SINGLE TAX PLAN TO BE ABANDONED

Required Majority of 2000 Is Not Given; Only 230 Cast Ballots.

COUNCIL AMENDMENT PASSED BY STUDENTS

Only 230 votes were cast by the student body yesterday on the single tax plan and the amendment changing the method of nomination to the student council. The vote on the single tax plan was 156 for and 78 against the plan. This automatically drops the plan as a majority of 2000 was required for its passing. The amendment was passed by a vote of 170 to 40.

Eighty-five people voted for the first plan calling for a blanket tax of \$15 covering all athletic events, a subscription to the Daily Nebraskan, a copy of the Cornhusker, and all school drives. Seventy-one favored the second plan dividing the tax into three parts. Seventy-eight people voted against the plan in any substance.

Those voting on the adoption of the plan seemed to be people now in activities who are carrying most of the work and are most interested in the activities. Students not in activities appeared in small numbers.

The amendment passed will go into effect this semester on the vote for next year's student council members. The amendment changes the method of nominating people to election on the student council from the present plan of acclamation in mass meeting. Students desiring office will now file their names in the student activities office before the nomination.

COMMENDS STUDY OF MODERN LANGUAGES

Professor Warshaw Says It Has Cultural and Commercial Values.

"There are more than 3,500 spoken languages and dialects, and wherever these are spoken, Americans may be found. That is why it is important that Americans should study foreign languages," Prof. Jacob Warshaw of the department of modern languages told freshman lecture students of the College of Arts and Sciences, Monday evening and Tuesday morning. The subject of his talk was "Modern Languages and the Educated American."

"American business men are enterprising," he said. "They seek trade with other countries. They must know the language of the people with whom they trade. They cannot transact business deals by making signs."

Courses in classical languages, Greek, Latin and Hebrew, have always been given in our colleges, according to the speaker, but it was not until the latter part of the eighteenth century that it became necessary in some colleges for students to study modern languages when working for a degree.

"The study of modern languages has disciplinary, cultural and commercial values. That is why it is obligatory in most colleges and universities and it taught in high schools and in some grade schools," declared Professor Warshaw.

Europeans, with the exception of the French, have always stressed the importance of studying the languages of neighboring countries, he said. In a country like Switzerland, surrounded by countries that have different tongues, it is necessary that the people know various languages. Most Swiss people learn German, French and Italian.

Start Plans for Engineers Dance

The annual engineers dance, held in connection with Engineers week, will be Saturday night, April 26, at 8:30, at the Knights of Columbus hall. Allan F. Burns has charge of the dance, and has appointed the following ticket salesmen: Noel Smith, Elmer Jensen, Marvin Ward, Alfred Fowler, Roy Randolph, Orve Hadden, Judson Meier, Eugene White, E. J. Wehmer, Francis Boucher, Knox Burnett, G. E. Reed, Wonder Morris, E. T. Gustafson, Harold Edgerston, Ellis Ehroth, Bobby Burns.

Weather Forecast

Wednesday and Thursday—Fair with moderate temperature.

R.O.T.C. PREPARES FOR GOLD STAR INSPECTION

Noncommissioned Officers Appointed and Company Commanders Assigned.

Intensive work in the R. O. T. C. in preparation for the Gold Star inspection this spring by army officers from Washington began immediately after spring vacation with the assignment of cadet officers to the various companies and the appointment of non-commissioned officers in the companies. Sabers have also been issued to company commanders and staff officers with rank of captain and above.

The first regimental parade of the year will be held Thursday at 5 o'clock, all thirteen companies of the regiment participating. The regimental will be held weekly, on a different day of each week.

The appointment of officers: Robert F. Craig, colonel. Monroe D. Gleason, lieutenant colonel.

Howard J. Hunter, major, first battalion.

Hobb R. Turner, major, second battalion.

Herbert W. Rathsack, major, third battalion.

Captains.

- Earl C. Rohrbaugh, Co. B.
- Alexander McKie, Jr., Co. F.
- G. H. Latelle DeFord, Co. C.
- Addison E. Sutton, Regt. Insp. Of.
- John D. Westman, Co. L.
- C. Harold Spencer, Co. A.
- Marion L. Woodard, Co. H.
- Dietrich M. Dirks, Co. G.
- Charles M. Horth, Regt. Adjt.
- Giles C. Henkle, R-3.
- Thad H. Livinghouse, Co. I.
- Blanchard A. Anderson, Co. K.
- Carl C. Kruger, R-5.
- Jay W. Andersen, Co. M.
- John A. Cameron, R-2.
- Elmer M. Swingle, R-4.
- John W. Madden, morale officers.
- Edward M. Buck, Co. D.
- Amos W. Gramlich, Hq. Co.
- Francis B. Millson, Co. E.

