**GRAPPLING TEAM TRIMS HAWKEYES ON IOWA'S FLOOR**

Nebraska Wrestlers Go into Fourth Place in Conference by Victory Over Iowans.  
 SCORE OF MEET IS 15-8  
 Captain Troutman and Renner Go Thru Season Undeclared—Reed Wins Decision.

Nebraska jumped to fourth place in the wrestling conference standings when the Husker matmen trounced the Hawkeyes 15 to 8 at Iowa city Friday night. This is the last dual meet of the season.  
 Captain Troutman, light-heavy, and Renner, heavyweight, have gone throughout the season undefeated. Troutman defeated James in the Iowa meet by a decision. His advantage at the end of the twelve minute bout was not sufficient to give him the match, and the bout went to two extra two-minute periods.  
 Renner threw Heldt, Iowa, by a decision. He had a time advantage of nine minutes and eighteen seconds behind his man at the conclusion of the bout.

The much-touted Pfefer, who previous to the Nebraska tussle, had not lost a match, fell before Probst to a decision. The Husker 115 pounder has been performing in good style this season. The only match he lost went to Dickerson of Ames, who was intercollegiate champion last year.  
 Lane, of Iowa, won the only fall of the evening when he threw Itman in four minutes and fifty-five seconds. Lane put the shoulders of his man to the mat with a scissors.

The Jacobson-Pickwell match in the 145-pound division, went to extra periods. Jacobson was saved from a fall at the hands of Pickwell by the gong, but the Iowan had a time advantage, giving him the match by a decision.  
 Kellogg defeated Uggisberg, Iowa featherweight, by a decision. He had run up an advantage of four minutes and fifty-four seconds at the end of the bout.  
 Reed outclassed Voltmer of the Hawkeye squad with an advantage of ten minutes and forty-three seconds.

**"RACKETY PACKETY HOUSE" DRAWS BIG CROWD AT TEMPLE**

A capacity house greeted "Rackety Packety House," a Frances Hodgson Burnett play which was given Saturday afternoon at the Temple, the Children's theatre.  
 The play was under the direction of Miss Irma McGowan, a senior in the dramatic art department of the University of Nebraska. Miss McGowan deserves much credit for her painstaking directions, and her clever ideas as to scenery and costumes.

The cast was made up entirely of children, a fact that appealed strongly to the child audience and the few grown-ups there as well.

The story was all about a little girl who had an old doll house, called the "Rackety Packety House," and when she was given a new doll house called "Tiny Castle," she forgot all about the old one, and treated the dolls shamefully. But they were happy just the same, so happy that they aroused envy in the heart of little Lady Patricia who finally fell in love with Peter Piper of the Rackety-Packety house. With the aid of a good fairy and her assistants things turned out beautifully, and Peter Piper and Lady Patricia, a doll from Tiny Castle were married and lived happily ever after.

The children in the cast were:  
 Old Nurse, Miriam Richardson; New Nurse, Nancy Corsman; Queen Cross Patch, Jane Edwards; Trip, Dale Harm; Ekip, Frederick Paine; Nip, Robert Storer; Cynthia, Sophia Webster; James, Harold Felton; John, Ralph Ireland; Mag, Pearl Swenson; Peg, Thais Furr; Gustbis, Robert Lantz; Peter Piper, Horace Munger; Kilsmanskeg, Mary Davis; Redikills, Margaret Lawlor; Lady

Gwendolyn, Margaret Clapp; Lady Doris, Jean Kirkpatrick; Lady Muriel, Virginia Foster; Lord Hubert, David Loveland; Lord Francis, Blois Wolcott; Duchess, Virginia Sanford; Lady Patsy, Winifred Cook.—Lincoln Star.

**PROFESSOR JOSHI OF INDIA TO TALK AT CLUB DINNER**

Prof. S. L. Joshi, exchange professor for India at the University of Nebraska, will address the Knife and Fork club at a dinner given by members for their wives and friends Thursday evening at the chamber of commerce. Dr. Joshi was the first exchange professor between the United States and India and is the first Hindu graduate of Columbia. Dured for addresses at New York, Buffalo, Cleveland, Cincinnati, Detroit, Omaha, Lincoln and Toronto during the next three weeks he is scheduled for Quebec, Canada. Reservations for the dinner must be in by 6:30.  
 The regular monthly meeting of the club will be held Wednesday noon in the west balcony of the chamber of commerce.

**Dean LeRossignol and Miss Howell Are to Speak to Radio Fans**

Miss H. Alice Howell, professor of elocution and dramatics of the University, and Dean J. E. LeRossignol, of the College of Business Administration, will be the speakers over the University Radio station this week the former to speak on Tuesday evening and the latter to address the radio "fans" on Thursday evening on "Social Economics."  
 Members of the dramatics department will furnish the program for the Tuesday evening broadcasting, until further notice, according to information from the University Extension division, under the direction of which the radio programs are sent out.

**Engineers to See Electrical Films**

Two moving picture films will be shown at an open meeting of the student branch of the American Institute of Electrical Engineers in room 110 of Nebraska hall, Wednesday night, March 14, at 7:30.  
 "The Telephone Story" is the first, a semi-popular picture. "Audion" is the second. It describes in a semi-technical way the preparation of the vacuum tube now universally used in radio sending and receiving sets.  
 The films are provided by the Northwestern Bell Telephone Company of Omaha, and by the American

Telephone and Telegraph Company of New York.

**Braces for Children Made in School Shop**

All of the braces worn by the children in the Bradley Memorial hospital suffering from orthopedic diseases and many other utensils and apparatus of unusual design that are required by the University of Wisconsin Medical school are now made in the shop of the mechanician of the departments of pharmacology and physiology of the University.

The shop, of which J. S. Hipple is chief mechanician, employs four workmen constantly. No utensils or apparatus of standard make are made in the shop, but new developments in the work of the Medical school call for new utensils and apparatus that cannot be purchased. Many ideas for utensils and apparatus of original design that are worked out by members of the Medical school are developed by the mechanician into finished products.

When the work on the braces for the children first started, two years ago, just the metal braces and apparatus were made in the shop. Gradually, however, the leather work, sewing, and celluloid work were taken over. Ordinary shoes worn by the children are purchased but special heels or soles that are needed are made in the university shop.  
 Plaster casts of the feet of the children are made in the shop; so that the needs of the feet can be carefully studied and braces made to remedy the defects.
