ANNUAL BANQUET IS NEXT FRIDAY
(Continued from Page 1)

tume party at the Armory and will be a closed night for both Cornhusker festivities.

The Scottish Rite Temple has been selected as the scene of the banquet in order to accommodate the expected number of loyal Cornhusker attendants. Green Goblins have been given full charge of the decoration of the Temple. It is planned to have the gathering in the form of a farewell meeting for the football men who played their last game for Nebraska Thanksgiving day. The banquet will also celebrate the winning of berths on mythical grid elevens by Nebraska players.

The Cornhuskers banquet is one of the most cherished of Nebraska traditions and for that reason all fraternity houses have been asked to close their tables on that evening in order to assure a large turnout. The banquet is held every year at the close of football season.

Ag Engineers Hold Series of Meetings

A series of meetings of the American Society of Agricultural Engineers will be held during the remainder of the school year. The greater portion of the time will be taken up with reports to be given by members on some phase of Agricultural Engineering.

The University Agricultural Engineering building, which is located on the Ag campus, is one of the largest and best equipped of its kind. Membership in the society is open to all students who are taking work in this department.

Prof. R. A. Emerson of Cornell University is to be in Lincoln a few days before Christmas vacation. Dr. Emerson is at present head of the Department of Plant Breeding where he has attracted a great deal of attention among scientific men during the past few years. He was for many years head of the Department of Horticulture in the University of Nebraska. Dr. Emerson is enjoying a sabbatical year and plans to spend a major portion of the year in South America. While visiting relatives and friends in Lincoln Dr. Emerson will give a lecture before the Botanical Seminar of which he has been a member for many years. Before sailing for South America, Dr. Emerson will attend the scientific meeting at Cincinnati, Ohio, late in December where he will read the presidential address before the Society of American Naturalists.

The Botanical Seminar is probably the oldest departmental club for students in the University, being organized in 1886. Such prominent Nebraskans as Roscoe Pound, Dean of Harvard Law College, Albert F. Woods, President of the University of Maryland, and Herbert J. Webber, Dean in the University of California, assisted in organizing and promoting the Seminar.

"Fight" Meant Sacrifice of Life to Jack Trice, Ames Negro Tackle

"Fight, team, fight!" How often that yell has rung out across a grid-iron with all the strength of the on-lookers, thirty thousand strong, in back of it. How often it has put new vim, new life, into the players because they know the true meaning of "fight."

This meaning to the player is fully illustrated in a letter which was written by Jack Trice, colored tackle on the Ames team, the night before the Ames-Minnesota game.

In this game, the first in which Trice played on a college team, he received fatal injuries, and the following letter was found on his clothing after his death:

"Minneapolis, Minn.,
"The Curtis Hotel,
"October 5, 1932.

"To Whom It May Concern:
"My thoughts just before the first real college game of my life:
"The honor of my race, family, and self are at stake. Everyone is expecting me to do big things. I will. My whole body and soul are to be thrown recklessly about on the field tomorrow. Every time the ball is snapped I will be trying to do more than my part. On all defensive plays I must break through the opponents' line and stop the play in their territory.

"Beware of mass interference. Fight low, with your eyes open and towards the play. Roll back the interference. Watch out for cross bucks and reverse end runs. Be on your toes every minute if you expect to make good.

"Jack."

Jack Trice went into the game with the idea that he would fight with every ounce of his strength. He went into the game knowing that he must give his best, and he gave his all. Jack Trice paid the supreme sacrifice.

That is what "fight" means to the football player.

Miss Walker will read a very interesting paper on "The Discharge of Spores from Fungi", in which she outlines several new discoveries. Dr. Weaver has prepared a paper on "Direct Measurement of Water Loss Without Disturbing the Normal Structure of the Soil." Professor Sears will take part in the symposium of vegetation on Ohio and will read a paper on "The Pollen Degeneration" before the Genetics section.

ILLINOIS: The University of Oregon is among the first schools to accept the challenge of the Illinois women's rifle team for a match after February 1. Twenty challenges were sent out last week to most of the representative universities of the country.

Leland Stanford University of California and the University of Iowa sent their "regrets," as they are not training their women in that line.

ILLINOIS: The University of Illinois was disturbed last week by an appalling wave of dental trouble. A great many students found it necessary to meet appointments with the dentists in their home town during Thanksgiving vacation. Others were called away to attend weddings or funerals, but the University officials in most cases were unsympathetic.

LOST—A Chi Omega pin. Call B1516—reward.

UNIVERSITY girls' rooming house, near campus. 2 rooms vacant, board. L7490.

FOUND—A small sum of money recently on Agricultural College campus. Dean's Office, Agricultural College.

The New United Church
(First and Plymouth Congregation)

President Ozora S. Davis
A Great University Preacher

At 10:30 at 17th and A
At 7:30 at 13th and L

Last Sunday every pew and available chair was occupied both morning and evening. We especially want students to hear this outstanding man and advise them to come early.

Student girls will meet Miss Appleby at 13th and L at 9:45 and the usual class at 17th and A will meet at 12. Student men at 17th and A at both hours.

The three Endeavor societies will unite at 13th and L at 5:30 for social hour and light eats and at 6:30 for their meeting and a brief talk from Doctor Davis.

Through the union of these two churches Congregationalism hopes to put on such a program for students as never before, and to secure ample equipment for this purpose. This is a great forward movement.

John Andrew Holmes, Pastor.
Mrs. Carrie B. Raymond, Musical Director

Your washing—

If sent to The Evans will come back at the time you want it and with that finished look that only our painstaking method can give.
