

## ANNOUNCE P. B. K. LIST THURSDAY

About Fifty Seniors to Be Named at Convocation in Temple.

## NEW MEMBERS TO BE ELECTED WEDNESDAY

Announcement of those who have been elected to Phi Beta Kappa will be made in a convocation at the Temple theater at 11 o'clock Thursday. The election of members will be held Wednesday noon and it is expected that about fifty of the seniors will be selected.

Those who are eligible at this time include seniors who were graduated in the summer and in January, as well as those who will receive their diplomas this June. From one-tenth to one-sixth of those eligible are usually taken, according to Prof. A. R. Congdon, secretary of the local chapter.

Phi Beta Kappa was founded at William and Mary College in 1776 and is the oldest Greek letter organization in America. The Alpha of Nebraska was founded in 1896.

**Eligibility Requirements.**  
To be eligible, a student must be a candidate for a bachelor's degree from any college in the University of Nebraska provided that the group requirements for graduation from the Arts and Science college have been fulfilled.

All grades made in the University previous to the election are averaged, with the exception of those in shorthand, typewriting, and required work in physical education and military science.

The members will consider no student who has less than sixty-four hours exclusive of the above subjects recorded in the office of the Registrar by March 5, at least twenty-four of these being in the group requirement.

No student who is considered for membership at the time of the annual election, being eligible under the rules, shall again be considered for membership, except as an alumnus. Election to the fraternity is based on scholarship only.

## SJOGREN SPEAKS TO FRESHMAN ENGINEERS

"Some Phases of Engineering" Is Subject of Orientation Lecture.

"Some Phases of Engineering," was the subject of a lecture delivered by C. A. Sjogren to the freshman engineers, at their weekly orientation Monday evening. The relation of economic problems to manufacture, and their relation to the engineer, and the position of the engineer in regard to the capitalist and the laborer, were the main topics discussed.

"The development and adaptation of various tools, as aids in speeding up production, is one of the most significant phases of our modern industry. The progress of civilization, in the field of production, is measured by the tools used in that production. We have passed thru stone, bronze, and other ages, and now are in what is called the Iron Age, and the development of the time indicates that there may be another soon, the age of the newly invented aluminum alloys.

"Until the most recent stage of development it has been necessary for highly skilled workmen to lay out work that required special skill, but now, through the use of 'jigs'—the standard term for time saving appliances used in making quantity production—which is called the transference of skill, men with comparatively little skill are able to turn out 'high grade work,' Mr. Sjogren said.

"What the quantity manufacturers are trying to do today is to reduce their costs, so that they may cater to a less moneyed class of people and therefore more customers and they do this by engineering methods. They reduce their costs by taking those shop fundamentals such as are taught in the university and finding better use for them.

"For this reason the engineer should have a thorough knowledge of the shop processes that enable articles to be produced in great quantity," Mr. Sjogren pointed out.

A scene from Moliere's "The Imaginary Invalid" which will be presented by the Coffey-Miller Players Wednesday in the Temple Theater.

## Dr. Alexander to Speak at Vespers

Dr. H. B. Alexander, chairman of the philosophy department of the University, will speak at vespers tonight at 5 o'clock on the subject "The Pattern Man." The remainder of the program will consist of the reading of the Meditation and a vocal solo by Josephine Altman.

Mary Creekpaum will lead. The hostesses will be the seniors of the Y. W. C. A. cabinet.

The readings for the week will be chapters 6, 7 and 8 of the Book of Mark.

## ENGLE TAKES FIRST IN ANNUAL JUDGING MEET

Block and Bridle Club Sponsors Contest for Animal Husbandry Students.

Alfred Engle was high man in the annual students judging contest held Saturday under the direction of the Block and Bridle club of the College of Agriculture. James Barnes was a close second. The other ribbon winners were: Walter Tolman, third; Nate Tolman, fourth; Peter Pratt, fifth; Honor Oschner, sixth; Jay Hepperly, seventh; Hugh McLaughlin, eighth; Robert Bushnell, ninth; Dorsey Barnes, tenth.

Individual class winners were as follows: Cattle—Nat Tolman first, Dorsey Barnes second, Wallace Buck third, James Barnes fourth, Alfred Engle fifth. Hogs—Jay Hepperly first, Peter Pratt and Alfred Engle tied for second, Clay Westcott fourth, James Barnes fifth. Sheep—Glen Dunlap and Nat Tolman tied for first, Pratt and Engle tied for third, J. Barnes and Bushnell tied for fifth. Horses—W. Tolman first, Oschner second, Engle third, Bushnell fourth, Hepperly fifth.

The entire day was spent on the contest, the placings being made in the morning and the reasons given in the afternoon. Ten classes of stock were judged and eight sets of reasons were given.

