THE DAILY NEBRASKAN

Registration
January 7 to 12.

VOL. XXIII—NO. 73

UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, FRIDAY, JANUARY 11, 1924

PRICE 5 CENTS

STAGE IS SET FOR PAN-HEL

Decorations to Include Crests and Colors of All Fraternities.

TEN-PIECE BAND TO FURNISH MUSIC

Fraternity representatives for the Pan-Hellenic formal are asked by Kosmet Klub to aid in decorating the Scottish Rite Temple today. The committee will be at work during the morning and afternoon.

The chief attraction for university students tomorrow evening will be the Pan-Hellenic formal, to be held at the Scottish Rite Temple. Five hundred people will attend the annual all-Greek party, and the prophecy is that they will see the best party of the school year.

Decorations will represent every fraternity and sorority in the university. Every Greek organization will have lighted pins, crests, banners, and emblems there. Streamers and banners of fraternity colors will also be used in the decorations.

Music will be furnished by the combined ten piece orchestra which played for the Military Ball. A special number consisting of music from "The Wishing Ring," the Kosmet Klub play to be presented this spring will be a feature of the program. Other features not yet announced will add to the gaiety of the dance.

The Pan-Hellenic has been an annual affair of the university for many years. It has not always been a formal affair, however. In the early part of 1900 the party was held as a spring festival and the men wore white flannels. During the war the custom was discontinued, but was revived last year by the Kosmet Klub as a formal affair. The party will continue as the annual "frolic of the Greeks."

Too Many Tickets Sold.

In releasing the tickets for the Pan-Hellenic formal, more than 250 tickets were validated so that the sales campaign could be better handled. Through error a few more than the allotted number were sold. As a result of that error, members of the Kosmet Klub have announced that anyone wanting to turn in his ticket for any reason may do so and may have his money refunded. Ten tickets may be returned. They should see Art Whitworth.

FARM ORGANIZATIONS ARE MEETING FRIDAY

Many Farmers Attend Sessions of Organized Agriculture This Week.

Organized Agriculture will close its session Friday with meetings of several organizations. The session thus far have been well attended and programs have been heard by enthusiastic audiences. Despite the bad weather large numbers of farmers are staying for the remaining events on the program.

For Friday the program is:
Dairymen's Cattle Judging Contest.
9:00—At the dairy judging pavilion.

Farm Bureau Federation.
Forenoon—Reports of committees.
Afternoon—Election of officers and business meeting.
Rural School Patrons Association.
Forenoon—Reports.
Afternoon—General session and discussion.

Poultry Show.
City auditorium.

Freshman Cagers Resume Practice

Freshmen cagers will resume daily practice this afternoon after a day's lay-off due to a high school basketball contest held in the Armory last night. Coach Frank announces that scrimmages will be the call of the hour this afternoon and a tough workout is slated. It is likely that the freshmen will play preliminary exhibitions to the Varsity contests before the end of the season.

Iowa Dean Speaks to Engineers Here

Speaking on "The Valuation of Public Utilities Properties," Dean Raymond of the University of Iowa told the Engineers at a convocation in the Social Science Auditorium yesterday that "some consider it any business that is affected by public interest." Dean Raymond maintained that this was not entirely true, "for public utilities include banks and many other like businesses."

"Perhaps, as good a definition as can be found is that it is a service business, commonly considered to be a public function," he stated.

MANY JUNIORS HAVE PHOTOGRAPHS TAKEN

Generous Response of Third Year Students to Call for Cornhusker Photos.

Juniors are responding very well to the plan adopted by the Cornhusker of having them call the office for appointments for pictures in the yearbook. The number of juniors appearing for pictures is more than ever before. Out of 800, only about forty have signified that they will not have their pictures in the book.

No pictures of juniors will be taken by Dole's after Saturday, January 19. Juniors who desire their picture in the Cornhusker must have their proofs returned to the studio by that day. This ruling is caused by the fact that all mounting on the panels for the engraver must be done by Monday, January 21.

The following juniors appear on the list to have their pictures taken tomorrow. They should call the Cornhusker office sometime today and make their appointment.

Pictures to Be Taken Saturday.

