THE DAILY NEBRASKAN

Registration
January 7 to 12.

VOL. XXIII—NO. 72

UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, THURSDAY, JANUARY 10, 1924

PRICE 5 CENTS

STAGE SET FOR PAN-HEL FORMAL

Five Hundred Representatives From Greek-letter Societies to Attend.

FRATERNITY EMBLEMS TO BE DECORATIONS

Plans for the Pan-Hellenic formal have been perfected by the Kosmet Klub committee in charge and when the decorating and placing of fraternity emblems in the hall is completed everything will be in readiness for the annual party Saturday evening.

The committee in charge of the decorating of the hall announce that the decorations will be somewhat on the order of last year but with many added features. The entire lighting system will be furnished by the lighted pins and crests of the fraternities and sororities. The decorations will be representative of the Greek organizations in school, consisting of crests, pins, banners, and other emblems representing every Greek letter society. These decorations will be called for by a committee sometime Friday, and all fraternities and sororities should have their emblems in readiness.

Five Hundred to Attend.

Five hundred people, representing all the Greek organizations in school, will attend the party. The number of tickets was limited to 250 this year. All tickets have been sold and there have been calls for more. Positively no more tickets will be sold, according to the committee.

Music for the formal will be furnished by the combined ten piece orchestra which played for the military ball. A feature of the program will be music from the 1924 Kosmet Klub play, "The Wishing Ring."

The Pan-Hellenic formal will continue the old tradition of an annual all-Greek party. For several years, during the war, the old custom was discontinued but was revived last year by the Kosmet Klub. One of the purposes of the party is an increased acquaintance and a better feeling among the Greek organizations of the school.

The chaperones for the formal are Chancellor and Mrs. Avery, Miss Heppner, Dean and Mrs. Buck, Coach and Mrs. Schulte, Prof. Grumman, Major and Mrs. Erickson, Professor and Mrs. Barbour.

The committee desires that all people who have tickets that have not been checked in, check them in at once.

Sigma Xi Society to Hear Downs Lecture

Paul A. Downs, assistant professor in the Department of Dairy Husbandry, will lecture on "Some Research Problems in the Manufacture of Dairy Products," at the regular meeting of the Sigma Xi society to be held in the general lecture room of Bessey hall, January 15 at 8:00. The meeting is open to the public.

JUNIORS SHOULD HAVE PICTURES TAKEN SOON

No Photographs to Be Accepted After Time Limit Expires.

With but a few days remaining for juniors to have their pictures taken, the response to the publication of the names and the request that all photographs be taken as soon as possible, has been splendid, according to Robert F. Craig, editor of the 1924 Cornhusker. Calls for appointments are coming in rapidly every day and the orders are being taken care of by the Dole studio with ease. Any junior who has seen his name in the published list and has not made an appointment is advised to do so at once. The time limit will soon expire and no pictures will be accepted after that date, according to the staff.

The names of those juniors who are to make appointments today follow:

Dwight Merriam, Marc Merryfield, Archi Meston, Alden Metcalf, Austin Meyers, Edith Meyers, Virgil Michael, Gladys Miles, Albert Miller, Esther Miller, Gerald Miller, Otto Miller, Adah Mills, Francis Millson, Glenn Mincer, John Misko, Willard Montgomery, Virginia Morcom, Vilas Morford, Madge Morrison, Erroll Moss, Harry Moyer, Mildred Moyer, F. V. Moynahan, Henry Mueller, Jay Muhr, Cornelius Muilenburg, Carmen Muir, Dorothy Mutz, Douglas Myers, Mary Myers, Kathryn Neely, Chester Nelson, Mary Nelson, Hermias Neumann, Louise Newby, Cecile Newkirk, Anne Newman, Elener Nielson, June Nieman, Frank Nies, Leslie Noble, Warren Noggle, Emma North, Merrill Northwall, William Norton, Ella Nuernberger, Lucia Ober, Genevieve O'Brien, Augusta Olmsted, Arthur Olson, Olaf Olson, Sigfried Olson, Ferr Osherow, Helsing Ohlund, Oscar Osterlund, Myrtle Osthoff, Donald Othmer, John John Otley, Eulalis Overman, James Owens, Bloyce Packer, Francis Paige, Alfred Palmer, Mary Palmer, Edward Panek, Lucille Parks, R. H. Parsons, Nell Patterson, Robert Patterson, Louis Patz, Dorothy Payne, Juano Pelais, Frederick Pelz, Harold Perry, Erwin Perso, Carol Peters, Eleanor Peters, John Peterson, Wilbur Peterson, Hazel Pfander, Mervin Phelps, Ray Phelps, Helen Phillips, Victor Phillipson, Naomi Picard, Charles Pierpont, Glenn Pierpont, Laurena Piesshick, Otto Plack, Corrine Plass, Rosalie Plattner, Elizabeth Pleuk, Helen Pimpton, Lloyd Pogue, Warren Pool, Paul Popejoy, Elsie Poska, Franklin Potter, Leah Potter, Ellis Preston, Charles Prochaska, Marjorie Quinn, Vivian Quinn, Gus Quottroche, John Ransch, Mary Ralston, Gerald Randall, Ray Randolph, Herb Rathack, Helen Ray, Elizabeth Raymond, Grace Raymond, Edward Reed, Rex Reese, Irvan Renie, Lester Renstrom, Foster Reynolds, Helen Rhodes.

