

UNIVERSITY PHONE BOOK IS PUBLISHED

Numbers of Departments, Student Activities, and Instructors Are Given.

A new 16 page telephone directory giving the phone numbers and addresses of all officially connected with the University, has just been published.

The first page contains prints of the University campus and the Agricultural campus, with the abbreviations names of all the buildings on each campus. The phone numbers and office numbers of the chancellor, the deans, and the recording secretary follow this page. Next, listed in alphabetical order, are the phone numbers of all the instructors, their departments and the buildings in which their offices are situated.

A departmental section contains names of all the departments and the

numbers of those connected with them. Dormitories, student publications, University Extension System, College of Agriculture, Student Activities, the Library, and various departments of the University are also listed.

A Sunday Morning Walk

"I hope it is true that Northwestern University has added walking to the student requirements. I pray that may be the action of every university, college and school in North America."—Dr. Royal S. Copeland, formerly Health Commissioner of New York, now United States Senator.

Let us suggest a Sunday morning walk to 17th and A Streets, where Dr. John Andrew Holmes conducts a service at 10:30 and Mrs. Carrie B. Raymond has charge of the organ and choir. If this walk is taken regularly every Sunday, it will do any student good in both body and soul.
