CORNHUSKERS DIVIDE SERIES WITH TIGERS

Nebraska Nine Wins from Missouri Friday But Loses in Second Contest.

The Cornhuskers again maintained their custom established in games so far this season by dividing the honors with the Missouri Tigers in the two games this week-end. Nebraska took the first battle 5 to 4, and then on the next day lost easily to the invaders 9 to 5.

At Rock Island ball park Friday the Tigers swept the Huskers off their feet at the opening and the score stood 4 to 1 at the opening of the sixth inning after the latter had failed to score for four stanzas. Then with the bases full Lewellen of Nebraska connected with a two-base hit and the score was tied. Hubka, whose home run in the first had opened the game, brought in the winning run on Janda's two-bagger.

Lewellen, notwithstanding an injury he sustained in practice, during the week, pitched the opener. He was not accorded the support given to Regan of the Tigers.

The Saturday contest was played at the Ag college in connection with the Farmers' Fair program. Knights of Missouri lived up to the advance reports which were circulated about him after he was absent from the Tigers' mound in the two previous games with Nebraska. Peterson and Tipton, pitching for Nebraska, allowed eleven safeties, three of which were stretched to three-baggers.

The game was a much poorer exhibition of ball than on the previous day. Four errors were recorded against the visitors and five against the varsity. Indifferent fielding on the part of the Huskers was partly responsible for the score.

Nebraska started the game off in fast style, recording two runs. When Peterson allowed four hits which brought in three Missourians he was replaced on the mound by Tipton. An attempt at a comeback by the Varsity in the fourth was a failure.

ACTUAL EXPERIENCE IS AG REQUIREMENT

Two Years of Real Farm Work Is Needed to Get the Smith-Hughes Certificate.

Juniors in the College of Agriculture are reminded of the requirement of actual farm experience, in a letter from Dean E. A. Burnett of the college. The letter reads:
"The Dean of the College of Agriculture wishes to call attention of all agricultural students to the farm experience requirement for graduation. Two years of practical farm experience is required to secure a Smith-Hughes certificate. Six months actual farm experience is required of all men graduating in agriculture.
"All agricultural students who do not live regularly on a farm should comply with the above requirements before beginning the senior year.
"The chairman of the department in which the student majors will be glad to assist students in finding suitable places for summer work.
"(Signed) E. A. BURNETT,
"Dean of College of Agriculture."
It is estimated that \$150,000 is saved annually by the work of the College of Agriculture in reclaiming run-down orchards. This is based on the increased yield as a result of the pruning and spraying work. Many large run-down orchards which were not paying expenses have been entirely reclaimed and put on a profitable basis through the aid of the college.

"A GREAT ACTOR IN A GREAT PLAY"

Otis Skinner Appears This Week at Orpheum

The approaching visit of Otis Skinner in his greatest comedy success, "Mister Antonio," at the Orpheum Theater for matinee and night on May 9th marks an event of unusual importance in the local theatrical season.

In his many years of stardom, Mr. Skinner has brought to the American stage an imposing number of brilliant characterizations, each one of which has left its lasting impression on the minds of those theater-goers who were fortunate enough to have seen it. Some devotees like to remember his performance in "Francesca di Rimini," others refer to "Kismet," "His Grace de Grammont," "The Honor of the Family," "Your Humble Servant," "Cock O' the Walk" and a long list of other favorites, while many prefer their delightful memories of Mr. Skinner's "Hamlet," "Romeo," Richard III, "Shylock" and other famous Shakespearean characters. It is because of his flawless interpretations of these characters—to each one of which he has brought

the full perfection of his art of acting—rather than to their diversity, that Otis Skinner has held for so many years the foremost position on the American stage. It has been the immutable rule of his stage career to give to each characterization all that he possesses of art, talent and intelligence, backed up by his years of exceptional experience.

His present play "Mister Antonio" is a delightful comedy of cheerfulness which was written especially for Mr. Skinner by Booth Tarkington. In the role of Antonio Camradonio, a happy-go-lucky Italian organ-grinder, Mr. Skinner has found a part which suits him perfectly, and one which the theater-going public has taken eagerly into its highest favor.