Harriet Rhodes, Dorothy Rich, D. G. Richardson, Paul C. Richardson, Russell Richmond, Elizabeth Ricker, John Ricker, Frank Rider, Harry L. Rife, Ruth Ringland, C. J. Riordan Hele, Robb, Donald Roberts, Leone Roberts, Rob Roy Robertson, Helen Robertson, Rayl Henry Robb, Clyde Rollins, Noel Rorby, Ruth Rosenkrans, Edward Rosenquist, Isaac Ross, James Ross, Cleo Rumsey, Ruth Rundstrom, Arthur Rymes, Clarence Sabin, George Sacks, Rayburn Sampson, Bess Sanborn, George Sanburn, Ernest Sandstrom, Marian Schall, Lyman, Sheel, Maurice Shickley, Dare D. Schilling, Everett Scherlich, Roy Schinder, Anita Schlichting, William Schoonmaker, Vern Schopp, Marie Schubel, Amanda Schuff, Raph Schumacker, Kathryn Schwall, Hattie Schwenker, Kenneth Seefeld, Arden Scott, Frank D. Scriven, Nelle Searle, Mildred Seibert, Faunell Senter, Waldo Shalleross, Morris Shapiro, Gladys Sharrar, Winifred Shaw, Pearl Shawler, Raymond Shellenberger, John Shepard, Bernice Sherr, Maurice Shickley, Carl Shildneck, Eula Shively, Max Shostak, Harold Shultz, Walter Siebolds, Elsie Silver, Angeline Simeck, David Simmons, Otto Skold, Robert Sattery, Neal Sloan, Donald Smith, James Smith, Pearl Smith, Pete Smith, Ruth Smith, Seymour Smith, Fayne Smithberger, Paul Soderberg, Louis Somberg, Earl Sorenson, Andrew Soulek, Charles Sperry, Frank Starr, Herman Stastny, Edward Stemen, Gertrude Strong, Henry Strickland, Marie Struter, William Strong, Freeman Sunderland, Marion Surber, Raymond Swallow, Frank Swanson, H. Tdkhara, Ruth Tanner, Dorothy Taylor, Earl Taylor, Roy Taylor, Susan Taylor, Katherine Teany, Clyde Thomas, Cecile Thompson, Edna Thompson, Katherine Thornby, Lambert A. Tichy, Bernice Tillma, Floyd Tillotson, Milo Tipton.

Rodewald Writes for Chem Journal

The American Chemical Journal published by the American Chemical Society carried an article prepared jointly by C. W. Rodewald of the department of Chemistry here and Dr. Roger Adams of the department of chemistry at the University of Illinois.

The article was headed, "Arseno-Arylamino Alcohols." Dr. H. G. Deming and Dr. B. Clifford Hendricks contributed. "The Diffusion of Hydrogen Through Metals" for the same issues.

UNI STUDIO IS WELL EQUIPPED

Moving and Still Pictures May Be Taken—Building Nears Completion.

DR. G. E. CONDRA IS IN CHARGE OF WORK

The best equipped studio for still and moving pictures in this section of the country, situated in front of the Mechanical Arts building, is nearing completion. The small stucco building, formerly used as combination movie studio and garage, will be occupied by the studio.

The project will be under the direction of Dr. G. E. Condra, with Al F. Larrivee, formerly with MacDonald, as the photographer.

Only the work of taking pictures and developing the films will be done by Mr. Larrivee. The printing will be done by Mr. Manors in his room in Nebraska Hall.

The 1924 Cornhusker has made announcement that all group pictures after Sunday will be taken in the new university studio. Besides general University photographing, pictures for the state will be taken.

Equipment Is Good. Equipment for the new studio is the best obtainable. It now has two dressing rooms, various shading curtains, and a new dark room, besides the equipment already there. The lighting apparatus will include three Cooper-Hewitt Mercury tubes mounted on a stand, six 1500 watt electric lamps, and two arc lamps.

When the lighting system is completed, both still and moving pictures can be taken at night as well as in the day time. Other equipment will be added and before long it is predicted that University studio will be recognized as not only the best in the state, but as excelling any in this part of the country.

WESLEY FOUNDATION STARTS FIRST UNIT

House Being Built on R Street to Cost Approximately \$16,000.

