An Interview with
**Misses' Tailored
 Suit**

The Season's Most Popular Star
 I found the "Tailored Suit"
 back in the Misses' Apparel,
 Second Floor, Rudge & Guenzel's
 and I assured the brilliant
 young Star that a large and
 devoted public was eagerly
 awaiting a few words from her.

Her Overwhelming Popularity.
 "Everyone admits that you're
 the sensation of the new season;
 that the spring fashion
 play simply revolves around
 you," I told her. "To what do
 you attribute your overwhelming
 popularity?"

"To my extremely youthful
 ways," she said confidently,
 "and then my lines are so
 smart, so spirited that every-
 one loves them."

A Prominent Man
 "What," I asked, hesitating a
 little to introduce the name of
 such a prominent man into the
 conversation, "do you think of
 O'Rosen?"

"He made me," she said
 earnestly. "If it weren't for
 what he gave me—the slim hip
 length coat, its notched lapels
 and short straight skirt—I
 wouldn't be starrng today."

Her Favorite Flower.
 "My favorite flower," she
 continued, "is the gardenia, a
 single perfect blossom worn on
 the coat lapel—and as to fab-
 ric, there I'm impartial, navy
 and tan twills, English tweeds,
 hairline, twills, homespuns or
 fancy stripes."

"Please make it clear to the
 public," she added as I was
 leaving, "that I'm not a high-
 priced star. In fact, I may be
 found here daily in the Misses'
 Apparel at Rudge & Guenzel's
 playing for only \$49.50."

**Nebraska Graduate
 Writes of Cyclones**

(University News Service)

"April is the month of bumper
 crops," states Gayle Pickwell, B. A.
 '21, M.A. '22, of the department of
 zoology of Northwestern University,
 writing in The Nature Magazine (re-
 printed in The Literary Digest). Mr.
 Pickwell takes issue with the general
 notion that the "twister" season is
 confined to July and August, and
 declares that it is limited to March,
 April and May.

"The prevailing idea that torna-
 does occur during mid-summer," con-
 tinues Mr. Pickwell, "has crept into
 textbooks, but one does not need
 statistics to disprove it. Statistics
 show that nearly 80 per cent take
 form in the first three months of
 spring.

"Texas, Oklahoma, Kansas and
 Missouri run neck and neck for fun-
 nel-cloud honors. Nebraska easily
 takes second place. And, closely in
 order come Mississippi, Alabama,
 Iowa, Illinois, the Dakotas and Min-
 nesota. Outside this region the
 whirling cloud seldom strikes."

**Correcting A
 False Impression**

Some Nebraska men seem to have the
 impression that the new FARQUHAR
 COLLEGE CLOTHES for Spring are
 high priced. We have the finer qual-
 ities, of course—they're bound to cost
 more.

*But we've a great collection of new
 clothes to show you at popular prices--

Most of them are brand new arrivals;
 light and medium-dark fabrics; all
 splendidly tailored in two and three
 button college styles.

If you've decided on a reasonably priced suit for
 spring, come to FARQUHAR'S first; you'll find
 the sort of clothes you're looking for.

*At \$55 and \$60 we've a host of new Stratford

 it's possible to find. But whatever price you pay,
 you're assured of lasting service and satisfaction.*