ARRANGE TO PRODUCE HELIUM AT NEBRASKA

Professor DeBauffre Given \$5,000 and Machinery for Research Work.

Helium, a non-combustible gas, valuable for use in heavier-than-air craft, will be produced at Nebraska in small quantities under the direction of Professor William L. DeBauffre, chairman of the department of mechanical engineering. He is a member of the board of helium engineers which has been experimenting with the gas for two years under the supervision of the government. As a result of his efforts and experience, \$5,000 and some special machinery has been allotted to him by the United States bureau of mines for further research work.

FIVE HUNDRED ATTEND DINNER ON AG CAMPUS

Event Is Staged in Connection With Organized Agriculture Week.

More than 550 people were served at the farmers family fun-feed staged on the Ag campus last night as a part of Organized Agriculture Week. The food, which was produced on the farm of the College of Agriculture, was prepared by the students in the home economics department.

Dean Burnett of the College of Agriculture spoke. The program included several fiddle stunts by Dr. Elish and Professor Flack, accompanied by Miss Swinston, two readings by Miss Stuhard, several selections by the Palladian, singers.

SPEECHES ARE ON TODAY'S PROGRAM

Discussions and Debate on Practicability of Tractor Included on List.

MEETINGS WEDNESDAY ARE WELL ATTENDED

Important addresses, a debate on the practicability of the tractor on the farm, various discussions, and a livestock banquet at the Lincoln Hotel will be included in the program for today in connection with the Organized Agriculture Week. The programs yesterday were well attended. The programs today include some of the major events of the entire week and promise to attract many interested persons.

The program for today follows: Mass Meeting—2 p. m. at Ag Engineering building. Address, "The Greatest Need of the Nation," by Alfred Vivian, dean of Ohio Agriculture College. Address, "Co-operative Marketing," by Aaron Sapiro, marketing counsel American Farm Bureau Federation.

Dairymen's Association—Dairy building. Forenoon: Business session. Address by Peder Pederson of Iowa Farm Bureau. Address by J. B. Fitch, Kansas Agriculture College.

Farm Equipment Association—Ag Engineering building. Forenoon: Debate, "Resolved, That the tractor is impracticable on Nebraska farms." Discussion of modern appliances on farms. Afternoon—1:00, Contests.

Hall of Agricultural Achievement—Agricultural hall. Forenoon: Business session and speakers.

Home Economic Association—Home Economic building. Forenoon. Address by Mrs. Lott. Address by Mrs. Perryman, president of Nebraska Federated Clubs. Address by Mrs. G. H. Wents, president of State Parent-Teachers Association. Address by Mrs. L. Davis, president of League of Women Voters. Afternoon—Demonstration of Home Care of the Sick.

Livestock Breeders Association—Judging pavilion. Forenoon: Exhibition of the college's prize winning stock. Several short and interesting addresses.

Poultry Show—City Auditorium.

Evening—Lincoln Hotel. 5:00—Annual business meeting of Nebraska Improved Livestock Breeders Association. 6:00—The livestock banquet.