## Fossil Collection Is Sent to Museum

The department of geology and geography has recently received two important consignments of invertebrate fossils. One set consists of 110 species from the Pliocene beds of California, collected by Dr. Sternberg and the other set consisting of forty to fifty species from the United States National Museum, identified by Dr. Stanton and supplied by Dr. Bassler. The latter collection is in exchange for material sent some months ago by the University Museum to the National Museum. This collection now becomes a part of the Morrill Geological collections, since the material used in exchange was drawn from Charles H. Morrill's collections in the Museum.

KANSAS—Protectographed grades have been inaugurated by George Foster, registrar. Raising grades or altering transcripts will be impossible under this system.

## NEW FRATERNITY FOR ENGINEERS ORGANIZED

Mu Sigma Is Approved by Faculty Committee on Student Organizations.

Mu Sigma, a professional engineering fraternity, was approved last week by the committee on student organizations. Nineteen student charter members and three faculty members make up the membership of the new fraternity.

The purpose of Mu Sigma is to promote the social and professional welfare of the engineering profession and of the students in the engineering college, according to Clarence M. Kerr, president. This is the first social engineering fraternity to be organized at the University. Members of the new organization say that there has been an urgent need for such a fraternity for some time. A committee has been at work for several weeks to secure a house to be used as the home of the fraternity at the beginning of the next school term.

The honorary members of the organization are: Dean O. J. Ferguson, Prof. Clark E. Mickey, and Prof. William L. DeBaufre.

Active members of the fraternity are chosen from students who are sophomores in the engineering college. The student members and officers of the fraternity follow:

Clarence M. Kerr, president; D. H. McCoskey, vice president; Howard H. Fowler, secretary; J. Marsh Meier, corresponding secretary; Earl E. Sorenson, treasurer; H. A. Burns, historian; F. J. Boucher, D. R. Brown, J. Roland Carr, Elton E. Caster, Harold M. Clute, Gerald L. Gray, Richard F. Krage, Marion E. LaBounty, Walter T. Lammi, Francis V. Moynahan, Frank A. Nies, Erwin E. Perso and Marion B. Surber.

## Weather Forecast

Tuesday—Partly cloudy with not much change in temperature.

## Coffey-Miller Players Present Sheridan's Comedy, "The Rivals"

With Martha Miller, the star of the evening, cast as Mrs. Malaprop, the Coffey-Miller Players presented "The Rivals" to a partly-filled house at the Temple theater last evening. "The Rivals" is the first of a series of classical comedies to be made to University students this week by the Chicago company.

As Mrs. Malaprop, who uses the right word in the wrong place, Martha Miller was easily the outstanding player of the company. Her affected manner and studied coquettishness effectively characterized the period the comedy was supposed to represent.

The play was a continual round of laughs on the part of the audience and Mrs. Malaprop's unconscious witticisms drew at least half of them.

As Bob Acres, a man who aspired to be a gentleman and pretended to the love of Lydia Languish, Jess Coffey gave a remarkable touch of humor to that vacillating character.

Captain Jack Absolute, alias Beverly, courted the fair Lydia Languish under two names, to the bewilderment of Mrs. Malaprop and his father who was striving to marry him to

## SELLECK AND MATHERS TO ADDRESS STUDENTS

University Republican Club Sponsors Third Political Convocation.

The University Republican club will hold the third of a series of convocations in the Temple this morning at 11 o'clock. W. A. Selleck of Lincoln and A. N. Mathers of Gering will be the speakers at the meeting.

Both speakers are candidates for republican nominations in the coming elections. Mr. Selleck is up for nomination for United States congress and Mr. Mathers is a candidate for the nomination for governor.

Both men have had a great deal of experience in public affairs. Mr. Selleck has been especially prominent in Lincoln. He is the president of the Lincoln State National bank and chairman of the board of trustees of Doane College. Mr. Selleck served a term in the state senate in 1911 and has been a delegate to the constitutional and national conventions. His subject will be "Good Government."

Mr. Mathers is a prominent citizen of Gering where he is president of the Gering National bank. He was speaker in the state house of representatives in 1922 and 1923. He was at one time a student in the state university.

## Cornhusker Staff Picture Will Be Taken Wednesday

The Cornhusker staff picture will be taken Wednesday at 12 o'clock at the campus studio. All members of the staff should appear promptly in order to avoid unnecessary delay in arranging the groups.

Owing to the size of the staff there will probably be two separate groups taken Wednesday noon. This will be the only picture of all the workers who have contributed their efforts to the Cornhusker of 1924. The announcement includes all the students of both business and editorial staffs.

## Scholarship Awarded to Nebraska Student

George M. Buffett, who is at present working for his masters degree in the department of chemistry, has been awarded a scholarship at the University of Wisconsin for next year. Buffett received his degree in the Arts and Science college last June, when he was awarded a scholarship in the chemistry department here for this year.

Buffett will receive his masters degree at Nebraska during the summer session, and will work for his doctor's degree at the University of Wisconsin. In addition to his scholastic and research work at the northern school, he will do a small amount of teaching.

