## Revival of Class Debating Will Be Started This Year

Delta Sigma Ebo, honorary debating fraternity, will attempt the resurrection of class debates in the University. Prof. M. M. Fogg has sent a letter to the class presidents asking them to appoint committees to take the lead in reviving these contests. There have been no inter-class debates since 1916.

After the committees are appointed they will meet with Professor Fogg to choose a question for the contests. Tryouts will be held in each class and a team of three chosen to represent the class.

The first series of the debates will be held during the first part of the year. It has been customary in past years to stage the championship debate on Phi Beta Kappa morning in May.

## What IS the "Right to Work" Law? (Anti-Picketing Law)

to be voted on, Election Day Nov. 7, 1922

It is a law passed by the Nebraska Legislature at its last session to protect people who want to work and earn a living instead of "going on a strike," during labor controversies.

But the law was referred to a vote of the people by petition of a small per cent of the voters, and thereby suspended, and it is now up to you and all the voters to say on election day, November 7, that this law shall stand.

### TAKES AWAY NO RIGHTS

- It DOES NOT take away any lawful right of any person, group, or class.
- It DOES NOT take away or limit the right of workers to strike whenever they choose.
- It DOES NOT prevent strikers from freely advocating their cause in a lawful manner.
- It DOES NOT prevent striking employees from talking to working employees for the purpose of persuading them to leave their employment, provided they do not compel and force workers to listen against their will.

### WHAT THE LAW DOES DO

It says that the right to work is just as sacred as the right to strike—no more and no less. It says that men who strike must respect the rights of those who want to work and must not "run them off the job" by any of the following methods:

- By using degrading, offensive or abusive language towards workers or their families; by PERSISTING in talking to, following or intercepting workers, or their families, AGAINST THEIR WILL; or to menace, threaten, intimidate or frighten such persons; or to commit an assault upon such persons; or to loiter about, picket and patrol the place of work, business or residence of workers, their families, or their employers, for the purpose of intimidation and unlawful coercion.

This law says that strikes in Nebraska must be conducted in the American way—on their merits—without force, terrorism, intimidation, violence and without infringement of the rights of citizenship.

By voting "yes" on this law YOU will take a stand for LAW and ORDER and American fair play and the right of law abiding persons to work at honest labor without being subjected to abuse, intimidation or injury.

NEBRASKA MANUFACTURERS ASSOCIATION.

This Law Will Appear On the Ballot Like This:

"This act prohibits any interference with any unwilling listener working, or seeking work, by threats, intimidation or persistent communications designed to influence such persons from continuing in, or seeking employment. It prohibits picketing, or loitering about a place of business, or residence, against the will of the proprietor for the purpose of interfering with the employment of any person therein, or with any lawful business."

VOTE "YES"

- No. 312 YES
- No. 313 NO