First Lieutenants.

- Edward L. Senn, Co. F.
- C. Henry Johnson, Co. C.
- Edward C. Richardson, Co. H.
- Irwin R. Green, Co. I.
- Lemont B. Kier, Co. K.
- Gus R. Wolf, Co. B.
- Harry L. Pecha, Co. L.
- Hugh J. McLaughlin, Hq. Co.
- Newell E. Freeman, Co. F.
- Edwin W. Morris, Co. H.
- Charles G. Ortman, Co. F.
- Henry A. Baehr, Co. G.
- Charles M. Whitney, Co. L.
- A. Leicester Hyde, Co. E.
- Robert S. Lake, Co. D.
- Willard W. Penry, Co. M.
- Theodore E. Cable, Co. D.
- Russell F. Richmond, Co. I.
- Harold Avery, Co. B.
- Donald P. Roberts, Co. H.
- John H. Graebing, Co. A.
- Jay W. Repperly, Co. C.
- Kenneth H. Kinsler, Co. D.
- Marc R. Merryfield, Co. A.
- Warren G. Noggle, Hq. Co.
- Charles V. Warren, Co. M.
- Forest W. Brown, Co. F.
- Charles C. Caldwell, Co. D.

(Continued on Page 4.)

Make Progress With Farmers Fair Plans

Work of the committee for Farmers Fair is progressing rapidly according to Allan Cook, general manager of this year's fair. The materials committee which is responsible for the progress of all the other committees is pushing ahead the plans and all the other committees are now able to start active work.

All chairmen of the various committees should decide what their needs are and report them to Raymond Swallow, chairman of the materials committee. All properties such as tents, costumes, flooring for the dance platform, materials for floats, are in charge of Swallow.

A general catalog of Phi Beta Kappa has been issued, the first to be published for the past twenty years. More than 55,000 members received between 1776 and 1922 are listed with a brief biographical statement concerning each.

A. T. O. CLINGS TO LEADING POSITION

Lead in Interfraternity Track Meet Is Cut to 493 Points.

NO CHANGES MADE IN FIRST THREE PLACES

Alpha Tau Omega's lead of 1252 points over Sigma Phi Epsilon in the interfraternity track meet was cut down to 493 in the mile run and the javelin throw yesterday. Alpha Tau Omega still heads the list with 13,103. Sigma Phi Epsilon is second with 12,610, and Bushnell Guild is third on 11,576 points. Delta Tau Delta went up to fourth with 10,898.

All of the fraternities slumped considerably and many men failed to qualify in the point-making division. The highest number of points was made by Dickson of Bushnell Guild who ran the mile in 4:50 for 800 points.

The last two events in the meet, pole vault and 50-yard high hurdles, will take place this afternoon in three sections of 3:15, 4:15 and 5:15. The 5:15 section will be the last opportunity for delinquent fraternities to complete running in events in which they were unrepresented on the regular days.

Bassett of Alpha Tau Omega came within 21 inches of equalling the record in the 16-pound shot put Saturday, and made 988 points out of a possible 1000, the highest mark so far.

The A. T. O. slump in the events run off yesterday gives the Sigma Phi Epsilon track men a chance at first. The Sig Eps made 800 points more than the A. T. O.'s yesterday, and if they do only little more half that good today they will win the coveted first place honors.

The official results at the end of the tenth event are:

Alpha Tau Omega	13,103
Sigma Phi Epsilon	12,610
Bushnell Guild	11,576
Delta Tau Delta	10,898
Sigma Alpha Epsilon	10,734
Delta Upsilon	10,697
Farm House	9,982
Kappa Sigma	9,299
Phi Tau Epsilon	8,947
Sigma Nu	8,853
Alpha Sigma Phi	8,480
Phi Kappa Psi	8,218
Acacia	7,540
Alpha Theta Chi	7,335
Phi Gamma Delta	5,155
Beta Theta Pi	5,216
Phi Delta Theta	4,030
Delta Chi	3,798

MOVE ALUMNI OFFICES TO TEMPLE BUILDING

Increased Amount of Work Being Done Makes Change Necessary.

