

**SHORT VACATION IS INVESTIGATED**  
(Continued from Page 1)

**Vacations at Other Universities.**  
The following are the comparative figures which have been corrected by the committee:

- Nebraska.**  
Opens September 20.  
Closes June 4.  
Days of school—209.  
Days of vacation—12.
- Minnesota.**  
Opens September 26.  
Closes June 18.  
Days of school—203.  
Days of vacation—26.
- Wisconsin.**  
Opens September 26.  
Closes June 17.  
Days of school—207.  
Days of vacation—21.
- Michigan.**  
Opens September 25.  
Closes June 18.  
Days of school—199.  
Days of vacation—26.
- Missouri.**  
Opens September 14.  
Closes May 31.  
Days of school—208.  
Days of vacation—15.
- Kansas.**  
Opens September 20.  
Closes June 5.  
Days of school—203.  
Days of vacation—19.

**Student Council's Letter.**

The following is the letter written by the Student Council to Chancellor Avery:

"To the Chancellor: The Student Council finds what it believes to be a serious discrepancy in the number of days for this year's Christmas vacation and desires to direct your attention to the case with a view to an explanation of the matter.

"Over a year ago the student body was called upon to vote upon a proposition as between vacations allocated first, with three days at Thanksgiving, six days at Christmas, including two Sundays, and three days at Easter; or second, with one day at Thanksgiving, eight days at Christmas including two Sundays, and three days at Easter.

"The latter proposal was adopted and is supposed to be in force this year. We find, however, that the vacation given for this Christmas includes two Sundays, two legal holidays and only six school days. According to the proposition presented it would seem that the students were clearly entitled to an additional two school days for this vacation. Such would only be within the terms of the proposition as stated to the students at the time the vote was called for.

"We believe that when the above mentioned vote was called for it was stated that without fewer days of vacation Nebraska credits would be given a less value at other schools, particularly eastern schools. In reply to our inquiries directed to the registrars at Cornell, Yale and Princeton universities we find that little difference if any is made according to the number of school days but more according to the work covered and included within our courses in comparison with their own.

"The council investigating committee has also directed an inquiry among other schools which rank high with the Mississippi valley in regard to this matter of vacations and attaches their report hereto. The chart shows a manifest discrimination against Nebraska students in their vacations.

"The council requests respectfully that it may receive an explanation of this apparent discrepancy, and some action in view to the extension of the present Christmas vacation as within the proposal presented to the students.

"THE STUDENT COUNCIL."

**INTER-CLASS RIFLE MEET TO BE HELD**

**Need More Entrants for Shoot Set for Thursday and Friday.**

Several have signed up for the inter-class rifle meet which will be shot Thursday and Friday. More entrants are needed and all those desiring to participate in the shoot should go to the gallery today and register, according to officials in charge.

There is no time for the firings on Thursday and Friday. Men may come up and fire during the day as their schedule of classes permits. The gallery is open every day from 9 to 12 in the morning and from 1 to 4 in the afternoon.

The inter-class meet will be held under as fair conditions as possible. No coaching will be allowed during the progress of the shoot.

Freshmen and Sophomores are in the lead in number of registrants, and the upperclassmen will have to extend themselves in order to win.

**Teams Limited to Seven**  
The teams are limited to seven each. There will be five shots per man in two positions only, the standing and kneeling. An extra large sized target is to be used.

The gallery this week except for the interclass meet Thursday and Friday is reserved for Freshmen who have not completed the required gallery rifle shooting, and they will be given preference over all others at the gallery.

Capt. Huskea states that it is very urgent that all freshmen should finish the gallery firing this week, in order that the gallery schedule may not be delayed next year. The number of shots required has been reduced to 30 on account of the new targets now in use, and it should not take longer than one hour to finish

LOST—Pair of horn-rimmed glasses in leather case, call B3523, reward.

LOST—Brown coat, taken by mistake, checked. B3907.

the entire requirement. The required shooting consists of five shots each in the six positions, standing, kneeling, sitting, squatting, prone.

Company I is the first to have all freshmen complete in the gallery requirement and there are a half a dozen other companies with only three or four freshmen incomplete.

Capt. Huskea wants all those in doubt as to their shooting to come up and see him, to avoid any possible misunderstanding.

**HUSKER STADIUM NEARLY FINISHED**  
(Continued from Page 1)

der the west stand to the Service department for its use until enough money is raised to complete the entire Stadium in the way that was originally planned. If the plan is carried out, the entire department can be put in this space and thus leave considerable room in the M. E. Building for class purposes. A number of old frame buildings scattered over the campus and used now by the department may also be removed. The plans for installing the service department call for an expenditure

of a little over \$76,000. This will include a cement floor for the area under the west stand, windows, lighting and heating for both stands and the fitting of the following rooms for the department; two gardener rooms, a mill room, a bench room, the University printing office, a paint room, a stores department room and office, and rooms for the shipping, receiving, and machine departments.

The space vacated by the service department in University buildings is valued at about \$43,000. Therefore the final cost of the installation of the department under the west

stand and the athletic department under the east stand will be about \$33,000. When the original plans for the disposition of this space can be carried out the service department will probably be moved to a building built for it exclusively. A wood block floor will be laid over the concrete, and the indoor basketball,

handball, and tennis courts installed and the indoor track built under the stands as was originally planned.

The first ballot-box used in Lincoln was given last week to the Nebraska Historical Society by Homer M. McKay of Seward, and may now be viewed at the museum of the Society.
