

## START WORK ON SENIOR PICTURES

Staff of Annual Asks Students to Make Appointments in Office.

### JUNIORS MUST HAND IN PROOFS BY TOMORROW

Work on the senior pictures for the Cornhusker will begin Monday and will continue for two weeks. Appointments can be made at the Cornhusker office at any time. Seniors are urged by the staff to make their appointments at once, if possible, and have their pictures taken during examination week. By getting their sittings this week, they will avoid the usual rush at the studio. No lists will be published during this week, so that there will be plenty of time for appointments. Over 100 pictures were taken before the holidays and the staff expects to get every senior within the next two weeks.

**Photograph No More Juniors.**  
All junior pictures that will be in the book have been taken and no more appointments can be made by juniors. Work on the mounting for cuts will begin Tuesday. Over 500 juniors will appear in the Cornhusker. This is a great increase over the number in former years, there being only 410 in the section last year. This year's class responded very well to the plan of making appointments and the staff is pleased with the results.

All juniors who still have proofs out must return them to Dole's studio before Monday evening if they wish to make their own choice of the picture which is to go in the book. If the proofs are not returned the staff will be forced to make the selection.

All Cornhusker pictures are to be taken by February 2, according to the staff. This includes all departments of the book. Any organizations that have not made appointments for pictures must do so soon, by calling the Cornhusker office. The pictures are to be taken at the campus studio.

All sorority pictures should be taken by the middle of this week. Appointments for these pictures can be made at either the Cornhusker office or Dole's. Fraternity pictures were finished last week, and are being mounted. With the completion of the senior section, most of the pictures will have been taken.

## TRACK TEAM STARTS TRAINING THIS WEEK

### Nebraska Has Enough Coaches and Equipment for Five Hundred Men.

Everything is set for a successful track year, according to Head Coach Schulte. Intensive training, preparatory to tryouts for the Kansas City indoor meet, will start this week and every man who expects to report for the squad should see Coach Schulte, at the athletic offices, as soon as it is convenient.

There is a great chance for track men to make the team this year and the coaching staff and equipment are sufficient to take care of from four to five hundred candidates. Under Schulte's system of coaching it is possible for men with very little apparent ability to develop into track men and letter men.

**HARVARD**—The first of a series of college votes on prohibition laws brought in the results of a 2 to 1 vote against prohibition.

## Vesper Choir to Give Concerts for Mission

A program of philanthropic work was decided upon at the monthly dinner of the Vesper choir held at Ellen Smith hall Tuesday night. The business meeting following the dinner was presided over by the president, Josephine Bishop. Norma Carpenter was elected social service chairman.

The social service plans for the year include a program at the Orthopedic hospital, and the continuance of last year's program of singing at the City Mission once a month. The choir will also have a trained quartet that will be available for University affairs. Lola Craig was elected social chairman to have charge of the dinners and parties.

## PHI DELTA CHI WINS ANNUAL RIFLE SHOOT

### Phi Gamma Delta Lags Fifteen Points; Kappa Psi Takes Third Place.

The Phi Delta Chi rifle team with a total score of 806 won first place in the third annual inter-fraternity rifle tournament held by the military department, which closed Saturday morning. Second place was won by the Phi Gamma Delta team with a score of 791, and third by Kappa Psi which also scored 791, but made a lower standing position record. The two fraternities were tied for second place on the basis of total scores, and the standing position scores decided the winner according to standard army regulations covering rifle matches. The Phi Gam team made 172 in the standing position, and the Kappa Psi made 171.

Other high scores in the match were made by Alpha Sigma Phi 778, and Delta Chi 767. Phi Tau Epsilon was fifth with a score of 730.

Major Sidney Erickson will give a skin to the winners of first and second place.

Nineteen fraternities were entered in the tourney, of which fourteen completed all firing, and five were incomplete. Last year there were twelve in the meet.

Francis Millson of the Sigma Chi team was high man in the shoot. He made 187 out of a possible 200. Fred Kamm of Alpha Sigma Phi was second high individual man with a score of 179. Willard Dover, Alpha Sigma Phi, W. F. Mast, Kappa Psi, R. Young, Phi Gamma Delta, Raymond Currier, Phi Delta Chi, were tied for third high individual honors, each of them making 174.

