States and between twenty and thirty years of age, and must at the time of application be:

- 1. Graduates of a college requiring four years of study for a degree, based on fourteen units of high school work; or
2. Graduates of a professional school requiring three years of study for a degree; or
3. If not qualified in either of these ways, must be twenty-four years of age and have spent five years in an industrial establishment requiring technical skill.

Applicants must be of good moral character and intellectual ability, and must have a practical ability to use French books.

Documents Required. Applications must be made on application blanks furnished by the Society and must be accompanied by: 1. A certificate of birth; or an (Continued on Page Three.)

An old rivalry has been revived in the Stadium campaign.

The College of Law and the College of Dentistry are out for blood to gain the leadership in the race to see which college surpasses its denoted total the highest.

Monday night at 6 o'clock, the Laws were leading by a mere 5 per cent. The Laws reported 146 pledges, twelve more than their total of 134. That gives them a percentage of 108.9 and sends them out as leading the school.

The Dents were close on their heels. At 7 o'clock George Snaith, Dent chairman, had 76 pledges for a percentage of 76 per cent. He lined his committee up and at 9 o'clock he came rushing in with the additional pledges to take the college across the 100 per cent mark by four pledges.

The Dents have been a part of the University of Nebraska but a short few years and students of the college, by virtue of its distance from the campus proper, some times feel that they are not an exact part of the University. Their action Monday in passing their quota before most of the colleges had gotten a good start puts them solid with the entire school, makes even the Laws look up to them as a serious rival for college spirit.

Delta Sigma Delta, dental fraternity, had gone over the top in the Stadium pledging by noon Monday. Phi Alpha Delta, law fraternity which maintains a house, was still a little short of its mark Monday night.

With a percentage of 108.9, the College of Law Monday night led the race in the contest among the colleges to raise \$90,000 from the ranks of their students as the booming starter toward the building of the Memorial Stadium to be built within the next year at a total cost of \$420,000. Following the completion of the campaign to pledge 3,600 units from among the students of the University, the alumni and interested friends will be asked to raise \$340,000, or 13,600 units. The Laws went over the top in the big race, reporting pledges totaling 146 units out of a quota of 134 units and topping their money total of \$3,350 by \$390.

Closely trailing the College of Law was the College of Dentistry with 104 units raised. The Dents promise to report more units by early Tuesday morning and with an equal start in the race claim they would have beat the Laws. The Lawyers started campaigning late last week and before the Monday morning classes were