Nebraska Cadets Go to Creighton Formal

Three representatives of the Nebraska Military department attended a formal dancing party held by the Creighton university cadet officers club in the Creighton gymnasium Tuesday evening at Omaha. Cadet Colonel R. F. Craig, Major James

MORE REGISTER ON WEDNESDAY

Weather Prevents Number From Being as Large as Expected.

EXPECT HEAVY INCREASE IN NEXT TWO DAYS

Figures for the third day of the early registration shows an increase over the registration for the first two days. The colleges were not anticipating any heavy rush before the third day. It is expected that Friday and Saturday will be the heaviest days of registration.

An estimate of the number of those registered in each college up to Thursday morning follows:

Agriculture 300
Engineering 260
Art and Sciences 5000
Teachers 375
Dentistry 54

Weather Delays Registration.

Due to Wednesday's weather a few of the colleges did not have quite as heavy a registration as they had had previously, and no registration was as heavy as had been expected.

There were over 900 students in the Teachers College last semester and they expect as heavy a registration this semester. There is no compulsory period of registration for Graduate students, and only a few of those have re-registered so far, there will probably be over 150 in the college this term.

Because of the conflict of the Organized Agriculture program at the Agricultural College this week, the students arranged their schedules January 3 to 5. Over 300 registered at that time. The classes at the Agricultural College start Jan. 28.

Method Started Two Years Ago.

The method of early registration was inaugurated two years ago, but until now it has not been compulsory. The new method was started in order to eliminate the long waiting lines before the offices of the advisers and deans. It was not compulsory the first two years but it proved so efficient that the new plan was adopted as the regular method of registration. There are more days in which the resident students can see their advisers and hand in their application blanks to their deans. The new students register at a later date, thus cutting down the long waits that were necessitated by the old system. This change has been welcomed by the students.

Miller and Captain Charles Horth were the Nebraska men attending. Clever military decorations and good music characterized the party, according to the officers present. A good many acquaintances made by Nebraska men at Fort Snelling camp during the past few summers were renewed.

Dignity and Beauty of No Avail To Calf When Students Call for Steak

Dignity that a fifteen months old calf might have obtained when he was announced reserve champion Galaway at the International Stock Show at Chicago and pride that he might have assumed with his knowledge of his fine personal appearance availed "Worthy of Otoo" not when visitors and students declared that there was to be beef served at the College of Agriculture fun-feed.

For many months the calf has been growing to beefhood. For one whole summer he feasted upon the greenest of grass and for the winter months he ate the choicest ground foods. At precisely the same hour every morning he was aroused

by the stable boy who curled his hair and carried his plump hips. His water was strictly pure. His food was carefully measured and recorded. Thus from the day that he was born in the herd of Straub Brothers at Avoca, Ia., until the day that he was prepared for the table by the home economics department, the royal "Worthy of Otoo" has lived and grown in luxury.

Appeals that he may have made for consideration of his worthiness to live and any disdain that he may have held for the platter are but memories for the prize youngster was announced as beefsteak with all the fixin's.

Big Sisters Urged to Answer Inquiries

According to members of the Senior Advisory Board, but fifteen of the Big Sisters out of the 200 that received the "Reminders for Big Sisters" have responded. Big sisters were asked to keep a copy and return it to the board by January 19. Members of the board urge that the answers be returned at once.

RECITAL OF "OTHELLO" COMES THIS EVENING

H. L. Southwick Gives Program Under Auspices of Players.

Henry Lawrence Southwick, distinguished orator and artist, will give an interpretative recital of Shakespeare's "Othello" at 8 o'clock tonight at the Temple Theater. Admission is 50 cents. Tickets may be had at the door.

Professor Southwick, who is president of the Emerson College of Oratory at Boston, is reported by newspaper critics to be one of the most brilliant and distinguished figures on the lyceum platform today. His tours have taken him all over the United States, and every place that he has gone, he has been enthusiastically received. He is declared to possess very unusual ability in the interpretation and presentation of the works of Shakespeare.

The University Players are responsible for bringing Professor Southwick to Nebraska.

TO GIVE LUNCHEON FOR NATIVE SONS

Will Be Part of Meeting of State Historical Association.

Nebraska's native sons and daughters will have a leading place in the program of the Nebraska State Historical Association at its annual meeting in Lincoln January 15. Native sons and daughters of Nebraska are asked to send their names, stating when their parents came to Nebraska, to Addison E. Sheldon, secretary of the Nebraska Historical Society. A list of the parents who come to Nebraska before 1890 is desired since that is the great dividing line in western history.