The fraternity scores are listed below:

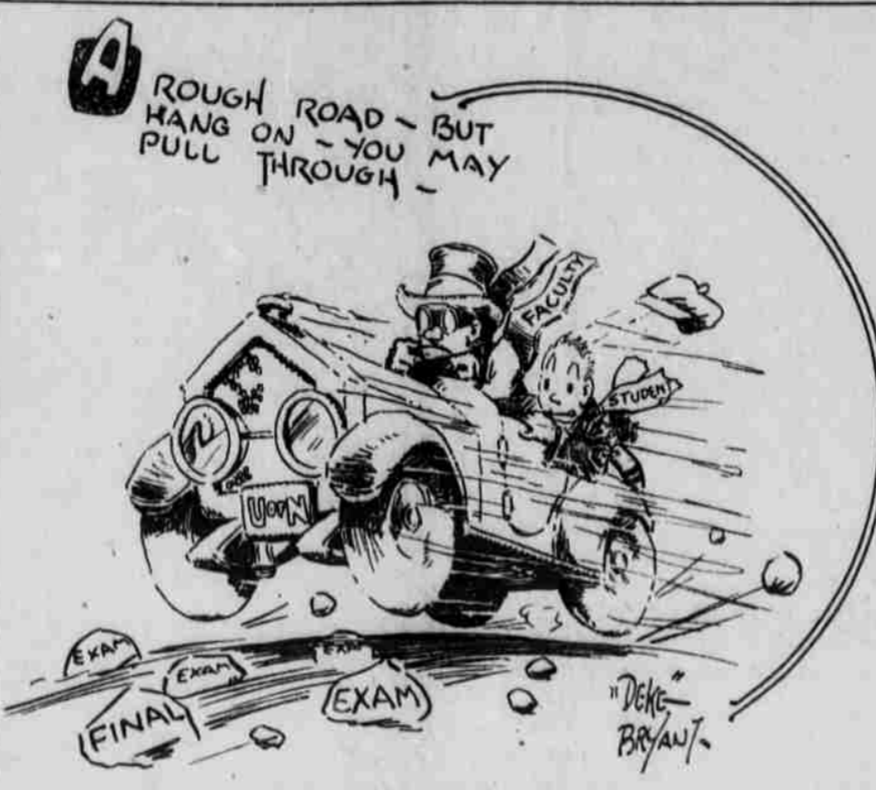

Phi Delta Chi	806
Phi Gamma Delta	791
Kappa Psi	791
Alpha Sigma Phi	778
Delta Chi	767
Phi Tau Epsilon	730
Sigma Chi	716
Bushnell Guild	712
Alpha Theta Chi	695
Lambda Chi Alpha	661
Delta Upsilon	656
Kappa Sigma	632
Delta Tau Delta	614
Nu Alpha	579

**DARTMOUTH:** The annual Dartmouth Outing Club winter ascent of Mt. Washington will start February 23. This date was chosen in order to insure fast snow on the 21,000 ft ski course. Although perfectly safe for even a novice on skis a speed of 40 miles an hour is often reached on this slide. Snowshoes and ice-creeper will be used by the students in order to visit all places of interest.

## Fees

The student fees for the second semester registration are to be paid in the Armory as follows:

January 21-22 (Open from 9 a. m. to 5 p. m.)	
College of Arts and Sciences.	
Pre-Medics, Pre-Dents, Pre-Laws.	
School of Journalism.	
School of Fine Arts.	
College of Business Administration.	
January 23-24 (Open from 9 a. m. to 5 p. m.)	
College of Agriculture.	
College of Dentistry.	
College of Engineering.	
Graduate College.	
College of Law.	
College of Pharmacy.	
Teachers College.	

## Ag Engineers Choose Leaders for Semester

The American Society of Agricultural Engineers elected officers Friday. L. G. Samsel was elected president, Thomas Koontz, vice president, and Claude Wiegner, secretary-treasurer, for the coming year. Narotny was chosen to represent the society in the Engineering college.