HON. A. N. MATHERS  
Gering, Scotts Bluff County, Nebr.  
Candidate for the republican nomination for governor who will speak at the convocation in the Temple theater this morning at 11 o'clock.

## MAKE PLANS FOR ARTS AND SCIENCE SMOKER

Get-together Sponsored by Centurions to Be Given Thursday Night.

"What Are We Coming To," is to be the subject of a speech by Dr. Franklin D. Barker of the department of zoology, at the Arts and Science college smoker Thursday evening at 7:30 at the University Club. A musical number will be included on the program and refreshments will be served. The smoker is sponsored by the Centurions, men's honorary organization for the Arts and Science college.

The smoker is second in a series being staged by the Centurions. It is planned to have the different phases of Arts colleges work discussed at these meetings. Paul Richardson is chairman of the program committee for the smoker and Charles Adams heads the committee which will have charge of the ticket sale.

Be speech by Dr. Barker will deal with both sides of the evolution question, will take up the question of race development and the question of what the future of the human species will be.

## Tickets Are Issued for International Uni Night Program

Tickets were issued and instructions were given to the general committee for the International University Night last night at a meeting held in Social Science 107. Keith Tyler, general chairman, presided and Josephine Schramek told the committee about the sale of tickets. Earl Smith emphasized the importance of supporting the entertainment.

Tickets may be reserved at the Ross P. Curtice music store after spring vacation and until that time they may be bought from any member of the committee or at the College book store.

## Committee Plans for Sherwood Eddy Week

The general committee for the Sherwood Eddy convocations held a meeting at 5 o'clock yesterday to form plans in preparation for the coming Sherwood Eddy week.

"The publicity committee will put forth all their efforts this week in an endeavor to clear up all the work before spring vacation so that all the meetings can be carried out successfully," Duke Gleason, chairman of the Sherwood Eddy committee said yesterday.

## World Forum Will Hear Dr. A. A. Holtz

Dr. A. A. Holtz of the Kansas State Agriculture college will speak at the world forum luncheon on "The Youth Movement in Europe." Dr. Holtz travelled with Sherwood Eddy in Europe last year where he studied economic, social and political problems.

Tickets must be purchased by Tuesday night from either the Y. M. C. A. or the Y. W. C. A. office.

## SCHOOL TO VOTE ON SINGLE TAX

Two Plans Will Be Submitted for Consideration by Students.

## REFERENDUM WILL BE HELD APRIL 8

A mass meeting of all students is called for Wednesday at 11 o'clock in the Temple, the Student Council announced late yesterday, to consider changing of the present method of nominations for the council. It is probable that the change will be made by means of an amendment to the constitution of the council—to be voted on at the time of the single tax referendum—providing for nomination by filing, as class officers are nominated. The present method is nomination by acclamation in college mass meetings.

The students of the University will be given an opportunity to vote on a single tax plan Tuesday, April 8, when a special ballot will be taken, it was announced yesterday afternoon following a meeting of the Student Council. Two questions will be presented on the ballot with a yes and no space below each question. The first will concern a tax of \$15, which will buy a ticket for athletic contests, publications and charities. The second question to be voted upon will be the tax in the form of the three separate campaigns.

Unless a majority of at least 2000 votes is cast in favor of one or the other of the two questions it will be necessary to disregard the vote. It would be impossible to ask any activity to join a voluntary tax movement unless the ballot will show a potential sale of more than 2000 tickets.

When the Student Council suggested the single tax plan for Nebraska students seemed to favor such action and various plans were proposed. The plan which involved a large tax which would include all activities on the campus seemed to meet much disapproval while the plan for three drives was received more favorably. The latest plan favors the introduction of three separate plans—one for athletics, one for activities and a third for charities.

## HOUCK WILL VISIT DELTA SIGMA RHO

National President of Debating Fraternity to Come to Nebraska.

Stanley B. Houck of Indianapolis, national president of Delta Sigma Rho, honorary organization for intercollegiate debaters, will visit the Nebraska chapter April 16. Plans for his entertainment were discussed at a meeting of the organization held last night in the Law building. Mr. Houck comes to Nebraska after making a tour to the western coast, in which he visited thirteen chapters.

The local chapter will discuss plans with Mr. Houck for the Delta Sigma Rho general council meeting to be held in Ann Arbor, Mich., the first week in May. Nebraska will probably not have a delegate at the meeting but will be represented by proxy.

The probability of a debate between Nebraska and the University of Oxford next October was discussed. The Oxford team, which will tour the country, has included Nebraska on its tentative schedule. In about two weeks the fraternity will initiate Devon C. Eyer, Gayle C. Walker, and Floyd Leavitt, the three intercollegiate debaters this year, who are not members of the organization.

## Chittick to Speak at Pharmacy Convocation

Martin B. Chittick, '16, professor in the pharmacy department of the University of Minnesota, will be the main speaker before the pharmacy convocation April 16 during pharmacy week. Mr. Chittick will also speak at the banquet pharmacy night, April 18. He will be a guest of the Pharmacy college the entire week.