A luncheon to be given for the native sons and daughters will be one of the events on the program. Those able to attend will please send their notice to Mr. Sheldon as soon as possible. Mrs. H. H. Wheeler of Lincoln, daughter of Olivier P. Mason, first justice of Nebraska's supreme court, who is a native Nebraskan, will be the toastmistress. The general topic under discussion will be "The Relation of Native Sons and Daughters to Nebraska History." All members of the Nebraska State Historical Society and their friends may attend this luncheon if reservations are made through Secretary Sheldon by January 15.

R. O. T. C. WILL USE NEW GRADING SYSTEM

Beginning next semester a new system of grading will go into effect in the basic course military science classes. Attendance at drill which has until now counted 50 per cent of the final grade will not be counted at all in the future. Under the new system of grading, quizzes, recitations, and aptitude on the drill field will be the sole factors in grading. A grade of 80 in these will excuse a man from the final examination. Those making below 80 will have to take the final examination which will then count one-half of the final grade.

Cadets with a grade below 60 will be reported to the dean's office as incomplete. Two demerits will be given for an unexcused absence from drill. The drill hours must be made up. Six hours of unexcused absence will result in an incomplete, and more than that will make a condition in the course.

The new system of grading by laying stress solely on the class work, examinations and quizzes will raise (Continued on Page 4)

STADIUM MAY BE USED BY CHORUS

Plans Being Made to Present "The Elijah" in Open-air Theater This Spring.

400 VOICES NEEDED FOR MUSICAL EVENT

Nebraska's Memorial Stadium, dedicated to the men who lost their lives in the war, will not be used for athletics alone if present plans to present a pageant next spring materialize. A committee, composed of Lincoln music lovers, of the faculty, of members of the the faculty, and of alumni of the University is at work on a musical program that will be unique in this state and that will excel any dramatization that has ever been presented in this section of the country, according to one of the members of the committee.

At the present time, the plans are in an uncompleted state. The committee has decided that the oratorio will be presented in the stadium as soon as the weather is fit and that it will require at least a cast of 400 persons to present it. The dramatization of "The Elijah" is being considered and it is practically assured that that oratorio will be the theme for the pageant.

Mrs. Raymond to be in Charge.

Mrs. Carrie B. Raymond, who has had charge of "The Messiah" for a number of years and who is director of the chorus, will take charge of the music for the entire event. Mrs. Raymond also intimated that this presentation would be the first of a number of such dramatizations, operettas, or other musical presentations.

If "The Elijah" is presented, work will be started soon. Those who wish to take part will be asked to register for chorus and will be given special training. From the time that it is assured until the presentation, work will be done on the settings and on the details of final presentation. The orchestra will start practice soon and the committeemen will outline their plans for the gathering of material to offer the state an event that Mrs. Raymond classified as quite rare in America, being known to England alone.

ENGINEERS TO DISCUSS DISSOLUTION OF A. A. E.

Resolution of Executive Committee Will Be Considered at Convocation.

A discussion on the resolution made by the executive committee of the American Association of Engineers that the association be dissolved at Nebraska and that a new local organization be formed will be taken up in the January convocation of the Engineering College, at 11 o'clock this morning.

Dean William G. Raymond of the College of Applied Science, State University of Iowa, will deliver the main address of the convocation on "The Valuation of a Public Utility Property." He is an eminent authority in public utility matters and his address will be of interest not only to those in the Engineering College but also to the general public, which is invited to attend.

In the meeting this morning, the final course of action on the resolution will be determined. The executive committee's resolution follows: We believe that the Engineering College needs one general organization to bring together the men of all departments and cement the college together as a whole.

However, we do not feel that a national organization is necessary for this purpose. Neither do we feel that the American Association of Engineers is an organization particularly well adapted to the needs of a student society, for, in view of the rather heavy dues given to the national organization, little is returned to the student which will interest him in his college activities.

We believe that a larger general engineering society can be built up by being handled by each departmental society, each one being better acquainted with the men in its department, and better able to interest them than a larger, less closely knit organization.

Our suggestion is therefore that (Continued on Page 4)