The society outlined the program for the ensuing semester. A series of talks will be conducted by the members on engineering topics at the regular meetings. An entertainment is being planned to raise funds to send a representative to the national convention in the near future.

## SELECT COMMITTEES FOR BIZAD BANQUET

### Chairmen Say Both Men and Women Invited to Banquet February 8.

Bizads will gather February 8 for their annual banquet at the Chamber of Commerce. This banquet will be open to all men and women in the College of Business Administration. Merle Loder, president of the men's club and Josephine Schramek, president of the women's club, are joint chairmen.

They have announced the following committees:

Banquet: Bennet S. Martin and Marie Van Es, joint chairmen; Art Latta, John Hollingsworth, Florence Hosing, Meta Wunder.

Ticket sales: Philip Lewis and Rhea Freidell, chairmen; Clayton Gore, Agnes Anderson, Mildred Armstrong, Fred Kraemer.

Publicity: Frank Fry and Minnie Schlieting, chairmen; Wilber Swanson, Mildred Jensen, Doris Loeffel, Willard Penry.

Entertainment: Deitrich Dierks and Alice Kauffman, joint chairmen, Oscar Osterlund, Paul Cheney, Earlyne Harriot, Ella Hardin.

## Omaha Beats Fremont by Two-point Margin

Early week games in high school circles showed about the same brand of basketball that marked last week's contests. The Fremont-Omaha Central battle headed the list of pre-week games, Central taking the long end of a 24 to 22 score after a hard fought game.

Score of week day games were: McCook 23, Indianola 22. Nebraska City 32, Peru 3. Aggie H. S. 11, University Place 8. Chadron 19, Alliance 14. Valentine 32, Alliance 12. Grand Island 44, North Platte 10. Omaha Central 24, Fremont 22. Winnebago 28, Craig 26. Tilden 38, Meadow Grove 8. Fairmont 19, Geneva 5.

In addition to these games, girls' teams in many schools have been playing regularly. Some fine teams are being produced.

**INDIANA**—The football squad have organized a Sloovering Club. The purpose of the club is to keep the football spirit among the members so that spring practices will start without a hitch.

This will be the last issue of the Daily Nebraskan until the second semester begins. A new staff, selected by the Publication Board, will edit it for the next quarter.

## Postpone Rifle Match Booked for This Week

No intercollegiate rifle matches are scheduled for this week on account of examinations. The match with Cornell University that was scheduled for this week has been postponed.

The gallery is reserved this week for straggling freshmen who have not yet completed the required rifle shooting in the freshman military science course. This is the last chance for delinquent freshmen to clean the slate. The gallery is open every day from 9 until 12 o'clock and from 1 until 4. Failure to do the required gallery shooting makes an incomplete in the course.

## START PLANNING FOR JUNIOR-SENIOR PROM

### Assess Students to Pay Class Debt and Allow Holding of Formal.

The recent ruling that juniors and seniors are to pay their class dues in the registration line has allowed committees to start plans for the annual junior-senior prom. A rule made by the committee on student organizations that no organization having a deficit in its treasury can hold a social function would have barred the junior-senior prom had it not been that the respective debts were in this way erased.

Among the three big University functions, the junior-senior prom has always been the one to put a climax to the formal season. But few formal parties are held after this event. The field for the upper class party is now clear and committees from both classes are making their plans.

## FARES REDUCED FOR HIGH SCHOOL TEAMS

### Cut Is Made in Railway Rates for Teams Coming to Basketball Tourney.

High school basketball teams coming to the state tournament set for March 6, 7 and 8 have been granted a special rate of fare-and-half, according to a notice received from the Chamber of Commerce.

The annual basketball tournament has become one of the largest in the world and attracts hundreds of teams every year. All of the plans for the tourney are in charge of the "N" club. Active work on the assignment of the various teams has already started but will not be finished until later scores show the rating of the interscholastic squads.