The first unit of the plans for the Wesley foundation of Nebraska is the \$16,000 house being built between fourteenth and fifteenth streets on R Street for Dr. Harry F. Huntington, Methodist student pastor. Until the completion of the house, minor entertainments will be held at the parsonage.

The Wesley foundation, when completed will cost approximately \$35,000. It was originated last spring to formulate plans for the building of community centers at all of the larger institutions. Part of the money for the project is derived from funds raised by subscriptions taken in connection with the Nebraska Wesleyan two years ago.

MICHIGAN: Michigan with 96 delegates had the largest representation of all universities at the World Student Volunteer convention in Indianapolis.

Girls Commercial Club Holds Meeting

A contribution to the Student Friendship fund was discussed at the meeting of the Girl's Commercial Club held Wednesday at 5 o'clock. The treasurer's semester report was read and plans for defraying the expenses of Miss Lucinda Prince, who will be the club's guest in the spring were outlined.

Parliamentary drill will be included in the programs of the second semester. Committees were appointed to arrange for initiation and a party. Tentative changes in the constitution were discussed.

HUSKERS READY FOR KANSAS AGGIE TEAM

Nebraska Five Shows Up Well in Final Practice Thursday.

The stage is set and every hand is ready for first curtain in the big game tonight, in which the farmers from Manhattan will cross goals with the basket-throwing Cornhuskers in the Armory.

Final plans and advice were handed out by W. G. Kline, head basketball mentor, Thursday afternoon in the last practice. The team is in the best physical condition and is ready for a hard battle. A hard game is what it will be, because the Aggies are coming to Lincoln, full of that old fire that makes revenge "sweet." Not only to avenge their football defeat but to try and show Nebraska up in regard to the basket games last week. If the Aggies beat Nebraska their stock will raise about 100 per cent. They are panning on a raise of that amount.

Just who will start the game for Nebraska has not yet been established in Coach Kline's mind, or at least he isn't "putting out anything." He will probably start Captain Usher and Black at the forward stations with Goodson at center, and Volz and Tipton doing the back court work, or he may use Cozier at forward and shift Black to the pivot position.

The game tonight promises to be one of the fastest and hardest fought games of the season. The Aggies have shown their stuff in previous encounters this year and in the battles they have lost have been due to a bad start.

Presidents Asked to Meet Council

In adopting plans that will allow all the important organizations on the campus to have a part in framing its policy, the Student Council has sent letters to the presidents of these organizations and requested them to be present at a meeting to be held Monday at five o'clock. The Council will read a plan presenting its policy of activity and will ask opinions on the plan. Those receiving letters were: the presidents of Innocents; Mortarboard; Vikings; Silver Serpents; W. S. G. A.; Kosmet Klub; W. A. A.; Y. M. C. A. cabinet editor of the Daily Nebraskan; editor of the Cornhusker; and a representative from the N Club.

Sigma Delta Chi Plans Activities

Sigma Delta Chi met Thursday night to consider plans for the publication of Awgwan and for the high school editors convention. Committees were appointed to confer with authorities in regard to the two activities.

The newly reinstated chapter has assumed a strictly professional attitude toward the progress of journalism at the University and has announced itself as firmly in co-operation with the school of journalism.

UNIVERSITY RIFLE TEAM IS ANNOUNCED

Fifteen to Represent Nebraska in Intercollegiate Matches This Year.

The new university intercollegiate rifle team composed entirely of upperclassmen was announced yesterday by Captain Huskea through Latelle De Ford, acting chairman of the rifle team. The list is provisional as yet and additions to the team will be made as the meets progress. Fifteen men of those on the list will fire for record each week, and of this number, the ten highest will be counted in the inter-collegiate matches.

The new intercollegiate team of fifteen men will be picked each week from the following cadets: K. Lawson, Charley Horth, Leaming, Thad Liveringhouse, Jim Marshall, Latelle DeFord, F. B. Millson, W. D. Over, A. N. Huddleston, D. P. Roberts, L. R. Ross, Dale Skinner, D. H. Bartholomew, W. Lamli, D. D. Lewis, F. E. Hunt, and E. Currier. Others will be added as the practice scores indicate them eligible for the record team.

All the men announced on the list are expected to fire the required shots today in the first week's matches. The results of this week's shooting must be in the mail tomorrow and it is necessary that each man chosen for the rifle team fire today, in order that a good showing may be made in the first week of intercollegiate shooting.

