

HUSKERS GIVE IRISH DECISIVE DEFEAT IN HARD FOUGHT BATTLE
(Continued from Page 1)

when she had taken the ball in the middle of the field and forward passed her way to a touchdown. Only once before had she threatened the Husker goal. In the second quarter she was on the Husker eight yard line and the varsity line held and took the ball on downs. Lewellen's kick placed the ball almost out of sight of

the goal and when the half ended, the Huskers were in possession of the ball on the 40 yard line.

The playing of Captain Lewellen and Dave Noble were the outstanding features of the game. Lew's generalship and the manner in which he handled the team were largely responsible for the victory. His toe made many yards for the team in exchange of punts, his kicks averaging over fifty yards.

Big Dave's line plowing and end running never faltered through the

game and it was he who smashed through the Notre Dame line in the second quarter for the first counter of the game. On an off tackle play he hit the line and went twenty yards, leaving a string of attempting tacklers lying on the ground. It was also Noble who jumped up in the air and speared Rufus Dewitz' pass and planted it safely behind the Notre Dame goal for another six points. H. Dewitz kicked goal for another point.

The Dewitz brothers acted as if they were celebrating some kind of an event. Herb had no consideration whatsoever for the visiting line and his driving power completely shattered it on almost every play. Rufus made some nice end runs by simply outstepping the wizards from Notre Dame. His defensive work was remarkable.

Robertson, who was inserted into the Husker lineup at the start of the contest, played his initial game and his work was that of a veteran. Meyers, whose place he was holding, was suffering from injuries received in practice. Rhodes, Robertson's running mate at the other wing, broke through and downed the opposing backs for several losses. Recovering a fumble Rhodes ran seventy yards, putting the ball within three yards of a touchdown. He fumbled, how-

ever, when tackled, and Notre Dame recovered for a touchdown.

Berquist and McGlasson at the guarding stations were putting up a stone wall defense as did Bassett and Weir at tackles. Each of these men broke through the opposing interference and threw ball luggers for losses on several occasions. Hutchison, facing Notre Dame for the first time in his career, played a splendid game making every pass accurate. His defense was good.

Coach Schulte in a statement after the game said, "This is more evidence of fraternity spirit—football spirit plus University of Nebraska spirit."

The first quarter was a punting affair between Captain Lewellen and Fullback Layden, with Lew holding the punting honors. The second quarter featured some real football thrills. Noble's and H. Dewitz' line smashing was a demonstration of real football. The forwards made the holes and the interference cleared the remaining obstacles. The third quarter revealed the same play that was the deciding factor in the Notre Dame-Nebraska game last year—Noble spearing a pass and running to a touchdown. Last year he took it from Captain Chick Hartley who was playing fullback and this year from Fullback Rufus Dewitz. With but three men in the lineup that started

the game for Nebraska the visitors passed themselves to their only touchdown.

New York University announced this week that with the approval of

President Coolidge, Secretary of War Weeks, and Secretary of the Navy Denby, it had installed the first course in aeronautical engineering and aviation to find place in the curriculum of an American College.

You Ideal for a New Car.

Everyone has an ideal automobile in mind. Each one wants a good engine first of all, one that they can depend upon to hit on all cylinders under every sort of conditions. Then too the car must have a beautiful appearance, for you know that you want a certain symmetry of line that is not found in every ordinary car. Another thing of utmost importance is the comfort and riding qualities. No one likes to be jounced and bumped about so this matter of springs is worthy of your serious consideration. As you take the wheel you want that feel of trustworthiness, that the brakes and clutch are responsive to the slightest pressure. It is rare that one can find such an ideal but you can do just that if you buy a 1924 Buick. That is the car that embodies speed, power, beauty and fine workmanship. That is the car you want.

Do you know Happy Joss? He is the god of all good things for he brings wealth, prosperity, long life and great joys. The Orientals believe troubles and sorrows burn away in incense offered to him. He is particularly fond of the new orange blossom incense which has imprisoned all the delightful odor of the orange blossom itself. You can make his acquaintance and find this new incense at Rector's Pharmacy.

Preparedness for Christmas.

When you have a little time that you don't know how to use, just do what I did this week. Drop in at George Bros and do some early Christmas shopping. I didn't have a list but made one out there. There was the best looking humidior for tobacco and cigars that I am getting for my dad. There are lovely ivory plaques which make fine gifts to any one who appreciates something artistic. The Mah Jong sets are a joy forever. They have a great range of prices and you are sure to find one to suit your purse. There are all sorts of accessories as well. If any one is looking for something for me, a feather pen is just the thing. A rose one in a little jar of Steuben glass would be perfect. Of course, I want one of the enameled dories. They are positively the loveliest ones