## Two Alumni to Speak to Chemical Society

Two prominent alumni who hold state positions—R. G. Batty, Ph. C. '15, B. Sc. Ph. '16, state chemist, and L. C. Vose, B. Sc. Ag. '17, M. A. '18, state bacteriologist—will speak on "Applications of Chemistry and Bacteriology in the Enforcement of Food and Drug Legislation" at the 113th meeting of the Nebraska section of the American Chemical Society, in Chemistry hall 208, January 17 at 8 p. m.

## Use of Oxygen in Smelting Results In Cheaper Metals, Says Committee

(University News Service)  
Radical changes in the methods of metal manufacture resulting in cheaper metals, in conservation of the metal wealth of the country by the utilization of lower grade ores for smelting, and in production of cheaper artificial gas by the introduction of oxygen in place of atmospheric air—these are some of the results of investigation carried on by a special advisory committee of the United States bureau of mines.

Prof. William L. DeBaufre, chairman of the department of mechanical engineering at the University of Nebraska, is a member of this committee, which was charged with the duty of eliminating waste and increasing efficiency in the utilization of minerals by the use of oxygen in metallurgical processes. This committee completed the thirteenth annual report of the bureau recently, having given special attention to possible developments in the smelting of pig iron, the Bessemer and open hearth process for the manufacture of steel, the manufacture of artificial gas, and the blast furnace smelting of ferromanganese. Oxygen, popular chiefly for breathing, may bring a revolution in metal processes, this report shows.

### Decrease Cost; Increase Output.

As an example of the savings made possible by the research of the committee, Professor DeBaufre points out it will be practicable to increase the oxygen of the blast 21 per cent to 31 per cent, and that this enriched blast, when fed to furnaces cold, will increase the production of the furnaces by 18 per cent and decrease costs by 6.7 per cent. Not only will cost be decreased but the output per furnace will also be increased, trouble in the smelting can be more readily located and remedied (Continued on Page 4)

## HUSKERS LOSE TO OKLAHOMA 32-20

### With Nebraska Trailing, One Point at Half, Sooner Defense Tightens.

### IS THIRD CONSECUTIVE VALLEY BASKET DEFEAT

(Special to the Nebraskan.)  
NORMAN, Okla., Jan. 19.—Trailing by one point at the half, the Cornhuskers failed to weather a terrific Sooner onslaught in the second half, and went down to defeat, 32-20 here tonight. Coupled with the defeat at the hands of Kansas 19-18 Friday evening, this makes the third consecutive Missouri Valley basketball defeat for the Husker squad.

The game was bitterly fought with neither side possessing the advantage in the first half. Oklahoma tightened up on the defensive in the final period and found the Husker basket for 17 points, holding Nebraska to 6 points.

Wallace, Sooner guard, was the individual star of the game. His brilliant floor work and basket shooting netted Oklahoma five field goals and a free throw.

Wheeler, lanky center of the Oklahoma five, nearly equaled the mark of Wallace when he tossed in four field goals and two free throws for a total of 10 points. Wheeler was one of the fastest men on the floor.

Captain Usher was the main stay of the visitors. Time and again he broke up threatening Oklahoma offensive moves by sheer speed. Personal fouls were plentiful, Oklahoma drawing 12 and Nebraska 6.

Cozier ran up 6 points for the Huskers. Beerkle and Black each had a try at the forward position, Beerkle getting a basket, and Black making a free throw.

The close defensive work of the Oklahoma squad, coupled with the failure of the Nebraska men to connect well with the hoop in the last half, was responsible for the defeat of the Huskers. The Sooners rolled up 17 points in the final frame; the Scarlet and Cream five getting 6.

Hargiss, Kansas State Teachers College, referee.

### Kansas Defeats Nebraska.

Thirty seconds before the whistle, Ackerman tossed the basket that defeated the Huskers in the Kansas-Nebraska game at Lawrence Friday night. The final score was 19 to 18.

The Huskers led the count 11-5 at the half, but a Kansas rally tied the score 11-11. The score saw-sawed till it was again tied at 17, when Volz realized one point on a (Continued on Page 4)