Hold Meeting

A short meeting of the members of the rifle team was held in Nebraska Hall yesterday afternoon, Latelle DeFord, presiding as chairman. Another meeting will be held next week and plans outlined for systematic shooting in the weekly matches. A captain of the team will also be chosen at an early meeting. In the meantime Latelle DeFord has been asked by captain Huskea to act as temporary chairman of the team and help in lining up the fellows for shooting each week.

Freshmen who were barred from the intercollegiate team by the university ruling will be eligible for the Hearst Trophy matches late in spring and will practice until then in order to be in good condition. Some upperclassmen on the intercollegiate team may be beaten out by Freshmen when it comes to the R. O. T. C. team for the Hearst trophy matches.

ENGINEERS TO VOTE ON A. A. E. THURSDAY

Daily Nebraskan Publishes Erroneous Report Concerning Meeting.

An incorrect report that the engineering students were to decide whether they would keep the student chapter of America Association of Engineers at Nebraska at yesterday morning's convocation was published in the Thursday morning Nebraskan. January 17 is the date set for the meeting to decide whether there will be a new general engineering society on the Nebraska campus.

That the advantages derived from membership in such a national society as A. A. E. are not commensurate with the dues paid to that body, at least so far as engineering students are concerned has long been the opinion of engineers, a member of the A. A. E. executive committee said yesterday.

MICHIGAN: The college opera "Cotton Stockings" which made a trip east, played to packed theaters in Philadelphia, Buffalo and Washington.

REGISTRATION IS VERY HEAVY

All Not Registering by Saturday Noon to Be Charged Late Fee.

EXPECT OLD RECORDS TO BE SHATTERED

One day and a half remains in which resident students may register for the second semester. All those who fail to see their advisers and to hand in their applications by Saturday noon will be charged a late registration fee. The colleges had expected the heaviest registration Wednesday, and although the stormy weather caused a noticeable falling off from that expected, there was an increase in the number over the previous day.

The heaviest registration came Thursday. Some of the colleges were so rushed that an estimate of the number who completed their schedules was impossible.

Following are the estimates by colleges at the end of the fourth day of early registration:

Engineering 325.
Arts and Sciences 800.
Teachers 600.
Agriculture 300.

The College of Business Administration, Dentistry, and Pharmacy were unable to approximate the number of their registrations.

Because the advisers will be unable to see all their students today and tomorrow it is expected that many students will not be able to complete their schedules and be through registering by Saturday noon, the final day of registration.

The College of Arts and Sciences expects a total registration of about 2,000 for this semester, and in the Teachers College it is believed that last semester's record of 900 will be surpassed this term.

SOUTHWICK SCORES SUCCESS IN OTHELLO

Audience Is Impressed by Recital Without Settings or Costumes.

Creating a bond between his characters and his audience that remained unbroken throughout his recital was the signal achievement of Henry Lawrence Southwick, who gave an interpretive recital of "Othello" at the Temple Theater last evening.

From the opening of the play to the end of the closing act his audience was never conscious of the fact that the recital was given without setting, costumes, or lighting effect.

The characters created by the greatest dramatist the world has ever known were made alive, graphic, vivid, by Professor Southwick. He had no need to resort to tricks of delivery, for he possesses the power of interpreting his characters in a most forceful style.

Miss Howell, of the dramatic department, and a graduate of the Emerson College of Oratory of which Professor Southwick is president, introduced the reader. Professor Southwick made his third appearance at Nebraska under the auspices of the University Players, who were well rewarded by a capacity house.

Mary Wigton Badly Injured by Fall

Mary Wigton, '26, of Lyons, Nebr. slipped and fell striking her head on the ice, near Social Science building, yesterday morning. She was carried to the restroom of Social Science where she was attended until the ambulance took her to the Lincoln sanitarium. She was unconscious and delirious for a few hours and is thought to have a slight concussion of the brain.

Inspection Trip Made by Machinery Class

The farm machinery class under Prof. J. D. Parsons visited exhibits of the ceding implement houses in Omaha Tuesday. The exhibits were shown for the Implement Dealers Convention held during the week. The Moline, the Rock Island, and the John Deere were the houses visited.
