

## PROF. WYER ATTENDS LIBRARIAN CONVENTION

Will Make Report on "Library Training" at Annual Conference of Association.

"Library Training" is the subject of a committee report that will be made to the forty-fifth annual conference of the American Library Association at Hot Springs, Arkansas, by Prof. Malcom G. Wyer, librarian at the University of Nebraska. At the conference, which opened April 23 and will close April 25, every phase of library work will be discussed. The American Library Association is made up of nearly 6,000 librarians, and has for its purpose the promoting of education through libraries. One of the problems for consideration at the conference was how to bring books within the reach of the 60,000,000 people still without access to public libraries.

One of the features of the conference will be the presentation of the Newberry Medal for the most distinguished children's book of the year. Last year's winner was Prof. Hendrick Willem Van Loon, author of "The Story of Mankind." The winner for this year will be present at the Hot Springs Conference as a guest of the Children's Librarians section, by whose votes the winning book is selected.

Other national organizations meeting with the American Library Association are: American Association of Law Libraries, Bibliographical Society of America, League of Library Commissions, and the National Association of State Librarians.
