HIGH SCHOOL MEET IS NOW IN PROGRESS

Home High School Cross Country Meet Is Being Held Between November 1 and 10

The high school home course cross-country run which is to be run off between the first and the tenth of this month is started in this state now, Coach Schulte says, "I do not expect a good many entrants this year because it is a new thing not only for Nebraska but for any state. I am inclined to think it will be very satisfactory this year and greater as the years go on."

This run offers a good opportunity for the man who is not taking football to get out for a good fall sport. Any man is eligible to this meet who fulfills the requirements of the High School Athletic Association with the exception that no football players are allowed to enter, for it is thought that one sport is enough for a man to be in at one time.

The distance of the course is two miles over the most nearly level country road that can be found in the vicinity of each school. Each school is to be represented by its three best men. There will be several individual medals given, and a banner for the best team.

Schulte has heard of about a dozen schools that are going to take part, and expects others. He says that some of the schools will be afraid their men are not performing well enough, and therefore will not send them out.

Schulte says, "I'm confident that cross-country running this year will produce new records in most every group; especially in mile, half mile, and quarter mile in the state championships of next spring."

Utah University Is Poorest Per Capita Of Western Schools

The University of Utah is the poorest of all western state universities, according to statistics given out recently by President Thomas. It has the smallest income per student of any of them; included in this are state and federal appropriation, endowments, and miscellaneous sources.

Some universities though receiving small governmental appropriations, have endowments from wealthy citizens, or else they obtain extra revenue in other ways. For instance the University of Wyoming receives much from the development of oil lands in that state, and as a result has a very large amount to expend per student. Something like this seems to be almost necessary, if a university is to do properly what is intended, since state appropriations together with that received from tuitions have in many cases proven so inadequate.—The Utah Chronicle.

Using a Blind

Izzy: Where did you get the new window blind, Ikey?

Ikey: Ah, my customers gave it to me, my friend.

Izzy: But mine never gave me anything. How did you do it?

Ikey: Well, you see, I put a collection box in the front of the store with a sign "For the Blind."—Virginia Reel.

Jane: "How did you act when you saw Bob this morning?"

June: "I gave him the geological survey."

Jane: "In other words—?"

June: "The stony stare."—Sun Dial.