The Alumni offices have been moved from room 106 in the Law building to the Temple building. The increased amount of work done thru the offices makes larger rooms necessary.

The new quarters include the large room in the northeast corner on the first floor of the building, and the small room next to it. All equipment and fixtures have been moved and decorators are refinishing the rooms. The small room will be used as a mailing room. The large room will be used for the Alumni office and stadium headquarters.

A special feature of the new office will be the reception room for old grads. This will be a small room furnished with davenport, chair, and rug and should be a comfortable place for the alumni to have their headquarters whenever they return.

To Begin Practices for Frat Baseball Tourney

Practice games are being scheduled in preparation for the annual interfraternity baseball tournament. No date has been set but the tournament will probably be held the last week in April or the first week in May, according to the athletic office. A definite date will be decided on as soon as Coach Kline returns from the south where he is with the varsity baseball team.

Kansas University has recently adopted the point system for men.

Sherwood Eddy, who will give the first of his series of lectures at the St. Paul church at 11 o'clock today.

EXPECT "DULCY" TO DRAW LARGE CROWDS

Heavy Ticket Sale Reported for Last Production of University Players.

The ticket sale for the last University Players' production of the season, "Dulcy," is large, according to the business manager. The largest crowds of the season will probably pack the Temple Theater for the four performances to be given this week-end starting Thursday night.

The play is a modern comedy of the same type as "The Three Wise Fools," which was presented by the Players earlier in the season. A member of the cast said yesterday, "Dulcy is the Indian club among the dumbbells."

The action of the play centers around a modern affectionate wife who is overly anxious to help her husband. The part of Dulcy is being taken by Gertrude Moran. Orville Andrews takes the role of Gordon Smith, Dulcy's husband. Tickets are on sale at Ross P. Curtice company for 75 cents.

LICHTY WILL SPEAK TO SOCIALISM CLASS

Vice President of Colorado Fuel and Iron Company to Visit Campus.

A. H. Lichty, vice-president of the Colorado Fuel and Iron company, will give an address on "The Human Factor in Industry," at 9 o'clock today in Social Science 302 before Dean J. E. LeRossignol's class in socialism. The lecture is open to the public.

Mr. Lichty is in charge of the personnel division of the Colorado corporation and has made a special study of various plans of welfare work and profit-sharing proposals. He will explain the so-called Rockefeller plan, which has been in operation for seven years in his company.

Thursday at 10 o'clock Mr. Lichty will talk before Dr. E. S. Fullbrook's class in marketing in Social Science 302 on the marketing of the products of the Colorado Fuel and Iron Company.

Miss Appleby Speaks at Vesper Services

"The Meaning of the Cross" was the subject of an address by Miss Erma Appleby, Y.W.C.A. secretary, at Vespers in Ellen Smith hall Tuesday evening. Miss Appleby explained the profound principles for which the cross stands and told of the many abuses, among the greatest of which is war, that have been committed against these principals.

This Vesper service was a preliminary to the annual Passion service which will be held next Tuesday evening. Special music was furnished by Harriet Cruise and Josephine Altman who sang a duet. Emma Westerman presided.

DARTMOUTH—Students at Dartmouth, Bryn Mawr, Yale, Swarthmore and Northwestern will cooperate next summer in maintaining an intercollegiate camp at Woodstock, N. Y. from June 1 to September 17.

EXCUSE CLASSES THIS MORNING FOR FIRST OF EDDY MEETINGS

Students Will Meet on Campus at Twelfth and R Streets and March to Church for Address; No Subject Announced for First Lecture.

WELL-KNOWN TRAVELER AND SPEAKER TO MEET COMMITTEES AT LUNCHEON

PROGRAM TODAY.

- 10:30—Classes excused.
- 10:40—Parade forms at Twelfth and R streets.
- 11:00—Address in St. Paul church at Twelfth and M streets, Chancellor Avery presiding.
- 12:00—Luncheon at Grand hotel for Sherwood Eddy, faculty and both committees.
- Afternoon—Conferences arranged.
- 7:15—First evening address, Gertrude Tomson presiding.

Classes will be excused at 10:30 o'clock today, a parade will form at Twelfth and R streets, and students will march to St. Paul church, Twelfth and M streets, to hear the first of the Sherwood Eddy addresses. Mr. Eddy will arrive in Lincoln at 10:40 o'clock and will be met at the station by a group of students.

Mr. Eddy has announced no subject for his first address. His only reference to the first lecture stated that he would speak on topics of vital interest to students, Monroe Gleason, chairman of committee in charge, stated. He will probably announce the other subjects. Chancellor Avery will preside at this address.

Immediately after the speech, the committees, members of the faculty and Nebraska's guest, Sherwood Eddy, will meet at the Grand hotel for luncheon. Short talks will be given and general business matters will be discussed.

To Hold Conferences.

For a short time in the afternoon, Mr. Eddy will be available for conferences. Appointments may be made with Paul McCaffree, secretary of the University Y.M.C.A. Mr. Eddy stated that not more than two main addresses should be held in one day for he wanted to have the afternoons to meet with students and faculty members.

The second address of the day, to start at 7:15, will be presided over by Gertrude Tomson, president of Mortar Board. Those who do not care to remain for the entire address will have an opportunity to leave at 8 o'clock.

Monroe Gleason stated that students did not seem to know that Sherwood Eddy paid all of his own expenses while visiting the various colleges of the country. The only expense that students are asked to bear is that incurred by the committee in announcing the coming of Mr. Eddy to Nebraska. Such announcements were made through the columns of the papers without expense but the posters, the pamphlets, and the rental on the church must be paid for by student contributions.

Pharmacy Student Victim of Holdup

Dale C. Reynolds, '26, was held up Sunday night on the South street road east of Normal as he was coming to town. Two masked men stepped in front of the car and ordered him to stop. They searched him but failed to discover any money and did not relieve him of his watch. Reynolds is a sophomore in the Pharmacy college. His home is at Neligh, Nebraska.

WOMEN MAKE MORE W.S.G.A. NOMINATIONS

Two Additional Candidates from Each Class Named at Meeting.

Two additional candidates for the W. S. G. A. board in each class were nominated at a meeting following Vespers yesterday at Ellen Smith hall. The complete list of nominations follows:

Ruth Carpenter, Barbara Wiggenhorn, president. Rosalie Plattner, Neva Jones, Dorothy Dougan, Frances Mentzer, Margaret Cannell, Ella Nuernberger, senior members.

Frances McChesney, Esther Garrett, Ruth Wells, Helen Tomson, Mariel Flynn, Mary Ellen Edgerton, Ruth Schrank, junior members. Julia Drath, Katherine WeWhinnie, Elizabeth Morgan, Ruth Johnson, Margaret Dunlap, Irma Guhl, Doris Pinkerton, sophomore members.

Sjogren to Be Editor of Sigma Tau Magazine

C. A. Sjogren, instructor in charge of the machine tool laboratory has been appointed editor of the Pyramid, the official publication of Sigma Tau, national honorary engineering fraternity. He is the faculty advisor of Alpha chapter at Nebraska. The February issue of the Pyramid has just appeared.

Sigma Tau is a Nebraska institution as it was organized here in 1904. Since that time it has expanded and now has chartered twenty chapters. The twentieth convolve of the fraternity will be held at Lincoln, October 2, 3, 4, 1924.

Produce Liquid Air On Campus at Rate of Three Gallons per Day

(University News Service.)

Liquid air, not unlike ordinary city water in appearance, was made for the first time on the campus of the University March 31 and can now be produced for experimental purposes at the rate of about three gallons a day. This process, by which atmospheric air is cooled to the point of liquefaction, is an important step in research work on heat transfer and heat insulation at low temperatures, which in turn are important phenomena in the manufacture of helium, the new gas so much in demand to float lighter-than-air craft. Working for the national defense, the U. S. Bureau of Mines has undertaken to produce helium in great quantities and at low cost.

helium but will furnish data for determining better methods of helium production. Prof. William L. Debaufre, chairman of the department, who is in charge of the research work, is a member of the national board of helium engineers.

Machinery consisting of a four-stage compressor, electric motor, and a liquefier coil, was secured from the bureau of mines at no cost to the University and installed in the basement of Mechanical Engineering building.

So cold is liquid air (about 310 degrees below zero on the Fahrenheit scale) that rubber dipped into it shatters when dropped on the floor, and steel becomes so brittle that in the tension test it snaps without a reduction in area. At the temperature of liquid air, gasoline solidifies so that candles can be made out of it.
